

and that if they did not accept thereof, but stayed till they were attacked, he would give them no Quarter. However, they durst not of their Scruples again yesterday, and Major-General Keke was sent thither with five Regiments, and several Pieces of Cannon, to answer them. This Affair on the Captivity was signed, by which the Garrison to march out to meet with their Arms and Baggage, and are to be conducted 12 miles under His Majesty's Protection, in their way to *Limerick*. The Lord *Lowe*, and the Lord *George Howard*, with several others, have submitted themselves to the King's Mercy.

The last account we have from Lieutenant-General *Douglass* was by Letters of the 20th, wherein he says, That up to this approach to *Limerick*, the Irish burnt the Town, broke down the bridges, and retired into the Castle; but that he had sent a Detachment, who pulled the River at *Laneborough-Bridge*, and he had raised a Battery against the Castle, and had begun to play his Cannon and Bombs, and doubted not but to be quickly Master of it.

The Earl of *Ipworth* and the Count de *Ladun* are at *Limerick*, of which place the French have taken possession, so as not to suffer any of the Militia Troops to come into the Town.

To-morrow the King goes to *Waterford*, from whence the Forces will march out: But His Majesty's Affairs in this Kingdom, by the great and happy progress He has made towards the Reducing of it, being now in such a Posture, as not to need his Royal Presence here any longer, His Majesty has resolved to return immediately for *England*; and we are told, that His Majesty intends to be at *Dublin* on the 30th Instant, and to Embark there the day following.

*Pembroke, July 23.* Yesterday Captain *Fennings* in the *Experiment* brought into this Harbor a Ketch, which he took off of *Korsika*, having on Board Colonel *Roscoe*, *Hacker*, and 12 Sailors more, who were making their escape to *France*.

*From the Camp at Torbay, July 27.* The Lord *Lansdown* having given the necessary Orders at *Plimouth*, came hither on the 25th with the *Stannary* Troop under the Command of Sir *John Fowell*, where he found Sir *Bowdler* *Wemy* with his Regiment of Horse, Sir *William Drake* the Sheriff, and Major *Rolls*, with several other Deputy-Lieutenants of *Devon*. The next morning, upon Information that the French Gallies were gone towards *Tingmouth*, a small Town to the Eastward of *Torbay*, he immediately marched thither with all the Horse, but being come to *Newton*, within 5 miles of *Tingmouth*, understanding that the French Gallies, after playing their Cannon for about half an hour, had early that morning landed there some Men, who set the Town on fire, and some Vessels in the Port, and after that returned about noon to their Gallies; which afterwards fired some Guns upon a little Town called *Torbay*. Whereupon the Lord *Lansdowne* went back with the Forces to *Torbay*. At their return thither in the Evening, they saw the whole French Fleet under sail standing to the Westward, the Wind at S.E. But the Wind coming Westerly, they returned this morning into *Torbay*, where they still continue. And the Militia remains here to observe them.

*Whitchell, July 28.* The Parliament met this day at *Whitchell*, and was further Prorogued to the 18th of the next Month.

Whereas in a Letter to a Friend, written by Mr. Lawrence Maddon, touching the Murder of the late Earl of Essex, an account is given (Page 54. and 55.) of some discourse that the Countess-Dowager of Essex and the Bishop of Salisbury had upon that Subject at a Meeting with several Lords: The Countess-Dowager and the Bishop find themselves so much wronged in that Relation, that they have thought it became them to disprove it entirely, the whole Discourse fastened on them being false, and nothing to that purpose having been upon that occasion mentioned by either of them.

July 24. E. Essex. G. Sarum.

Whereas the Letters for *Oakhain* and *Uppingham* in *Rutlandshire* have formerly been sent from the General Letter-Office, London, by way of *Haibrough* and *Stamford*; and the Letters for *Melton-Mowbery*, and Parts adjacent, having likewise been hitherto sent by way of *Poit-Witham*: This is to certify, That all such Letters for the Places above-mentioned, and Parts adjacent, will on the 2d of August next, and from thenceforward, be sent three times every

Week on the usual Post-days, in distinct Bages for each Town by way of *Kettering* in *Northamptonshire*; and a Person is appointed at each Stage to receive and disperse all such Letters, and daily to collect and return Answers accordingly.

The Commissioners appointed by Their Majesties for the Distribution of the Names Collected for the Relief of the Poor Protestants of *Ireland*, Do most earnestly desire all Persons concerned in the Receipt of any Money upon their account, that they do with all possible speed remit the same into the Chamber of *London*; inasmuch as there are many Thousands of the said Poor Protestants that would forthwith repair to their own Country, where they would be very useful, but cannot for want of a little Money to carry them to the *Winter* side, and hereby you will prevent their being any further burthen to this Kingdom: And also it is desired, That such Archdeacons and Registers as have not yet sent up an account of what they have Received and Paid upon the first Brief, would forthwith do it, the Commissioners being very desirous, according to Their Majesties Special Command, to Print an account of what hath been done therein.
