NOTICE is hereby given, that a separate building, named Ebenezer Chapel, situated at Bacup, in the parish of Whalley, in the county of Lancaster, in the district of Haslingden, being a building certified according to law as a place of religious worship, was, on the 11th day of November, 1870, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85, being substituted for the building known as Ebenezer Chapel, at Bacup aforesaid, now disused.

Witness my hand this 12th of November, 1870.

Thomas Woodcock, Superintendent Registrar.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for
Inventions.

NOTICE is hereby given, that—

1870. William Port Ayres, of the town and county of the town of Nottingham, Consulting Landscape Gardener and Horticultural Architect, has given notice at the Office of the Commissioners of his intention to proceed with his

application for letters patent for the invention of "improvements in the construction and arrangement of horticultural and other buildings or erections, or structures, and in the means and appliances for heating the same."

As set forth in his petition, recorded in the said office on the 1st day of July, 1870.

1878. And Osborne Reynolds, of Manchester, in the county of Lancaster, Civil Engineer, has given the like notice in respect of the invention of "improvements in machinery for propelling ships or vessels."

As set forth in his petition, recorded in the said office on the 2nd day of July, 1870.

1886. And Henry Blandy, of the town and county of the town of Nottingham, Dental Surgeon to the Free Dental Dispensary, Nottingham, and also Dental Surgeon to the Nottingham Midland Eye Infirmary, of the same place, has given the like notice in respect of the invention of "improvements whereby important documents, letters, invoices, and paid bills may be preserved and be readily referred to."

1888. And John Shanks, of Barrhead, in the county of Renfrew, North Britain, Sanitary Engineer, has given the like notice in respect of the invention of "improvements in apparatus for discharging water and air from steam pipes and apparatus."

As set forth in their respective petitions, both recorded in the said office on the 4th day of July, 1870.

1896. And Edward Holden, of the firm of Isaac Holden and Sons, of Bradford, in the county of York, has given the like notice in respect of the invention of "improvements in apparatus employed in preparing and combing wool and other fibres."

1897. And John Heaton, of Eastwood, in the county of Nottingham, Engineer, has given the like notice in respect of the invention of "improvements in obtaining motive power."

1901. And Thomas Hydes and William Wigfull, both of Sheffield, in the county of York, have given the like notice in respect of the invention of "improved methods of connecting together the vertical and horizontal bars of iron hurdles, palisading, and other kinds of fencing."

1903. And Edward Thomas Hughes, of the firm of Hughes and Son, Patent Agents, 123, Chancery-lane, London, has given the like notice in respect of the invention of "improvements in the manufacture of caustic soda."—A communication to him from abroad by William Helbig, of Koestritz, Prussia.

1904. And William Robert Lake, of the firm of Haseltine, Lake, and Co., Southampton-buildings, London, Patent Agents, has given the like notice in respect of the invention of "improvements in mechanical appliances and furnaces, and a process employed therewith for separating and reducing iron or iron ores, and for other metallurgical operations."—A communication to him from abroad by John Y. Smith, of Pittsburg, Pennsylvania, United States of America.

As set forth in their respective petitions, all recorded in the said office on the 5th day of July, 1870.

1905. And George Burney and Charles Ingall, both of Millwall, in the county of Middlesex, have given the like notice in respect of the invention of "improvements in storing petroleum and other inflammable or explosive liquids."
