

SOUTH-WALES.

Turks and Hungarians near *Nicopolis*; and that it was reported that the Grand Visier was come to *Sophia* with 16 or 12000 Men. Prince *Louis of Baden* continues his Progresses in *Bosnia*, having made himself Master of *Czernicke*, in which there was a Garrison of 300 Men, who surrendered upon condition to march out with their Arms and Baggage. By the taking of this place all the Country on that side will be put under Contribution. The Turks of *Rusim*, *Crup*, and *Uranagras*, in *Croatia*, having assembled and made an Excursion towards *Novi*, burning several Villages, the Governor of that place Sallied out, and put them to flight, killing 30, and taking 25 Prisoners. There are two Deputies from the Prince and States of *Valachia* come as far as *Cronstadt* in their way hither, with Proposals of Submission; but on several Pretences they delay their Journey, to see what the Turkish Embassy will produce. The Ambassadors from the Port do in the mean time press with great earnestness to be admitted to an Audience, which the Emperor will not grant till he has received the Answer of his Allies upon the late Communication that was given them of the Copies of the Grand Signior and Visier's Letters. An Express has brought the News of the Surrender of *Philipsburg*, upon which a great Council has been held here, and Couriers have been dispatched to divers Courts. We are told from the Camp commanded by General *Bethiani* in the Neighborhood of *Canisa*, That the said General having sent two Turkish Slaves, (the one taken at *Belgrade*, the other in *Bosnia*) with Letters to the Bassa and Garrison of *Canisa*, advising them of the present condition of their Affairs, and inviting them to Surrender upon Good Terms, they returned the next day with the Letters sealed as they had been delivered to them, and brought for answer, That the Bassa and Garrison thanked him for his kind Offers to them, but that they had by order in their publick Divan, that they would defend the place to the last Extremity.
