(No. 144.)—NEW ZEALAND—NORTH ISLAND—WEST COAST.

Fixed Light on South Head, Manukau Harbour.

THE New Zealand Government has given notice, that from the 1st day of September, 1874, a light would be exhibited from a lighthouse recently erected on the south head bluff, Manukau Harbour.

The light is a *fixed* white light, visible from seaward between the bearings of N. by W. $\frac{1}{4}$ W. and E. by S. $\frac{1}{2}$ S.; it is elevated 385 feet above the level of the sea, and in clear weather should be seen from a distance of 26 miles.

The illuminating apparatus is dioptric or by lenses, of the third order.

The tower, 20 feet high, is situated on the brow of the south head bluff, and bearing E. by S. distance $1\frac{1}{2}$ miles from Paratutai. Position, lat $37^{\circ} 3' 30''$ S., long: $174^{\circ} 33' 30''$ E.

NOTE.—Masters of vessels should be cautious in approaching the shoals which extend so far seaward from Manukau Entrance, for although the light may be seen from a long distance seaward in clear weather, in thick or foggy weather its limit of visibility will be greatly lessened.
