

NAVAL SALVAGE MONEY.

*Department of the Accountant-General
of the Navy, Admiralty, Somerset
House, December 14, 1868.*

NOTICE is hereby given to all persons interested therein, that preparations are now being made for the intended distribution of the award for salvage services rendered to the United States barque "Young Rover," by Her Majesty's ship "Highflyer," between 3rd and 18th July, 1866.

Agents or other persons having any just and legal demand, unliquidated, against the said award, are required to transmit the particulars of any such demand to the Registrar of the High Court of Admiralty, in order that the same may be examined, taxed, and allowed by that Officer, and paid under the sanction of the Judge of the said Court.

Due notice will be given, by future advertisements in the London Gazette, of the date proposed for the commencement of distribution; and, at the same time, the amount of an individual's share in the respective classes will be announced.

NOTICE is hereby given, that a separate building, named Mount Pleasant Chapel, situated at New Mills, in the parish of Glossop, in the county of Derby, in the district of Hayfield, being a building certified according to law as a place of religious worship, was, on the 15th day of December, 1868, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 17th of December, 1868.

Henry Barber, Superintendent Registrar.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for
Inventions.

NOTICE is hereby given that—

2467. Willoughby Montgomery Moore, of Balscadden Howth, in the county of Dublin, Esq., has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in invoice and other paper holders."

As set forth in his petition, recorded in the said office on the 6th day of August, 1868.

2481. And John Broadfoot, of Glasgow, in the county of Lanark, North Britain, Plumber and Brassfounder, has given the like notice in respect of the invention of "improvements in water closets."

As set forth in his petition, recorded in the said office on the 8th day of August, 1868.

2498. And Daniel Fruwirth, of Norwood, in the county of Surrey, Artist, and Abdiel Hawkins, of Camberwell, in the same county, Glyphographer, have given the like notice in respect of the invention of "an improved process for producing raised printing surfaces."

As set forth in their petition, recorded in the said office on the 10th day of August, 1868.

2503. And James Salmon, of Manchester, in the county of Lancaster, Printers' Engineer, has given the like notice in respect of the invention of "improvements in printing machinery."

2507. And Alexander Argamakoff, of St. Petersburg, in the Empire of Russia, at present residing at Stockwell-green, in the county of Surrey, has given the like notice in respect of the invention of "improvements in the production, by means of photography, of printing surfaces, adapted to lithography, typography, and chromotype."—The result partly of a communication made to him from abroad by Basile Bauler, of St. Petersburg aforesaid, and partly of his own invention.

As set forth in their respective petitions, both recorded in the said office on the 11th day of August, 1868.

2510. And Edward Paget Gillam Headly, of the firm of E. Headly and Son, of Cambridge, in the county of Cambridge, Agricultural Implement Makers, has given the like notice in respect of the invention of "an improved hydraulic apparatus for watering streets, roads, gardens, and other places, extinguishing fires, attaching to fire engines, and other similar or analogous purposes."

2511. And David Hill, of Stockton-on-Tees, in the county of Durham, Joseph Richardson, of Stockton-on-Tees aforesaid, George Nixon Duck, of Coatham, near Redcar, in the county of York, Cuthbert Greenwood Johnson, of Stockton-on-Tees aforesaid, and William Fairles Masterman, of Aislaby Hall, near Whitby, in the county of York aforesaid, have given the like notice in respect of the invention of "improvements in the manufacture of iron and steel."

2517. And Carl Dietrich Julius Sietz, of Bury, in the county of Lancaster, Manufacturing Chemist, has given the like notice in respect of the invention of "improvements in the construction of furnaces for the recovery of soda from the waste lyes, resulting from the boiling of esparto grass or straw, in the working and incinerating of the residue resulting from evaporation, and in an improved means of depriving it of any offensive odour."

2518. And James Wilson, of Salford, in the county of Lancaster, has given the like notice in respect of the invention of "improvements in outside blinds or sunshades for windows."

2525. And William Payne, of Balham, in the county of Surrey, has given the like notice in respect of the invention of "improvements in steam cocks or valves, also applicable for hot or cold water."

As set forth in their respective petitions, all recorded in the said office on the 12th day of August, 1868.

2533. And John Grant of Eton House, Jolin-street, Hampstead, in the county of Middlesex, Farmer, has given the like notice in respect of the invention of "improvements in machinery for turning over the leaves of music books or pieces of music, applicable to music stands, pianofortes, organs, and some other kinds of musical instruments."

2540. And Henry Kinnaird York, of the Grange Town Iron Works, Cardiff, has given the like notice in respect of the invention of "improvements in treating cast iron and other metals, and in apparatus employed therein."

As set forth in their respective petitions, both recorded in the said office on the 13th day of August, 1868.
