

NOTICE is hereby given, that a separate building, named the Scott-street Chapel, situate at Scott-street, in the parish of Sculcoates, in the borough of Kingston-upon-Hull, in the district of Sculcoates, being a building certified according to law as a place of religious worship, was, on the 30th day of March, 1864, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 23rd day of November, 1864.

William Chatham, Superintendent Registrar.

NOTICE is hereby given, that a separate building, named the High-street New Connexion School Room, situated at High-street, Huddersfield, in the parish of Huddersfield, in the county of York, in the district of Huddersfield, being a building certified according to law as a place of religious worship, was, on the 24th day of November, 1864, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85, being substituted for the building known as the High-street New Connexion Chapel, situated in High-street, in the parish and county aforesaid, now disused.

Witness my hand this 25th day of November, 1864.

Jno. W. King, Superintendent Registrar.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

1782. Thomas Johnson, Engineer, of Hadleigh, in the county of Suffolk, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in machinery for washing and cleansing bottles and jars or such like articles."

As set forth in his petition, recorded in the said office on the 16th of July, 1864.

1797. And Percy Graham Buchanan Westmacott, of Elswick, Newcastle-on-Tyne, has given the like notice in respect of the invention of "improvements in machinery used for dressing stone and in cutting or driving galleries, tunnels, and other works in stone or mineral."

As set forth in his petition, recorded in the said office on the 18th day of July, 1864.

1799. And Antoine Espirat and Etienne Sause, of Marseille, in the Department of the Mouth of Rhône, in the Empire of France, has given the like notice in respect of the invention of "an improved filter."
