Warsaw, January 20.

THE 16th Instant the General Dyct of this Kingdom was opened here with the usual Ceremony; and having chosen their Marshal or Speaker they entered upon the Debate of some Preliminary Points which hath taken up their time till now. To morrow they are according to Custom to Kiss the Kings Hand; and then we shall know what Matters will by his Command be proposed to their Consideration. In the mean time here are no less than 3 Persons with Publick Characters from France, to wit, the Marquiss de Beburnes, the Sieur de Gravelle, and the Sieur le Tellier, the first of these having taken upon him the Quality of Ambassador some few days only before the Meeting of the Dyct. We have advice from Melitrovia, that Mustapha Bassa had made a great Provision at Jassi for the Relief of Gaminiec, and that he expected Sultan Nouradin with 6000 Tartars to conduct this Convoy thither; which the Troops of this Kingdom are not at present in a condition to oppose. The Cossacks are resolved to join in a great Body with the Mosecovites against the next Campaigne.

Genova, Febr. 4. By a Bark which arrived here on Sunday last from *Argiers*, we are informed, that the Algerines will not release any of the French Slaves, which are said to be there to the number of near 3000, till their Ships, taken by those of France, be restored. The Duke of *Tusis* is gone from hence to confer with the Governor of *Milan* upon some Instructions he has received from the Court of *Spain*. The Cardinal *Bonzi* is arrived here from *Leghorne* with two Gallies belonging to the Great Duke of *Tuscany*.

Venice, Febr. 10. We have an account by a Vessel arrived here this week from the *Levant*, That *Napoli di Malvasia* is still very closely block'd up, and that the Venetians have built several Forts, by means whereof the Blockade may be continued for the future with a much smaller number of Men than has been hitherto employed therein. That the Captain General *Cornaro* was at *Napoli di Romania*, where he had taken a review of the Troops quartered thereabouts; and expected the Succors that have been promised him from hence, with a resolution to take the Field so soon as they arrived. And that he had caused several new Works to be raised to secure the Passage or Isthmus between the Gulfe of *Le-panto* and that of *Engia*. We hear from *Malta*, that the Gallies of that Order would part from thence very speedily with a good Body of Land Forces for the Assistance of this Republick. By a Vessel from *Durazzo*, we are informed, that the Turks are drawing together what Troops they can in *Albania*, which are ordered to march towards *Bulgaria*. The Electoral Prince of *Saxony* is come hither, and intends to pass the Carneval in this City.

Vienna, Febr. 12. Their Imperial Majesties are arrived at *Munichen*; where they will pass several Days, and on the 25th of this Month the whole

Court is expected here again. We have no fresh News from *Bulgaria*. It's thought that the Ottoman Envoys will not be suffered to depart out of the Imperial Territories, till Satisfaction be given by the Turks for their late violating the Capitulation with the Garison of *Kazanock*. They write from *Copper-Hungary*, that the Turks having prepared a Convoy of Provisions for the Relief of *Great Waradin*, and being advanced with it as far as *Buzines*, the Count de *Corbelli* who commands at the Blockade of that place, marched upon advice thereof with a Detachment of Horse and Dragoons, but the Enemy having got notice of it, retired with precipitation, except some Troops that were left at *Beignes* to maintain that Post; but the Marquis de *Covellesi* ordered his Heydukes to advance and to attack the Palanque of *Beignes*, which they made themselves Masters of with little loss. We hear that the Enemy have got some Provisions into *Canisa*, which has very much encouraged that Garison.
