

2. Near Haldrup.—A red fixed light, elevated 51 feet above the sea, and visible from a distance of 12 miles, will be exhibited as a rear light from a white house, 20 feet high, erected with Sovind Church bearing N. 84° E., distant 14 cables, and the western extremity of Vaarsö Kalv S. 21° E.

Approximate position, lat. 55° 53½' N., long. 9° 58' E.

The front light is a red fixed light elevated 16 feet above the sea, visible from a distance of 9 miles, and shown from a white house, 16 feet high, erected at a distance of 3 cables S. 29° E. from the rear light.

These two lights in line N. 29° W., lead through the channel between Hiarnö and the mainland.

The foregoing lights (1) and (2) are catoptric of the 5th order, and are visible over an arc of 4° on either side of their respective leading lines.

3. On the southern side of the Fiord, near Christiansminde.—A green fixed light, elevated 33 feet above the sea, and visible from a distance of 8 miles, will be exhibited as a rear light from a white house, 16 feet high, erected with Glud Church bearing S. 36° E., distant 15 cables, and Sovind Church N. 31° E.

Approximate position, lat. 55° 50' N., long. 9° 58' E.

The front light is a green fixed light, elevated 10 feet above the sea, visible from a distance of 8 miles, and shown from a white house, 10 feet high, situated at a distance of 2¼ cables N. 53° E. from the rear light.

The above two lights in line S. 53° W. lead through the channel into Horsens Fiord until the red leading lights near Horsens Harbour are in line. They are visible over an arc of 10° on either side of that line. Both lights are catoptric of the 6th order.

ERRATUM.—In Notice to Mariners No. 608, 1902, for "N. 76° W.," read "N. 76° E."

No. 808.—NORWAY—WEST COAST.

Kleivholm, Sandværk, and Skierholmen—Lights Established.

The Norwegian Government has given notice that, on 1st November, 1902, the undermentioned lights would be established in small iron houses, painted white, on the west coast of Norway:—

1. KLEIVHOLMEN. — An occulting light, elevated 27 feet above high water, would be established on Kleivholm, showing the following sectors:—red from the bearing of N. 11° W., through north, to N. 12° E.; white from N. 12° E., through east and south, to S. 18° W., and obscured in other directions.

Approximate position, lat. 66° 21' N., long. 13° 0' E.

2. SANDVÆRK.—An occulting light, elevated 14 feet above high water, would be established on Sandværk, showing the following sectors:—white from N. 30° E. to N. 19° E.; red from N. 19° E., through north, to N. 33° W.; white from N. 33° W., through west, to S. 21° W., and obscured in other directions.

Approximate position, lat. 66° 39¼' N., long. 13° 8' E.

The above lights are exhibited annually from 15th August to 30th April.

3. SKIER or SKARHOLMEN. — An occulting light, elevated 57 feet above high water, would be established on Skier or Skarholmen, showing the following sectors:—white from N. 57° W., to N. 50° W.; green from N. 50° W. to N. 4° W.; white from N. 4° W., through north, to N. 19° E.; red from N. 19° E. to N. 31° E.; white from N. 31° E. to N. 54° E.; green from N. 54° E. to N. 85° E.; white from N. 85° E. to east; red from east, through south, to S. 4° W., and obscured in other directions.

Approximate position, lat. 66° 7¼' N., long. 11° 58' E.

This light is exhibited annually from 15th October to 31st March.

The above white, red, and green lights are visible 6, 4, and 3 miles respectively, the corresponding light powers being 40, 10, and 5 candles.

[Variation 10° Westerly in 1902.]

This Notice affects the following Admiralty Chart:—Dønnæsö to Fleina, No. 2310. Also, List of Lights, Part II, 1902, page 174; and Norway Pilot, Part II, 1894, page 381.

No. 809.—NORWAY, WEST COAST— FOLDEN FIORD.

Kierringö—Light Established.

The Norwegian Government has given notice that, on 1st November, 1902, an occulting light, elevated 18 feet above high water, would be established on Kierringö, showing the following sectors:—white from the bearing of S. 57° W. to S. 13° W., red from S. 13° W., through south, to East, white (when not obscured by land) from East to N. 79° E., and obscured in other directions; the white and red lights are visible 6 and 4 miles
