Warsaw, April 13.

The King of Poland continues his resolution of going early into the Field; for which the necessary Preparations are making, and we are told, that the General Rendezvous of the Army is appointed to be near *Jastowicz*. The Enemy have put a new Convoy of Provisions into *Caminec*, but the Tartars who conducted it are, upon the Orders they received from Sultan *Galga*, returned in great hast towards *Budziack*, occasioned probably by the apprehensions they have of the Moscovites; for the last Letters from *Moscow* tell us, that the Czars had ordered their Troops to march forthwith towards the River *Samara*, where they are to have their Rendezvous.

Vienna, April 19. The Imperial Troops designed for the Campaigne in Hungary are on their march; and of those that have had their Winter Quarters in *Bohemia*, several have passed through here this week with Orders to march to *Essecke*, near which place a Camp is going to be formed on the *Drave*, while the main Army is to Rendezvous near *Buda*. The last Letters from *Essecke* gave an account, that with a great deal of Expence and Labour they have at last drawn the *Drave* quite round the Town, which will make it very strong; and that they had advice of a Party of Turks designing to attack *Virovitzki*, whereupon Succors were sent to reinforce that Garison. They write from *Croatia* of the 8th instant, that those Turks, who have alarmed them so long in *Sclavonia*, are marched towards *Coplenitzki* on the River *Umag*; and that they had sent out several Parties to observe their motions. That all the *Valachians*, who inhabit the Plains about *Nevi* and *Zrin*, have submitted to the Emperor's Protection. That the late Action of the *Rusian* Hussars has so alarmed the Turks and Tartars of the Country of *Syrmium*, that they have abandoned it, and are gone over the *Sava*. We hear, that the *Rusian*-Captain *Antonio* has taken a strong Cattle on the Confines of *Valachia*. Sir *William Hussy*, His Majesty of *Great-Britain's* Ambassador to the *Ottoman* Port, had on Tuesday last his Audience of Leave of the Emperor, and will in a day or two set out from hence on his Journey towards *Turkey*. Prince *Eugenius*, who came lately hither from the Duke of *Savoy*, will return this week towards *Piedmont*, with assurances of considerable and speedy Succors.

Hedelberg, April 24. Yesterday arrived here several Commissaries, to provide Bread for the Confederate Troops that are shortly expected in this Neighbourhood. The Duke of *Wirtemberg* passed through this place yesterday on his return home. The Circles of *Suabia* and *Franconia* are drawing their Forces together, and have already formed a Body of 10 or 12000 men.

Frankfort, April 25. The Forces of the Elector of *Saxony*, with those of *Saxe-Coburg*, being toge-

ther about 16000 men, are on their march towards *Heylbron*, and the *Saxon* Commissaries are going thither to make the necessary Provision for them. The Troops of *Suabia* and *Franconia* are likewise in motion. The French have made a Bridge of Boats over the *Rhine* at *Philippsbourg*, and are marking out a Carop near *Landau*.

Cologne, April 27. The Troops of *Hesse*, quartered in this *Archbishoprick*, are come nearer to this City, and are ordered to be in a readiness to march, and to provide themselves with Bread and Oats for 10 days; The Landgrave, who will command his Forces in Person this Campaigne, is expected here about the middle of the next month. The Troops of *Munster* continue their march homeward. By two Deserters, who came lately from *Mont-royal*, we are told, that the French work very hard on the Fortifications of that place, and that the Garison there consists but of 1200 men. They write from *Trier*, that 7 Regiments of French Horse, who were returned from *Flanders*, were quartered at *Metz*, and in the Neighbouring Villages, to refresh themselves; and that a strong Detachment of Horse and Foot was marched towards *Aisace*.

Brussels, April 26. Our Preparations for the Campaigne are carried on with extraordinary Application. Orders are given for the fortifying *Hall* with 4 Bastions, for which, and the adding some new Fortifications to this City, an Extraordinary Subsidy has been demanded of the States of this Province, who have the same under Deliberation. The Prince of *Vaudemont* has, since his return from *Italy*, had several Conferences with our Governor-General, and prepares to make the Campaigne as General of the Horse. The French are going to quit *Courtray*; They provide Magazines at *Dinant* and other places between that and *Charleville*, and some of their Troops are moving towards the *Sambre*. The Dutch and *Brandenburg* Forces lye ready to take the Field, the former are at present commanded by the Prince of *Nassau Sarbrucke*. Prince *Waldecke* is at *Aix la Chapelle*.

Hague, May 2. The Duke of *Schonberg* parted from hence yesterday for *Savoy*; The Officers, who are to command the Regiments of French Protestants raised for that Duke's Service, being gone before. The Sieur de *Hackbatsen*, Plenipotentiary here from the Elector of *Savoy*, is recalled, and begins his Journey this day, having a considerable Post in his Electoral Highness's Army, which is marching towards the *Rhine*. Monsieur *Hop* returns for *England* in the Quality of Envoy Extraordinary from this State. The States of *Holland* are Adjourned to the 9th of this month.

Dublin, April 22. Lieutenant-General *Ginkel* came hither on the 18th instant from *Kilkenny*, and most of the other General Officers are now likewise here to consult with the Lords Justices about the
