

was, on the 13th day of February, 1863, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 17th day of February, 1863.

H. J. Bartlett, Superintendent Registrar.

NOTICE is hereby given, that a separate building, named Tabernacle Chapel, situate at Meadow-road, Holbeck, in the parish of Leeds, in the county of York, in the district of Holbeck, being a building certified according to law as a place of religious worship, was, on the 20th day of February, 1863, duly registered for solemnizing marriages therein, pursuant to the Act of the 6th and 7th Wm. IV., cap. 85.

Witness my hand this 23rd day of February, 1863.

Chas. Cluderay, Superintendent Registrar.

Patent Law Amendment Act, 1862.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

2764. Henry Bridson, of Bolton-le-Moors, in the county of Lancaster, Bleacher and Finisher, and John Alcock, of the same place, Millwright, have given notice at the office of the Commissioners of their intention to proceed with their application for letters patent for the invention of "improvements in machinery for folding, measuring, and hooking woven fabrics."

2765. And Edward Barlow, of Bolton-le-Moors, in the county of Lancaster, Machine Maker, and James Clough and Francis Hamilton, of the same place, Foremen, have given the like notice in respect of the invention of "certain improvements in machinery for driving cotton-gins, and for preparing and combing cotton and other fibrous substances."

2766. And Jacob Snider, Junior, of Pennsylvania, United States of America, now residing at 51, Dorset-street, London, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in the construction of 'Hansom cabs,' and other similar vehicles."

2769. And Matthew Cartwright, of Hoxton, in the county of Middlesex, Dentist, has given the like notice in respect of the invention of "improvements in plates for artificial teeth."

2773. And Owen Johnson Showell and John Showell, both of the city of Manchester, in the county of Lancaster, Surveyors, have given the like notice in respect of the invention of "improvements in the construction of glass roofs and roof lights."

As set forth in their respective petitions, all recorded in the said office, on the 14th day of October, 1862.

2777. And William Wilson, of No. 18A, Wigmore-street, in the county of Middlesex, has given the like notice in respect of the invention of "an improved oblong drawing room bagatelle and billiard table, with reversible top, and made in various shapes and sizes."

2778. And John Henry Jenkinson, of the city of Manchester, Cotton Spinner, has given the like notice in respect of the invention of "certain improvements in drinking fountains."

2782. And William Pope, of Cornwall-road, Lambeth, in the county of Surrey, Gentleman, has given the like notice in respect of the invention of "improvements in coating the sides of ships, batteries, forts, or other places with defensive armour plates."

As set forth in their respective petitions, all recorded in the said office on the 15th day of October, 1862.

2790. And William Barningham, of the Pendleton Iron Works, near the city of Manchester, Iron Manufacturer and Engineer, has given the like notice in respect of the invention of "improvements in the permanent way of railways."

2800. And Joseph Robinson, of East India-road, in the county of Middlesex, Surveyor, has given the like notice in respect of the invention of "improvements in protecting the submerged portions of iron ships, and in ventilating the cabins and cabin-decks in iron ships."

2801. And Edward Hely, junior, of Merchant's Quay, Dublin, and Clonliffe Mills, co. Dublin, Envelope Manufacturer, has given the like notice in respect of the invention of "improvements in envelopes."

As set forth in their respective petitions, all recorded in the said office on the 16th day of October, 1862.

2803. And John Summerton, of Smethwick, in the county of Stafford, Agricultural Machinist, has given the like notice in respect of the invention of "certain improvements in harrows for harrowing land."

2804. And Henry Wickehs, of No. 4, Tokenhouse-yard, Bank, in the city of London, Solicitor, has given the like notice, in respect of the invention of "improvements in machinery for making nails."—The result partly of a communication to him from abroad by William Wickersham, of Boston, in the county of Suffolk, and State of Massachusetts, in the United States of America, Engineer, and partly of invention and discovery made by him.

2807. And George Tomlinson Bousfield, of Loughborough-park, Brixton, in the county of Surrey, has given the like notice in respect of the invention of "Improvements in the manufacture of iron and steel," a communication to him from abroad by the inventor Goran Fredrik Göransson, of Gefle, in the kingdom of Sweden.

As set forth in their respective petitions, all recorded in the said office on the 17th day of October, 1862.

2812. And John Bentley, of Denton, in the county of Lancaster, Hat Manufacturer, has given the like notice in respect of the invention of "improvements in apparatus for forming and pressing felt hats."

2813. And Bernard Lauth, late of Pittsburg, Pennsylvania, United States of America, but at present residing at Reichshoffen, in the empire of France, has given the like notice in respect of the invention of "improvements in machinery or apparatus for polishing sheet iron or other metal."

2814. And Richard Archibald Brooman, of 166, Fleet-street, in the city of London, Patent Agent, has given the like notice in respect of the invention of "improvements in frames for doubling and twisting threads."—A communication to him from abroad by Constant Sauval, of Amiens, France.

As set forth in their respective petitions, all recorded in the said office on the 18th day of October, 1862.
