Notification of Disease.

3. The occupier of any premises on which there is a bush which is diseased or suspected of being diseased shall forthwith notify the fact to the clerk to the Local Authority, or to some person authorised by the Local Authority to receive such notices, and where practicable a specimen showing the disease or suspected disease shall accompany the notice.

Preliminary Investigation by Local Authority.

4.—(1.) The Local Authority on receiving in any manner notice of the existence or supposed existence of disease shall forthwith take such steps as may be necessary to determine on what premises the disease exists, and shall cause notice of such determination to be served on the occupier of each of such premises which shall thereupon become “infected premises” and continue to be infected premises until the notice is altered or withdrawn by the Local Authority in accordance with Article 10.

(2.) The notice shall as far as practicable include in the infected premises only such plantations, gardens or fields as contain bushes which are or recently have been diseased.

Precautions to be Adopted in case of an Outbreak of Disease or Supposed Outbreak.

5.—(1.) The occupier of any plantation, garden or field on which there is a diseased bush shall as soon as is practicable spray all the diseased bushes and all gooseberry and currant bushes

(2.) No bush shall be removed from any plantation, garden or field on which there is a bush which is diseased or suspected of being diseased, and clippings from diseased or suspected bushes shall be forthwith destroyed by burning or other effective method by the occupier of the premises.

Action to be taken by Local Authority after Preliminary Investigation.

(2.) A notice under this Article shall require the occupier of the premises as regards each diseased bush on the premises and every bush immediately adjoining such bush—

(a) to destroy by burning or other effective method and by a date to be specified in the notice, either the whole bush or, if the occupier so prefer, all wood formed in the current or preceding year on the bush, which wood shall for that purpose be pruned to the satisfaction of an Inspector of the Local Authority, and also similarly to destroy the fruit (if any) on each diseased bush; and

sulphur (containing not less than one pound of liver of sulphur to thirty-two gallons of water) or with some other fungicide approved by or on behalf of the Local Authority. Provided that this provision shall not apply to bushes which have shed their leaves.

Precautions against Spread of Disease by Bushes.
