

Now, therefore, the Lieutenant-Governor, by and with the advice and consent of two members of the Council, doth hereby by virtue, and in exercise of the powers given by the said Acts

Order as follows:—

1. That the expression "Animal" shall include all cattle and sheep as defined by the said Acts, and any pig, boar, hog, sow, or goat.
2. Before any animals can be landed in this Isle, it must be certified by an Inspector of Cattle, to be appointed by the Lieutenant-Governor, that there is no appearance of the foot-and-mouth disease amongst them. Upon this being certified in writing to the Collector of Customs at the port of entry, permission will be given for the animals to be landed at such place and kept within such limits as an Inspector may direct for a period of six days, at the end of which time upon an Inspector certifying that there is no appearance of the foot-and-mouth disease they may be removed by the owners.
3. In the event of an Inspector appointed by the Lieutenant-Governor certifying in writing to the Collector of Customs that the foot-and-mouth disease exists on board any vessel importing animals, none of the animals on board such vessel shall be allowed to land.
4. In the event of doubt existing in the mind of an Inspector whether any of the animals being imported are affected by the foot-and-mouth disease, two more Inspectors shall be called in, and their decision given in writing shall be final.
5. In the event of the decision of the Inspectors being that the symptoms are not those of foot-and-mouth disease, then upon this being certified in writing to the Collector of Customs permission will be given for the animals to be landed; those, however, respecting which a doubt exists, to be separated and kept within such limits as the Inspectors may direct for a period of six days, at the end of which time, on the Inspector certifying that there is no appearance of foot-and-mouth disease, they may be removed by the owner.
6. The owner will be responsible for the animals being provided with the necessary food during the period they are kept in quarantine.
7. In the event of foot-and-mouth disease breaking out amongst any of the animals while in quarantine, the same shall be removed to another part of the quarantine ground, and kept isolated until the Inspector reports in writing that there is no further appearance of foot-and-mouth disease; when they may be removed by the owner; and the period of quarantine for the animals that were in immediate contact, or within the same yard or enclosure as the animal or animals so infected, shall commence afresh from the day of such removal.
8. The above orders to take effect from the date hereof, and to continue in force until the 31st December next.

HENRY B. LOCH, Lieut.-Governor.
