MARIE R.

WHereas Their Majesties have received Information, That Francis late Bishop of Ely, William Penn Esq; and James Grahme Esq; with other Ill-affected Persons, have designed and Endeavoured to Depose Their Majesties, and Subvert the Government of this Kingdom, by procuring an Invasion of the same by the French, and other Treasonable Practices, and have to that end held Correspondence, and Conspired with divers Enemies and Traitors, and particularly with Sir Richard Grahme Baronet, (Viscount Preston in the Kingdom of Scotland) and John Ashton Gent. lately Attainted of High-Treason; For which Cause, several Warrants for High-Treason have been Issued against them, but they have withdrawn themselves from their usual Places of Abode, and are fled from Justice: Their Majesties therefore have thought fit, by and with the Advice of Their Privy-Council, to Issue this Their Royal Proclamation; And Their Majesties do hereby Command and Require all Their Loving Subjects to Discover, Take and Apprehend, the said Francis late Bishop of Ely, William Penn, and James Grahme, wherever they may be found, and to carry them before the next Justice of the Peace, or Chief Magistrate, who is hereby Required to Commit them to the next Goal, there to remain until they be sentence Delivered by due Course of Law; And Their Majesties do hereby Require the said Justice, or other Magistrate, immediately to give Notice thereof to Them or Their Privy-Council. And Their Majesties do hereby Publish and Declare to all Persons that shall Conceal the Persons above named, or any of them, or be Aiding or Assisting in the Concealing of them, or Furthering their Escape, that they shall be Proceeded against for such their Offence with the utmost Severity according to Law.

Given at Our Court at Whitehall the Fifth Day of February, 1690. In the Second Year of Our Reign.

Milan, January 22. The Letters we have received this week from *Moncalvo*, give us this particular account of the late Action in *Monferrat*. On the 8th instant 300 French Horse and 200 Foot marched from *Casal* in the night, with a design to surprize 4 Troops of Horse of the Regiment of *Taff* that were quartered at *Grana*, and having joyned with 600 of the Country People, who were very well Armed, they advanced towards that place, and arrived there before the Germans had any notice of their approach, however they had time enough to retire into the Castle, where they made a Fire upon one of the Towers, which was the Signal agreed upon with the other Quarters when any of them stood in need of Succor; whereupon 6 Troops that were quartered at *Cagliano* hastened to their Assistance. The French being informed thereof, endeavoured to retire towards *Casal*, but being surrounded by the 6 Troops from *Cagliano*, and the other four that sallied out of the Castle of *Grana*, they were charged so vigorously, that about 250 were killed upon the place, and 156 taken Prisoners, who were carried to *Asti*, and among these was a Colonel and 6 Captains, besides other inferior Officers; Of the *Montferrins* likewise few escaped. Since this the Country has submitted to the Emperor's Orders, and has agreed with Prince *Eugene* of *Savoy*, who commands the German Troops in the Service of the Duke of *Savoy*, and has now his Head Quarter at *Moncalvo*, about the Contributions to be raised for their Subsistence. The Germans had but 10 men killed and 25 wounded in this Action, and never made use of their Fire-Arms, but falling in with the French, cut them down with their Sabres. Our *Maitre de Camp*-General the Count de *Lorraine* will part from hence in few days for *Flanders*.

Venice, January 26. The Senate having received the last week an account from their Resident at *Naples*, that a Contagious Distemper was broke out in the Province of *Puglia*, have forbid all Commerce with that Kingdom, and ordered that very strict Quarantains shall be performed by all Persons who come from any suspected Places. We hear, that the like Precautions have been taken at *Rome*, where several of the Gates of the City are kept shut, and Guards appointed at the others, under the direction of a Cardinal, to examine all Persons and Goods that come in; that Commissioners have been sent for the same purpose to the frontier places of the Ecclesiastical State, and that the Prince of *Bevisder*, who was come from *Naples* to *Mirano*, had been obliged to return to that Kingdom: From whence the last Letters do all assure us, that the City of *Naples* is wholly free from all Infection. By a Vessel arrived here from the *Levant* we are told, that the English and Dutch Convoys were arrived at *Smyrna*, and that in their Voyage thither they had taken several French Ships; and that Signior *D. I.*

J.R.

fine, Captain-Extraordinary of our Ships, was cruising in the Archipelago with 17 Men of War. Several new raised Troops are arrived at the *Lisb*, which will be Transported with the next Convoy to the *Morca*.

Warsaw, January 8. The Court is not expected here from *Zolkiew* till towards the end of this Month. In the mean time very magnificent Preparations are making for the Marriage of the Prince of *Poland* with the Princess Palatine of *Neubourg*, which will be celebrated here about the 25th of *February*. By the last advices from our Frontiers we are informed, that the Tartars, who have their Station about *Cominice*, continue to infest the Province of *Russia* with their frequent Incurfions, which they make with that swiftness, that they have for the most part executed their design before we know of their march; and no sooner do we hear of their being in one place, but they appear in another, so that our Troops are seldom able to meet with any of their Parties. We have advice likewise, that another great Convoy is preparing at *Fassi*, the Capital City of *Mildavia*, for the relief of the Garrison of *Cominice*, and that to conduct it thither a strong Party of Tartars was expected from *Budzjack*. The King of *Poland* has given out Commissions for the raising of divers new Regiments against the next Campaign, and the Officers are gone into the several Provinces of this Kingdom to make their Levies, which they are to have compleat by the end of *April*. At the same time other Preparations are likewise making in order to an early Campaign.

Vienna, January 28. The Treaty between this Court and the Duke of *Hanouer* for 6000 men, to be sent by the latter to the Emperor's assistance in *Hungary*, seems to be so far advanced, that there is little doubt made of its speedy conclusion. The Recruits and new Levies that were ordered to be made in *Bohemia* and *Silesia*, are all compleat, and in the Quarters assigned them, from whence they will march towards *Hungary* so soon as the Weather will permit; as will likewise the Forces from all other Quarters, in order to the opening the Campaign very early the next Summer.

Brussels, February 9. The Marquis de *Bedmar* our Maître de Camp-General, and the Marquis de *Gripen* Lieutenant-General of the Horse, are returned hither from visiting the Garrisons of *Louvain*, *Namur*, *Mons*, and *Aeth*. The Dutch Troops are moving this way, and will be so posted, that they may in 24 hours form a Body of 20000 men. Towards the *Meuse* the Confederates are likewise in a readiness to draw together upon any motion of the Enemies Forces. We are assured, that by the next Spanish Courier a very considerable Supply of Money will be remitted hither.

Falmouth, February 2. On Saturday last arrived here the *Joseph* of *London* from *Nevis* and *Antigua*; They came from thence about two Months ago, and give an account, that Their Majesties Forces in those Parts were preparing to attack *Guardalupa*, and the other French Islands. Yesterday came in here a Ship of 18 Guns belonging to *Ostend*, laden with Fruit and Wine from *Malaga*.

Plimouth, February 3. This day a Dutch Caper sent in to this Port a small Prize, which they took on the Coast of *France*.

Harwich, February 4. Their Majesties Ship the *Garland*, Captain *Robinson* Commander, is come in here, having on the 25th of the last Month taken a French Privateer, who yielded upon the first Broadside. This Privateer is called the *Fripou* of *Dunkirk*, had 10 Guns mounted, but can carry 24, and was bound to the Eastward to fetch Stores. The *Garland* lost Company with her Prize in bad Weather, but we have an account, that she is since come into the *Humber*.

Sheriffs for
