From Thursday October 1. to Sunday October 5. 1691.

Lisbon, Sept. 4.

There is come into this River a Dutch Ship, called *The Roman*, which came lately from *Holland*, carrying 20 Guns and 44 Men, commanded by Captain *Lender Coenen*. On the first instant they were attack'd near the Coast of *Portugal* by 3 Algerine Men of War, one of between 45 and 50 Guns, another of 36, and the third of 20 Guns; against whom they very bravely defended themselves for several hours. The Turks boarded them five several times, but were as often bearen off, and at last forced to bear away. At the last boarding, a Turk was left on board the Dutch Ship, who it ys, he believes the Algerines lost above 100 men. Of the Dutch, the Captain with several others were killed, and all the rest of the Seamen except 10, more or less, wounded, and the Master mortally. The Ship was several times on fire, and is besides very much shattered by the Enemies Shot.

Vienna, Sept. 27. The Letters from the Imperial Camp near *Zolnock* of the 23d instant say, that General *Abauzberg* had sent an Express to Prince *Lewis* with the news of his having beaten a Party of the *Grisin* of *Great Warasdin*, killed above 100, and taken 36 Prisoners. That Count *Mansfeld* was arrived in the Camp with divers Engineers; That great quantities of Ammunition were brought thither by Water from several places in *Upper Hungary*; That their Baggage and Infantry had begun to pass the *Theysse* near *Zolnock*, and that in a day or two the Army would march on towards *Great Warasdin*. The Duke *de Croÿ* lies with his Camp near *Darda*, waiting the return of a Courier sent into *Croatia*, to dispose the Militia of that Province to make an Invasion into *Sclavia*, while he makes some attempt upon the *Sarve*. The Spies that have been sent out do bring an account, that the *Ottoman* Troops are all disperfed and retired several ways, and the *Tartars* gone home. They write from *Polowa*, that the King with 24000 men was on the 3d instant encamped near the River *Prut* in *Moldavia*, and had resolved to send a strong Detachment to encounter a Body of *Tatars*, who were conducting a Convoy of Provisions to *Comanie*. On Monday and Tuesday last divers Boats laden with Bombs, Cannon Bullets, Pickaxes, and other Instruments to move the Earth, were sent from hence down the River to *Bata*.

Francfort, October 4. The Saxon Forces have passed the *Necker*, and are gone into Quarters of Retirement between that River and the *Main*. The *Suedes* continue their march homeward. From *Strasbourg* we hear, that the French Army was encamped near *Briac*; That their Troops are still very sickly; And that they had lost above 1000 Horses since their decamping from *Mitlenbeyn*.

Cologne, October 5. The Landgrave of *Hesse Cassell* passed the *Rhine* here on the 3d instant with a Guard of 100 Horses, in his return home; His Troops, with those of *Brandenburg*, are to remain in the Country of *Julliers*, and about *St. la Chappelle* and *Leige*, to cover those Counties during the Winter, and to be the readier to take the Field the next year.

Hamburg, October 2. The Letters of the 12th past from *Lexowig* in *Poland* tell us, that the King was in March with all his Horse, 2000 Foot, and 12 Pieces of Cannon being followed by the rest of the Army, to attack 12000 *Tartars* and 2000 *Janissaries*, who were conducting 100 Wagons with Provisions to *Cosminia*.

Leige, October 2. Our Troops lye now encamped be-

tween *Huy* and this place, to guard the Forde of the *Muse*. And the *Confederate* Forces, commanded by the Baron *Blening*, are encamped near the River *Ouse* to observe the *Marquis de Boufflers*.

Brussels, October 7. Our Army is still encamp'd near *Ninove* and *Grammont* on the *Dendre*, and the Enemy between *Contraux* and *Doyse*; At which last place the Duke of *Lotharing* has his Head Quarters. On the 3d instant the French Magazine at *Combe* took fire, by what accident is not known, and in 2 hours time was reduced to Ashes; they had there between 30 and 40000 Rations of Forage. The Landgrave of *Hesse Cassell* has left the *Confederate* Forces in the Country of *Leige* under the command of General *Fleming*, and is gone home by the way of *Cologne* and *Coblenz*. The Letters from *Torn* of the 29th past tell us, that the *Confederate* Army had passed the *Ro*, with a resolution to give the French Battle, who lay encamp'd near *Suarez*.

Hague, October 9. The King is expected here to morrow from *Lea*. Sir *Gloucy Shovel* is arrived in the Mouth with a Yacht, and a Squadron of Men of War, to attend His Majesty in his Passage for *England*. The Letters from *Madrid* of the 19th past give an account, that the Queen of *Spain* was to be recovered, as that they hoped she was out of all danger. We are expecting to hear of a Battle in *Polowina*.

Stogo, Sept. 16. On the 10th instant Colonel *Michelbano* marched with a Detachment of his Regiment, and 500 of the Militia of this Province, 2 Troops of Dragoons of the Army, and 6 Field-pieces, and encamped at *Drameliste*, about 3 miles from this place, of which he gave an account to the Earl of *Granara*, by a Party of Horse under the command of Captain *Knighan*. The 11th he advanced within half a mile of the Town, but the Weather being wet, he could make no farther progress that day. On the 12th he drew out his Men to attack the Enemy, who at first made a show of opposing us, but presently after quitted the Works which they had cut up to defend the entrance into the Town. Our men pursued them, and forcing the rest of their Out-works, beat them from the Great Fort, with the loss only on our side of an Knight killed, and 5 Men wounded. On the 13th the Earl of *Granara* (after having reduced the Castle of *St. Jovans*, commanded by Colonel *O'Connor*) came with 2000 Men under his command before this place; His Lordship caused immediately Batteries to be raised against the fort, and immured into the Enemy's out-top positions of the Great Cannon and Mortars, which were mounted. I believe he had brought along with him, that they should be obliged to capitulate; The Wind from we were obliged to stand off, which are almost the same that were granted to *St. Jovans*; and in which the Castles of *St. Jovans* in the County of *St. Jovans*, and *N. M. Tolon* and *St. Jovans* in the County of *St. Jovans*, are likewise included, provided they surrender within 24 hours after Summons; And the Fort, which is very strong, was accordingly surrendered on the 15th, there marching out 600 Men under the command of Sir *Francis O'Reilly*. They left 16 Pieces of Cannon in the place, of which Colonel *Michelbano* is made Governor. The *Dutch* Militia are now preparing to march thence, and the *Northern* Militia to take in the *North*, *N. M. Tolon*, and *St. Jovans*, which will probably reduce the fort of *St. Jovans*, and prevent the *Robberies* and barbarous Murders that are frequently committed in these Parts.

From the Camp of the *French*, Sept. 21. The *Confederate* having resolved to pass the *Rhine*, and to march to the *Limbourg*, a Bridge of *Parona* was destroyed the 21st.
