

August next, file in the office of the Chief Clerk of this Court a statement of the amount of their respective claims against the estate of the said Insolvent, duly verified by affidavit, and that the Chief Clerk should form a Schedule from the claims so to be filed.

*Carruthers, Pittar, and Dignam, Attornies*  
for the Official Assignee.

Calcutta, 5th April, 1869.

In the Matter of Letters Patent granted to Charles Tennant Dunlop, of Glasgow, in the county of Lanark, North Britain, Chemist, for an invention of "Improvements in the Manufacture or Production of Artificial Oxide of Manganese," bearing date at Westminster, the 22nd day of November, 1855, No. 2673.

NOTICE is hereby given, that it is the intention of Charles Tennant and Company, of Glasgow, Merchants and Manufacturers and the Trustees and Executors of the said Charles Tennant Dunlop, in whom the said letters patent are now vested, to present a Petition to Her Majesty in Council, praying Her Majesty to grant a prolongation of the term of the said letters patent; and notice is hereby further given, that on the 24th day of June next, or on such subsequent day as the Judicial Committee of Her Majesty's Privy Council shall appoint for that purpose, application will be made to the said Committee that a time may be fixed for hearing the matter of the said Petition; and any person desirous of being heard in opposition, must enter a caveat to that effect in the Privy Council Office on or before the said 24th day of June next.—Dated this 13th day of May, 1869.

*J. Henry Johnson, of No. 47, Lincoln's-inn-fields, London, W.C., Solicitor for the Petitioner.*

#### Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given that—

3959. George Tomlinson Bousfield, of Loughborough-park, Brixton, in the county of Surrey, has given notice at the office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in extracting the coloring matter of madder root from the ligneous matter of the plant."—A communication to him from abroad by Alfred Paraf, a person resident at New York, United States of America.

As set forth in his petition, recorded in the said office on the 29th day of December, 1868.

18. And Henri Adrien Bonneville, of the British and Foreign Patent Offices, 10, Sackville-street, Piccadilly, in the county of Middlesex, and 18, Chaussée d'Antin, Paris, in the Empire of France, Patent Agent, has given the like notice in respect of the invention of "certain improvements in the process of refining iron and making steel, and in the apparatus used in carrying out said process."—A communication from Cyrille Jean Caumon (also known as John Absterdam), of the city of Toulouse, France, Scientific and

Mechanical Engineer, at present a person resident at New York, in the county and State of New York, United States of America.

21. And James McKenny, of Dublin, Ireland, M.R.C.V.S. London, has given the like notice in respect of the invention of "improvements applicable to the shoes of horses and other animals."

As set forth in their respective petitions, both recorded in the said office on the 4th day of January, 1869.

24. And Louis Hannart, of King-street, Clerkenwell, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in manufacture of types and dies, and in the apparatus for such manufacture."

As set forth in his petition, recorded in the said office on the 5th day of January, 1869.

40. And John Sacheverell Gisborne, of Liverpool, in the county of Lancaster, Engineer and Electrician, has given the like notice in respect of the invention of "improvements in mechanical telegraphs."

42. And Konrad Walter, of Wicklow, in the county of Wicklow, has given the like notice in respect of the invention of "improvements in the manufacture of sulphuric acid."

43. And Alfred Tyler, of Mark-lane, in the city of London, has given the like notice in respect of the invention of "improvements in articles known as bon-bons or cossacks."

As set forth in their respective petitions, all recorded in the said office on the 6th day of January, 1869.

59. And John Daghish, of Dene House, Seaham Harbour, in the county of Durham, has given the like notice in respect of the invention of "improved apparatus for lubricating the axles of coal tubs and other wagons running on rails or tramways."

61. And Andrew Betts Brown, of No. 80, Cannon-street, in the city of London, has given the like notice in respect of the invention of "improvements in machinery for raising and conveying weights and conveying power, and in pumping engines suitable for actuating such machinery."

62. And William Thurston Waite, of Salisbury-square, in the city of London, Fellow of the Chemical Society of London, has given the like notice in respect of the invention of "improvements in the treatment of saccharine matters."

63. And Thomas Buchan Sydserrf, of Ruchlaw, in the county of Haddington, North Britain, has given the like notice in respect of the invention of "an improved ballot voting apparatus."

65. And Marmaduke Wilkin, of 2, St. James-terrace, parish of Paddington, county of Middlesex, Gentleman, and John Clark, of 23, Chippenham-terrace, parish and county aforesaid, Engineer, have given the like notice in respect of the invention of "improvements in railway breaks."

As set forth in their respective petitions, all recorded in the said office on the 8th day of January, 1869.

70. And Michael Saunders, of Prince's End, Tipton, in the county of Stafford, Engineer, and Henry Forrest, of Oldbury, in the county of Worcester, Brewer, have given the like notice in respect of the invention of "improvements in refrigerators."

As set forth in their petition, recorded in the said office on the 9th day of January, 1869.
