Turin, July 15.

This week 15 Pieces of Cannon for Battery were sent from hence to our Camp, under the Convoy of the Regiment of *Mondovi*. The Count *de Louvoigny* General of the Forces of the Milaneze, has been at *Cannoglio*, to view the place, and finding it to be a considerable Pass, a good Garrison is put into it; Several Forts are likewise building on the *Po*, to hinder the Enemy's passing that River, which they have several times attempted, in order to make Incursions into the Country on the other side, and to draw some Subsistence from thence, but they have been still repulsed with loss. Monsieur *Catinat* continues encamped at *Brillane* near *Pignerol*; He has sent a Trumpet to our Camp, to enquire after some French Officers, who he believed were taken Prisoners, but we know nothing of them, and imagine they may have been killed by the Country People; who do the French a great deal of mischief, and particularly to their Foragers, whom they often surprize, and cut off. In the Rencontre that happened lately near *Carignan*, the French own to have lost 140 Men and 5 Officers, besides wounded; On our side, there were but 27 killed, and 25 wounded. The French Soldiers continue to desert, and there does not pass a day that several do not come over to us, who all complain of the scarcity there is of Provisions in their Camp. Monsieur *Catinat* has withdrawn the Troops which he had left at *Lucerne* and the Neighbouring places, fearing they would have been forced from thence by the Savoyards, who are in Arms, and have possessed themselves of the Fort of *Barreun*, within two Leagues of *Montmelian*. Three Regiments are raising for our Duke, one of Foot, and two of Dragoons.

Milan, July 20. Our Governor the Count *de Fuensaldita* has, since his return from the Camp in *Piedmont*, sent thither 100000 Livres for the payment of our Troops, and has ordered more Forces to march that way. This week arrived here several Troops of the Regiment of *Cuirassiers*, raised in *Germany* for the Service of this State, and the rest are expected in few days; They will make together 800 Men. Divers Companies of Foot, and 1000 Grisons, are likewise arrived here, being raised by Commission from our Governor.

Warsaw, July 5. The Tartars have of late made frequent Incursions into the Provinces of *Russia* and *Podolia*; and, according to our late advice, a great Body of them lay encamped under the Cannon of *Cannize*, who design, as it's feared, to ravage the Country thereabouts. The Crown-General had posted a Detachment of Horse to guard the Passa-

ges on that side, but a stronger Party of the Enemy forced them to quit their Station, with the loss of above 100 of our Men who were killed or taken. The Tartar Envoy is still here, and has had several Conferences with the Ministers of this Court, upon the Proposals he was charged with; But there will be no final answer given him, till the Express that was lately dispatched to *Vienna* with an account of the Offers he had made, is come back with the Emperor's Resolution in this matter.

Vienna, July 27. Yesterday being the Birth-day of the King of the *Romans*, who then entered into the 13th year of his Age, was observed here with much solemnity. Prince *Louis of Baden* will part from hence in 2 or 3 days to command the Imperial Army in *Lugaria*. The Letters from *Nissa* of the 15th tell us, that a Party of *Rasciens*, under the command of Captain *Strabina*, had made an Incursion as far as *Sophia*, surprized the Enemy in several places, and taken a great many Slaves and Horses; They were in their return attack'd by some Turkish Troops, who had gathered together upon the news of their march, but the *Rasciens* repulsed them, and killed 150, of which number was *Terisa Bissa*. This Party brought an account, that the Grand Visier moved with his Army (which was not near so considerable as was given out) the 22d of the last Month from *Adrianople*, and that the Bassa of *Passerzeck* was gone to meet him. The same Letters add, that the Count *de Trautmanjdorf* had received advice, that a great Body of Tartars lay ready in *Valachia* to joyn with *Teckley* and the Turks, in order to some attempt upon *Widin*, or to make an Incursion into *Transylvania*. And that *Teckley* had published a Declaration, containing his Claim to the Principality of *Transylvania*, which he had sent to the several Cities and Bourgs of that Country. We have an account from *Moldavia*, that the Sultan *Galga*, with his Hords of Tartars, was marched from *Budziack* to make an Incursion into the Territories of *Poland*. There are arrived in *Muscovy* Ambassadors from *Persia* to this Court and that of *Poland*, but the Czar will not allow them passage.

Ratibonne, July 27. The Deputy of *Saxony* has declared to the Dyet, that the Elector his Master, in consideration of the present juncture of Affairs, will not now insist on his Pretensions to the Dutchy of *Saxe Lawemburg*, but is willing that this matter be laid by till after the ending of the Campaign, provided it be without any prejudice to his Right. The same Declaration has been made by the other Parties, who likewise pretend to this Succession.

Hydeberg, August 1. The Imperial Army marched the 29th past from *Bruchal*, and is now encamped at *Durlach*; It's believed, their design is upon
