London, S.W.

2nd January, 1911.

I hereby give notice that I have received a notice from the Mersey Docks and Harbour Board of their intention to carry out, with the consent of the Lords of the Admiralty and of the Commissioners for the Conservancy of the River Mersey, under the powers of and as provided by the Mersey Docks and Harbour Act, 1857, and the Mersey Dock Acts Consolidation Act, 1858, works on the Lancashire shore of the estuary of the River Mersey, in the vicinity of Dingle Point, within the Port of Liverpool, to improve and better maintain and preserve the navigation of the Port for the safety and convenience of ships frequenting the same. A copy of the notice is subjoined.

A. Mostyn Field, Vice-Admiral,
Acting Conservator of the
Mersey.

To Vice-Admiral A. Mostyn Field, F.R.S.,
Acting Conservator of the Mersey.

The Mersey Docks and Harbour Board hereby give notice of their intention to construct the undermentioned works in the estuary of the River Mersey under the powers contained in sections 54, 55 and 56 of the Mersey Docks and Harbour Act, 1857, and section 100 of the Mersey Dock Acts Consolidation Act, 1858, with the consent of the Commissioners for the Conservancy of the River Mersey, under sections 54 and 55 of the 1857 Act, and of the Lords of the Admiralty under section 357 of the 1858 Act, viz.:—

(a) A training bank faced with stone on the Lancashire side of the estuary of the River Mersey, commencing at the south end of the Herculeanum River Wall, and extending in a curved line to a point on the foreshore or bed of the river in the contour of low water of a tide ebbing to a level of 10 feet below Old Dock Sill, the said point being 200 yards or thereabouts distant in a south-westerly direction from the point at the west end of Fulwood Road in which the line of the south side of the said road cuts the existing river wall or embankment.

The said training bank will have a total length of 2,167 yards or thereabouts, and for a distance of 500 yards or thereabouts from its northern end its crest will be at the mean water level of 5 feet or thereabouts above Old Dock Sill datum, and for the remainder of its length its crest will be in a gradual slope from the said level of 5 feet or thereabouts above Old Dock Sill down to the said low water level of 10 feet or thereabouts below Old Dock Sill at the southern end thereof.

(b) The filling up with suitable material to the requisite levels for the training bank as hereinbefore described of the space behind the aforesaid bank.

(c) The dredging of material from the foreshore or bed of the river in front of the most northerly part of the said training bank for a distance of 433 yards or thereabouts from the south end of Herculeanum River Wall, and along and in front of the said river wall for a distance of 294 yards or thereabouts.

The object of the works is to do away with the obstruction which the present configuration of the foreshore and bed of the river at Dingle Point and Knott's Hole offers to the flow of the tidal currents in their vicinity, with a view to improving, better maintaining, and preserving the navigation of the Port for the safety and convenience of ships frequenting the same.

The works will, with the consents aforesaid, be commenced on or after the 4th day of February, 1911.

Plans and sections of the proposed works have been deposited at the Mersey Conservancy Office, 66, Victoria Street, London, S.W., and with the Hydrographer to the Admiralty at the Admiralty, London, S.W.

Dated this 22nd day of December, 1910.

No. 1.—CAUTION WHEN APPROACHING BRITISH PORTS.

PART I.

Closing of Ports.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that local or other circumstances may arise in which it may be necessary, on account of periodical exercises, manœuvres, or otherwise, to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (2), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three red vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (2), Part II, of this Notice.

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search lights are observed to be working.

PART II.

Examination Service.

(1) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad referred to in Part III of this Notice.

(2) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (4) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor.

(3) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in

approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (4), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun.

(4) By day the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry:—

(a) Three red vertical lights if the port is closed.

(b) Three white vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(5) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions as to entry given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(6) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(7) The pilots attached to the ports will be acquainted with the regulations to be followed.
