NOTICE TO MARINERS.

(No. 203).—NORTH SEA.

(1.) *Schouwen Bank*—*Light-Vessel placed, and Bell Beacon Vessel withdrawn.*

WITH reference to Notice to Mariners, No. 181, of 26th September, 1881, on the proposed placing of a light-vessel on the inshore edge of Schouwen Bank—about 2 cables south-east of the Bell Beacon Vessel, which would then be withdrawn:

The Netherlands Government has given further notice, that on 23rd September, 1881, the light-vessel and watch buoys were placed in position, and the Bell Beacon Vessel was withdrawn.

The light is a triple-flashing light, showing three white flashes in quick succession every half-minute, elevated 36 feet above the sea, and should be visible in clear weather from a distance of 11 miles. A riding light is also shown.

The light-vessel (composite wood and iron), painted red with broad white streak, and having the word "Schouwenbank" in black letters on her sides, is moored in 13½ fathoms water. The light apparatus is on the mainmast; by day a black ball is carried at the mast head; the vessel also has a jigger mast.

Position, lat. 51° 46' 55" N., long. 3° 26' 0" E.

In order to mark this position, two watch buoys, painted red with white band, and the letters (black) S. B. No. 1 and 2 on them respectively, have been placed—No. 1 to the westward distant one mile, in 8½ fathoms water; No. 2 to the northward distant 6 cables, in 8½ fathoms water, from the moorings of the light-vessel.

NOTE.—When from any cause, the flashing light cannot be exhibited, a fixed white lantern light will be shown from the mast head, and a white flare every ten minutes from above the gunwale.

When the light-vessel is not at her station, the usual lights will not be exhibited, but a fixed red light will be shown at each end of the vessel. By day a red flag will be hoisted above the black ball at the mast head.

Should a vessel be seen standing into danger, a
