

in the Year 1675, when the *Suede* and *Brandenburgher* were engaged in a War, taking the occasion of some difference about the exchange of Lands in *Oidenburgh*, he detain'd the Duke of *Holstein* in *Flemburgh*, and concluded a new Agreement with him, by which, the Duke renounced all the Advantages he might pretend by the aforesaid Treaties, and submitted to receive a Danish Garrison into his Towns; which he afterwards protected against, when he was at Liberty, declaring all that was done to be null and void, as being extorted from him by the force and restraint he lay under: The Solicitation he hath since employ'd towards the Princes of the Empire (whereof he is a Member,) for his Re-establishment, hath, by their Interposition, procured this Meeting at *Altena*, at which, the Emperor, by Consent of Parties, hath been accepted as Mediator; who hath nominated the Barons *Goedentz* and *Reichenbach*, to assist on his Part: The King of *Denmark's* Commissioners are the Sieurs *Ebrenschild*, and *Jansh* of *Bretenu*: And the Sieur *Alfeld* for the Duke of *Holstein*: Those appointed to be present in the Name of the Princes of that Circle, are the Sieur *Fuchs* for the Elector of *Brandenburgh*, the Sieur *Humecken* for the Elector of *Saxony*, the Baron *Goritz* for *Brunswick*, and the Sieur *Witzendorf* for *Lunenbourg*; and the King of *Sueden* sends the Baron *Welling*. Though it had been designed that the Conferences should begin about the end of *October* last yet the Baron *Goedentz* being obliged to go to *Lubeck* to compose a difference sometime depending in that City, and some other intervening Matters kept them from assembling at *Altena* till the end of *November*; however the Danish Commissioners has been there from the 7th of *November*, to have that to say that there has been no delay on their part: Time has been spun out by many little Niceties, that often accompany these greater Debates, when they are so circumstanced, as to allow leisure to dispute them. One of the Preliminaries not yet adjusted is, That the Duke of *Holstein* gives himself Titles which the other side do not allow to be his due: And his Commissioner styles himself from a Place, which a Danish Gentleman claiming, thinks himself injured in it, and has accordingly enter'd his Protestations: But these difficulties may be easily pass'd over (when they are so dispos'd,) with an usual Declaration, That no Titles on either side shall be taken for Presumptions of Right. It is said the Commissioners have taken some time to consult their Principals, upon a Demand made by the Baron *Bidall*, the French Resident to this State, who hath offer'd the Mediation of that King, and insists upon the Liberty of being present at all their Meetings, and to be informed of what passes: He hath a Character sent him of Envoy Extraordinary to the Duke of *Holstein*, from whom he had Audience accordingly on the 28th past. In the mean time several private Conferences have been held with the Imperial Commissioners to prepare things for a general Meeting, which are not yet in that readiness that a day can be prefix'd for the same. The King of *Denmark* hath taken offence, that the Emperor should at this time send a Decree to the Princes of the *Lower Saxony*, to seize the Sieur *Pohleman* wherever he may be found: He was formerly Sindick here, and being one of those who was accus'd to have been concerned in the late Conspiracy for which *Jaffram* and *Smitzer* were executed, he was sentenc'd to perpetual Imprisonment and Confiscation of Estate; but escap'd the first by flying to *Gluckstar*, where he was made one of the King's Council in the Court of *Chancery* there, from whence he procur'd a Summons to be sent to the Senate of this City, to appear and answer his matter of Complaint against them.
