We, the Lords Commissioners of Her Majesty's Treasury, in exercise of the powers conferred on us by the fourteenth section of the Post Office (Parcels) Act, 1882, and of all other powers enabling us in this behalf, do by this Warrant, made on the recommendation of the Commissioners of Her Majesty's Customs and of Her Majesty's Postmaster-General (testified by their respectively signing the same), order, direct, and declare as follows:—

The following provisions shall apply, that is to say:—

- (1.) The Parcel shall, as the Postmaster-General may from time to time direct, be retained at or forthwith forwarded to such place as the Postmaster-General may from time to time appoint, and may, if necessary, be there opened and examined.

Remission of Re-direction Rates.

15. The Postmaster-General may wholly remit the rate of postage for re-direction on any Parcel which may, on the request of the addressee thereof, be re-directed by an Officer of the Post Office and again forwarded by post to the same person at any address within the limits of the same free postal delivery, as the address from which such Parcel was so re-directed.

AKYAB APPROACH.

Fixed Light on Oyster Island.

WITH reference to Notice to Mariners, No. 96, of 26th May, 1884, on the destruction by a cyclone of Oyster Reef Lighthouse, approach to Akyab, Arracan River:—

The Harbour Authorities at Rangoon have given notice, dated 13th April, 1885, that a light is now exhibited from a lighthouse constructed of wood, and erected on the centre of Oyster Island, approach to Akyab:—

The light is a fixed white light, elevated 75 feet above high water, and should be visible in clear weather from a distance of about 10 miles.

The illuminating apparatus is dioptric, or by lenses, of the fifth order.

Position, lat. 20° 12' N., long. 92° 33' E.

NOTE.—Oyster Island is very low and of small extent, with a little jungle grass on its summit, and may be seen from a distance of about 5 miles. It is situated about 10 miles from the shore, and is surrounded with dangers, especially off the south-east end, where shoal ground extends for a distance of about 3 miles. Oyster Reef, on which the lighthouse stood before it was washed away, bears from Oyster Island S.E. $\frac{1}{2}$ S., distant about 9 miles.

Vessels approaching Oyster Island from the southward and westward should not shoal less than 20 fathoms water, and care must be taken when making the light in thick weather, owing to the weak order of the light, also the great danger of Oyster Reef. Mariners therefore should make certain of their position before standing towards the island, and, with the lead kept going, should not shoal the water to less than 20 fathoms, unless the light or lighthouse is sighted.

A blue light is burnt every half hour from 7 P.M. to 5 A.M., from a staging 24 feet above high water. Natives alone are in charge, so the exact time must not be depended on.
