

Societies in England, on the 12th day of March, 1863.

*John Tidd Pratt*, Registrar of Friendly Societies in England.

London, 12th day of March, 1863.

**N**OTICE is hereby given, that an agreement authorized by 18 and 19 Vict., c. 63, s. 13, for the dissolution of a Friendly Society, called the United Brothers Friendly Society, held at the Maze Hotel, Harrow-road, in the county of Middlesex, was transmitted to the Registrar of Friendly Societies in England, on the 12th day of March, 1863.

*John Tidd Pratt*, Registrar of Friendly Societies in England.

London, 12th day of March, 1863.

Before the Judicial Committee of the Privy Council.

**U**PON a Motion made on the 4th day of March, 1863, by Counsel, praying that the day appointed for hearing the Matter of the Petition of George Hinton Bovill, of Durnsford Lodge, Wimbledon, and others, for a prolongation of the term of the Letters Patent granted to the said George Hinton Bovill, for improvements in "manufacturing wheat and other grain into meal and flour," and bearing date, for England, &c., 5th June, 1849, for Scotland, 28th May, 1853, and for Ireland, 25th May, 1853, might be adjourned, it was ordered by their Lordships that hearing of the matter of the said Petition be adjourned from Thursday, the 19th day of March instant, to Monday, the 13th day of April next, at half-past ten o'clock, a.m.

*Harrison, Beal, and Harrison*, No. 19, Bedford-row, Holborn, Middlesex, Solicitors for the said Petition.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

**N**OTICE is hereby given, that—

2966. Frederick Trachsel, Chemical Engineer, and Thomas Clayton, Machinist, both of the city of Manchester, in the county of Lancaster, have given notice at the Office of the Commissioners of their intention to proceed with their application for letters patent for the invention of "improvements in machinery or apparatus for obtaining light, heat, and ventilation, parts of which improvements are also applicable to other purposes."

As set forth in their petition, recorded in the said office on the 3rd day of November, 1862.

2983. And Thomas Huntley, of Manchester, has given the like notice in respect of the invention of "improvements in kitcheners and kitchen ranges, and in cooking and bath heating apparatuses."

2987. And August Conrad Dewies, of Nicholl-square, Aldersgate-street, in the city of London, has given the like notice in respect of the invention of "an improved lubricator."

As set forth in their respective petitions, both recorded in the said office on the 4th day of November, 1862.

3001. And Jules Joseph Laveisierè, of 58, Rue de la Verrerie, Paris, Merchant, has given the like notice in respect of the invention of

"improvements in the manufacture of tubes of copper or other metals or alloys."

As set forth in his petition, recorded in the said office on the 5th day of November, 1862.

3007. And William Nelson Hutchinson, of Plymouth, in the county of Devon, Major-General in Her Majesty's Army, has given the like notice in respect of the invention of "improvements in apparatus or means for protecting the screw of steamers from becoming entangled with or fouled by ropes or other bodies."

As set forth in his petition, recorded in the said office on the 6th day of November, 1862.

3013. And Thomas Greenwood and James Schofield, of Rochdale, in the county of Lancaster, Machine Makers, have given the like notice in respect of the invention of "improvements in mules for spinning and doubling."

As set forth in their petition, recorded in the said office on the 7th day of November, 1862.

3015. And Henry Gardner, of Chaple Town, Leeds, in the county of York, Engineer, has given the like notice in respect of the invention of "improvements in machinery for treating flax and other fibrous materials preparatory for manufacturing purposes, the said machinery being also applicable for pressing, rolling, grinding, pulverizing, or mixing various other substances."

3017. And George Henry Ogston, of Mincing-lane, in the city of London, Consulting Chemist, has given the like notice in respect of the invention of "improvements in treating nitrous acid and nitric oxide, in order to convert them into nitric acid."

3018. And Charles William Spruyt, of New Broad-street, in the city of London, Civil Engineer, has given the like notice in respect of the invention of "improvements in rails for railways."

3019. And William Simpson, of Liverpool, in the county of Lancaster, Sorter in the Post Office, Liverpool aforesaid, has given the like notice in respect of the invention of "improvements applicable to letter boxes and other like receptacles."

3023. And James Mello-dew and Thomas Mello-dew, of Moorside Mills, Oldham, in the county of Lancaster, Manufacturers, and Charles William Kesselmeyer, of Manchester, in the said county, Warehouseman, have given the like notice in respect of the invention of "improvements in looms for weaving."

As set forth in their respective petitions, all recorded in the said office on the 8th day of November, 1862.

3026. And John Whitaker, of Leigh, in the county of Lancaster, Agricultural Implement Maker, has given the like notice in respect of the invention of "improvements in machinery or apparatus for pulping, stripping, and slicing edible roots for cattle."

3029. And Richard Rivington Holmes, of the British Museum, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in folding chairs and seats."

3031. And James Shanks, of Arbroath, in the county of Forfar, North Britain, Machinist, has given the like notice in respect of the invention of "improvements in mowing machines."

As set forth in their respective petitions, all recorded in the said office on the 10th day of November, 1862.
