India Office, April 6, 1871.

THE following Notice to Mariners for the approach to Kurrachee Harbour has been received from the Bombay Government, and is published for the information of Ship Owners, Masters, and others.

Marine Department.

HIS Excellency in Council is pleased to publish, for general information, the following revised directions for approaching the Kurrachee Harbour:—

Directions for approaching Kurrachee Harbour, with the depth Vessels should load to at different seasons of the year, to ensure crossing the Bar without detention:—

Latitude of the lighthouse on

Manora Point 24° 47' 21" N.
Longitude 66° 58' 15" E.

The light is a fixed one, 119 feet above the sea level, visible in clear weather 17 miles; in the hazy weather prevalent during the south-west monsoon, 7 to 9 miles only.

High-water at full and change of the moon 10h. 30'; rise and fall on ordinary spring tides, 9 feet 6 inches.

Depth of water on the bar, in the south-west monsoon season, May to September:—

Spring tides 22 to 23 feet 6 inches.
Neap tides 19 to 18 feet.

Fine weather season, October to April:—

Spring tides 20 to 21 feet 6 inches.
Neap tides 19 to 18 feet.

SHIPS MAY LOAD

From September 15th to April 15th (the bar being generally smooth):—

Spring tides 20 feet.
Neap tides 18 feet.

From April 15th to the end of May, from September 15th to the 30th, periods before and after the south-west monsoon:—

Spring tides 18 feet 6 inches.
Neap tides 17 feet 6 inches.

From June 1st to the middle of September, with the average weather in the south-west monsoon:—

Spring tides 17 feet.
Neap tides 15 feet.

There are days during this monsoon when the sea on the bar is so heavy that ships at the above draft cannot with safety cross, and it is advisable not to send out vessels of above 600 tons' burthen during the bad weather season.

APPROACHING THE PORT.

COAST OF SIND.

Indus Bank.

The coast of Sind below the parallel of 24° north latitude should be approached with great caution—20 fathoms water being found (in places) within 2 miles, and 10 fathoms water close to the outer edge of the banks, which extend to the south-west from the Kokawarry mouth of the Indus.

To the north of the above parallel, caution is still necessary, and the coast should not be approached under 14 fathoms; this line of soundings will carry a ship from 7 to 9 miles only off the Hujamree and Kediwarry banks of the river, 10 fathoms being found in places close to their extreme edge.

The set of the tides and currents off these banks is very uncertain; the land is low throughout, and barely visible in clear weather from the outer edge (of the banks).

Too much attention cannot be paid to the lead on this coast, more especially in passing the banks off the Indus.

Ras Muari (or Cape Monze), distant 18 miles W. $\frac{1}{4}$ N. from the western entrance to Kurrachee, is high and bold of approach. Ships, during the south-west monsoon season, should make this headland, running to the eastward for Manora Point, keeping it (Manora Point) on any bearing to the north of east.

Manora Point, forming the west side of Kurrachee Harbour, is 100 feet in height, and can be approached to within half a mile on any bearing from north to east, with 5 fathoms water; on this point stands the lighthouse and signal station. As at certain times of tide pilots cannot get off, attention should be given to all directions signalled from the shore.

Masters of ships should not, under any circumstances, attempt to enter the port without a pilot.

ANCHORAGE IN THE ROADS.

From June to the middle of September, ships should not on any account anchor, but stand off.

and on keeping the lighthouse bearing from N. by E. to N.E., 1 to 2 miles distant, until boarded by a pilot, or directed by signal.

September 15th till the end of March—
Anchorage lighthouse N. by E. to N.N.E. :
distance 1 mile 7 fathoms.

April and May—
Lighthouse N.N.E. to N.E. ; distance 1½
miles in 8 fathoms

(Signed) E. GILES,
Master Attendant, Kurrachee.

Master Attendant's Office, Manora,
1st February, 1868.

NOTE.—Since the beginning of 1857, the ship "Admiral Boxer" has been totally lost on the Indus banks. The ships "Thomas Campbell," "Augusta," and "Berenice," with the steamer "Pioneer," have grounded on them, but were eventually floated off. Two large troop steamers have also, in the same period, touched on them.
