Venice, April 28.

THE great Convoy sailed on Monday last for the Levant, whither a considerable sum of Money is sent for the payment of the Army. By a Vessel from Durazzo we have advice, That the Bassa's of Bosnia and Albania had received Orders from the Port, to send all the Forces they could draw together to the Ottoman Army, that is to act against the Imperialists: And that the Bassa of Arcegovina had with 3000 men attack'd the Fort of Sluino, but after three Assaults, was beaten off with great loss.

The ARTICLES for the Surrender of the Fortreſs of Caniſa.

I. That the Magazines at Caniſa, with the Powder, Ammunition, Cannon, and Arms, and all the publick Money, with whatever else belongs to the Publick, shall be delivered to the Emperor's Commiſſaries: And the Turks shall be oblig'd to diſcover to them all Mines and Powder hid under ground.

II. That all Priſoners of both Sexes ſhall be ſet at Liberty without any Ransom, ſo ſoon as the Capitulation is concluded.

III. That all Inhabitants and Strangers in the Town ſhall be permitted to march out with their Arms, Clothes, Goods, Children, Servants, Horses and other Cattel, and be conducted to ſome part of the Ottoman Dominions, but without displaying their Colours, or beating their Drums. If any of the Rascians that are in Service in the Town be desirous to retire, it shall be allowed them, and they shall not be hinder'd on account of Debt; and those that are willing to stay in the Town, shall not be molested on any pretence.

IV. That all Renegadoes shall be permitted to return to the Christian Faith, if they desire it; and it shall not be allowed to hide or carry away any Christian Child, Male or Female.

V. That they shall have Carriages allowed them to the River Drave, and from thence Boats and Boatmen to carry them into the Turkish Dominions.

VI. That as soon as the Capitulation is concluded, the Imperial Soldiers shall be posted in the outward Palanque towards the Gate, called Paſchla Caput, and in this Palanque the Turks shall have liberty to sell their Goods.

VII. That ſo ſoon as the Ratification of this Capitulation shall be brought from Vienna, and that the Carriages and Boats are ready, the Turks shall leave the place, and begin their march.

VIII. That the Turks shall deliver up all the Registers of the Revenue, and Books, containing the Military Contributions arising out of the Districts belonging to Caniſa, as also the Revenue of the Spahis, which is raised in the Tributary Villages.

IX. That as they going on they shall have a ſufficient Guard who shall safely conduct them to the next Turkish Camp; but the Turks shall leave ſome of their Officers to the ſaſſ German Garriſon they paſs by, till ſuch time as the Contoy and the Banks return: That 7 of the principal Officers shall be permitted to paſs by Land on their way, through Belgrade to the Turkish Dominions, with a Commission.

X. That on their way, Proviſions ſhall be furniſhed them with their Money at reaſonable Rates.

XI. And there being Priſoners taken on both ſides, and the ſame Letters granted, which are not yet diſpatched,

nor their Ransoms paid, ſo that that matter is very much ſuſpect. It's agreed, that the ſaid Debts ſhall be remitted on both ſides, ſo that neither Chriſtian nor Turk ſhall hereafter be moleſted on account thereof.

Theſe Articles were ratified by the Emperor with this Condition, That ſo ſoon as the Ratification arrived, though the Carriages were not in a readineſs the ſame day as is expreſſed in the 7th Article; yet one of the chief Gates of the Town ſhould, without any delay, be delivered to the Imperialiſts, as had been always practiſed in like caſes: But that the Imperialiſts ſhould not from thence enter into the Town to give the Turks any diſturbance, but ſhould continue at the ſaid Gate till the Wagons were got ready. And in purſuance of this Capitulation, the Fortreſs of Caniſa was Surrendered to the Imperialiſts on the 13th of April, 1690.

Vienna, May 4. The Nomination of Officers for the next Campaign is not yet made, though no body doubts but Prince Louis of Baden (who arrived here on Monday laſt from Bohemia) will command againſt the Turks; And the Marquis of Baden, Prefident of the Council of War, under the Elector of Bavaria on the Rhine. The Imperialiſts found in Caniſa 59 Pieces of Braſs Cannon, 11 of Iron, and 3 Mortar-Pieces, with a great quantity of Arms and Ammunition.
