Venice, May 12. The Senate have made choice of Signior *Gio Pezaro*, at present their Ambassador in *Spain*, to succeed Signior *Federico Venier* in the same Quality at the Court of *France*. By the last Letters from *Corfou* we have an account, that Signior *Delfino*, Captain-Extraordinary of the Ships, was sailed from thence with the Squadron under his command to cruize in the *Archipelago*; that Signior *Capello* was gone with another Squadron towards *Sapienza*; That 3 or 4 Ships were appointed to have their Station off of *Saffeno*, for the greater security of the Convoys that are sent from hence to the *Levant*; and that the Captain-General intended to sail on the 18th of the last month with the Gallies, and the rest of the Men of War, for *Napoli di Romania*. The freshest advices from *Constantinople* say, that the Grand Visier does wholly apply himself to the carrying on the Preparations for the War; That he intended to go himself again into the Field; And had confirmed *Mexomorto* in the Command of the Fleet, which was designed to set sail on *St. George's* day. And that the *Ottoman* Troops, that are to be employed against the *Morea*, had their Rendezvous near *Thebes*.

Warsaw, May 2. The Forces of this Crown are ordered to be at the General Rendezvous near *Jaslowitz* by the first of the next month; they will make 24000 men, besides those of *Lithuania*, which may be about 10000 more. The King commands them in Person, and the general discourse is, that he will march directly into *Moldavia*. They write from *Moscovy*, that the *Czars* had rejected all the offers made by the *Turkish* and *French* Envoys, and were resolved to prosecute the War with all their Forces, which, to that end, were ordered to march towards the Frontiers of *Tartary*.

Vienna, May 17. Prince *Louis* of *Baden* is expected here from *Bohemia* on Saturday next, and after a short stay at this Court to assist at the Consultations, to be held about the designs of the *Campaigne*, will set out for *Hungary* to command the Imperial Army, which is to Rendezvous near *Pest*. On the 15th instant arrived here an Officer from *Esseck* with an account, that Count *Guilo* of *Scaremberg* was come thither to command the Camp that is forming on the *Drave*. That they continued to work with all possible diligence on the Fortifications of that place, and had fortified a little Island in the *Danube*, not far from it, thereby to secure the passage of the River. We have advice of the arrival of Sir *William Hufsey*, the English Ambassador, at *Mohatz*, and that he had sent to the *Bassa* of *Illocke* to give him notice of it, who in answer thereunto had let him know, That he would be ready to receive him, and to conduct him to *Belgrade* with all the Honour and Respect due to his Character.
