The vessel is moored in 7 fathoms water, and from her the Elbow buoy bears N.N.E. $\frac{1}{2}$ E., distant 4 $\frac{1}{2}$ cables.

Directions.—Vessels entering the port at night, should bring this light to bear to the southward of S.S.W. before getting the two red lights at the pilot station in one (the light being visible from the Timandra bank), which done, haul up to round the Timandra bank buoy. After passing Sea Hill point, steer to pass within a cable to the eastward of the light vessel; haul up close round to the southward of her and steer west (northerly), thus leaving the black boy and the black beacon off Raglan point on the port hand, and passing about a cable to the southward of the large Mangrove island.

By passing to the southward of the light vessel as above directed, not less than 15 feet depth of water will be found in the channel at low water springs.

Fixed Light on Lady Elliot Island.
