*Board of Trade (Harbour Department),
London, September 27, 1889.*

THE Board of Trade have received through the Secretary of State for Foreign Affairs the following notice, dated the 14th September, from Her Majesty's Representative at Copenhagen:—

Notice concerning the enforcement, until further orders, of the provisions of Section I 2 of the Law for the Prevention of the Introduction into the Kingdom of Contagious Diseases with respect to ships arriving from ports in Peru, Japan, and the Persian Gulf, &c, and also concerning the withdrawal of the decrees of the Ministry of Justice of November 2 last and of May 8 last, in so far as the provisions contained in Section I 2 of the above law are enforced against vessels arriving from Sicily or Brazil, and also the withdrawal of the prohibition of importation included in the said decrees from the ports named, and the injunction as to the purification of travelling effects therefrom.

Inasmuch as information has been received that an epidemic of yellow fever has occurred in Peru, and cholera has broken out in Japan and Mesopotamia, effect will in consequence thereof be given, until further notice, to the provisions of Section I 2 of the Law for the Prevention of the Introduction of Contagious Disorders into the Kingdom, of July 2, 1880, with respect to vessels arriving directly from or having had communication with ports in Peru, Japan, and the Persian Gulf, that is to say, the introduction into this Kingdom is forbidden from the ports in question of used linen, used wearing apparel, and used bed linen, in so far as the objects named do not belong to travellers' personal effects.

On the other hand, the withdrawal is decreed of the general inspection commanded by the Ordinances of the Ministry of Justice, dated respectively November 2 and May 8 last, concerning vessels arriving from ports in Sicily or in Brazil, in pursuance of the Law of July 2, 1880, Section I 2, as also the Prohibition con-

tained in the said Ordinances against the importation from the places named of the objects mentioned in Section 32 of the Law, together with the purification enjoined, under official supervision, of linen, wearing apparel, and bed linen appertaining to the personal effects of travellers from thence, the which are similarly withdrawn.

There are no quarantines in force at present.

The provisions of Section I 2, of the Law for the Prevention of the Introduction of Contagious Disorders into this Kingdom, of July 2, 1880, will be henceforth in force as regards the following places:—

Marseilles; all ports in Egypt; ports in Tonquin and Cochin China, and in the East Indies, including the Dutch East India Colonies; ports in the Red Sea; the Persian Gulf; Peru; Cuba; Haiti, Porto Rico; and Japan.

Effect is given to the prohibition against the importation into this Kingdom of worn linen, used wearing apparel, and worn bed linen (not forming part of travellers' personal effects), rags, used wadding, carding wool, and paper waste, with respect to all the places named.

In addition the purification is enjoined under official supervision of linen, wearing apparel, and bed linen, brought as personal travelling effects from any of the above-named places.

These decrees come into force immediately.

To all whom they may concern.
