A LICENCE to hold an Exhibition of Cattle, whether intended for immediate slaughter or otherwise, has been issued by the Lords of the Council for:—

Haslingden ... Lancaster, on the 30th day of July, 1868.

(Signed) ALEXANDER WILLIAMS.

April 30, 1868.

(C. 596.)

*Board of Trade, Whitehall,
April 30, 1868.*

THE Right Honourable the Lords of the Committee of Privy Council for Trade have received through the Secretary of State for Foreign Affairs, a Despatch from Her Majesty's Consul at Charleston, enclosing the following Military Orders, which have been issued with respect to the observance of Quarantine on the Coast of South Carolina during the ensuing summer season:—

HEAD QUARTERS SECOND MILITARY DISTRICT,
CHARLESTON, S.C., April 8, 1868.

[General Orders, No. 64.]

I. In order to protect the communities and the troops stationed with them against the importation of contagious or infectious diseases, it is necessary to establish an effective and uniform system of quarantine at the several ports in this district; and for that purpose the following regu-

lations are hereby established, to take effect on the first day of May proximo, and will continue in force until modified or revoked by proper authority.

II. All vessels coming directly or indirectly from any place where cholera, yellow fever, ship fever (so called), or any other infectious disease existed at the time of their departure, or which shall have touched at any such place, and proceeded thence to any port in this district, or on board which, during the voyage, any case of the above-mentioned diseases shall have occurred, shall be brought to, and shall await the visit of the inspecting Quarantine Officer at the point designated for that purpose, and shall be subject to such quarantine or other rules and regulations as the Quarantine Officer may prescribe.

III. It shall be the duty of the Quarantine Officer to board every vessel subject to quarantine or visitation, immediately on her arrival at the points or station designated, or as soon thereafter as practicable, to enquire as to the health of all persons on board, the condition of the vessel and cargo, to inspect the bill of health, manifest, log-book, &c., and to examine on oath the captain, crew, or passengers; and if he is satisfied that she has come from infected ports, or has any sickness on board, or finds the vessel in a filthy or unhealthy condition, he shall at once decide on the preliminary steps to be taken, give the necessary orders, and report at once, in writing, to the Medical Director for specific instructions as to his future action in the case. The Medical Director, on receiving the report of the Quarantine Officer, shall at once give him specific instructions as to the disposal of the vessel, her crew, passengers, and cargo.

IV. It shall be the duty of every pilot conducting a vessel into any port or harbour of the district, to bring her first to the station designated for examination by the Quarantine Officer, and to remain on board, without proceeding beyond such station, until the Quarantine Officer shall give him permission in writing to leave the vessel.

V. Every pilot neglecting or refusing to bring a vessel to the examining station, and afterwards to the quarantine station, if required by the Quarantine Officer to do so, shall be suspended from his office, and shall, on conviction, be punished as the military authorities may direct, subject to the approval of the Commanding General.

VI. Any captain or master of a steamer or sailing vessel passing the examining station without permission, or refusing to perform quarantine when ordered to do so, or by breaking quarantine after being at quarantine ground, or allowing any officer, passenger, or crew to leave his vessel without the permission of the Quarantine Officer, or permitting any unauthorized person to visit his vessel, or disobeying any order of the Quarantine Officer, on conviction thereof shall be punished by fine and imprisonment, or other sentence, as may be imposed by military authorities, subject to the approval of the Commanding General.

VII. Examining and quarantine stations.

1. CHARLESTON, S.C.

The quarantine ground or anchorage for infected vessels at Charleston, S.C., will be established in a suitable depth of water opposite or near to the White House Landing, in Stono Inlet. Quarantine hospital will be on Morris' Island. Storehouses for merchandise pronounced to be infected to be at Pawnee Landing.
