Naples, June 1.

Yesterday arrived here the Gallies of Sicily to joyn with those of this Kingdom, *Sardinia*, and *Turfs*; They are together 24 in number, and have Orders to go out with the Spanish Fleet which lies now ready to Sail. There have been felt again several small Earthquakes in Sicily.

Turin, June 13. The Duke of *Savoy* intends to take the Field in few days. Greatest part of the German Troops are advanced near to this place in order to joyn his Army, and the rest are on their march, except a Detachment that lies about *Casal*: Several Mules that were going thither with Salt and other Provisions have been lately taken by the Spaniards, together with some Officers who would have put themselves into that place.

Warsaw, May 26. The Emperors Ambassador, after several Conferences with the Ministers of this Court about the present Juncture of Affairs, is now preparing for his return to *Vienna*, and will have his Audience of Leave this Week or the next. The Envoy from the Cham of *Tartary*, who has been so long here, will be at last dispatched with an Answer; That the King of *Poland* is resolved not to depart from the Confederacy he is engaged in with the Emperor and Republick of *Venice*, and no to enter upon any Treaty of Peace without their Concurrence and Inclusion. The King has called together all the Senators to Consult with them about the State of the Kingdom, and the Measures to be taken with relation to the next Campaigne.

Vienna, June 13. Yesterday Prince *Eugene* of *Savoy* parted from hence for *Piedmont*, with the Emperors Instructions relating to the Campaigne on that side. The last Letters from *Hungary* advise, That the Regiment of *Styrum* arrived on the 8th instant at the Rendezvous near *Mohatz*, where those of *Baden*, *Old Staremberg*, *Thungen*, *Archinto*, *Anhalt*, *Nem*, *Aerberstein*, *Rabutun*, *Castel*, *Ehbenzokern*, and *Bassompierre*, were encamped some days before, under the Command of General *Archinto*, and the rest of the Imperial Forces designed to compose our main Army were daily expected. The Auxilliary Troops of *Brandenburg* are passed by *Jablunka*, in their march towards our Camp. 'Twas said the last Week, that the Turks had drawn together a Body of their Troops about *Belgrade*, and that they were marching to attack *Peter Waradin*, but we have had often the like Reports, and this last has no more of Truth in it then the former, for our freshest Advices say, That the Enemy had not above 6000 Men together in and about *Belgrade*, who continued on the other side of the *Save*, without making any shew of passing it. On the 8th instant arrived a Courier from *Warsaw*, with the News, That the Princess of *Poland* (the Emperors Sister) was brought to Bed of a Son. The Marquis de *Burgomanero*, Ambassador here from the Catholick King, is made a Grandee of *Spain*, and has received Compliments thereupon.

Hailbron, June 19. Prince *Lewis* of *Baden*, upon advice that the French Army marched towards the Country of *Wirttemberg*, decamped from the Neighborhood of this City, and marched towards *Marbach* and *Canstadt*; The Enemy in the mean time advanced as far as *Pfortzheim*, and 'tis believed their design was against *Stuttgart*; but upon the motion of our Army they are marched back towards the *Rhine*. The late Governor of *Hydelberg* being a Knight of the Teutonick Order, has been Degraded of the same; and it's believed he will be carried from hence to-morrow to the Imperial Camp, to suffer the Sentence pass'd upon him by a Council of War.

Francfort, June 21. The Elector of *Saxony* is expected here in 2 or 3 days; and his Troops are

on their march to joyn the Hessiens, and to form a Camp between this City and *Mentz*. The French have been prevented in their design of falling into the Country of *Wirttemberg*, by the march of Prince *Lewis* towards *Canstadt*; They are since returned to *Bruchsal*; and 'tis said that Prince *Lewis* has passed the *Necker* at *Marbach* to follow them.

Cologne, June 23. We have advice from the Country of *Eyffelt*, that the Dauphin was come to *Vian-den* in the Dutchy of *Luxemburgh* with 40 Squadrons of Horse, 12 of Dragoons, and 27 Battalions of Foot, and by the Letters from *Trier* we understand that this Army would be the 29th of this Month on the *Moselle*, and designed to pass that River at *Liser* and *Montroyal*; and that in the mean time they were baking Bread for these Troops at *Trier*, *Montroyal* and *Luxemburgh*. From the *Upper Rhine* they write, that Prince *Lewis* of *Baden* was encamped on the 18th Instant near *Olmshaym* on the *Neckar*, and that the French Army retired towards *Philipsburg*. The Saxons and Hessiens were going to form a Camp near *Mentz*. The Troops of the Elector *Palatin* were to joyn yesterday with those of *Brandenburg* under General *Flemming* at *Duren*.

Paris, June 22. The French King arrived the 16th at *Mezieres*, where he staid the 17th, and went on the 18th to *Retel*. The Dauphin continues his march towards *Germany* by the way of *Marche-en-Faminc*. The Garison of *Rosés* marched out on the 10th Instant according to their Capitulation; but the Fort de *la Trinite*, which stands on a Rock at the entrance into the Gulfe, held out still; a Battery of Mortars was raised against it, and the Count d'*Esfrée* would continue there with his Squadron, until it was taken. The Letters from *Pignarol* of the 14th tell us, that the Duke of *Savoy* was resolved to enter into *Dauphine* or *Provence*; That the Marechal de *Catinat* was gone to give the necessary Order to the Troops that are posted at *Mont Dauphin*; and that he had sent the Duke of *Vendosme* to Command in *Provence*. They have advice here, That the French Fleet was on the 17th instant off of the Rock of *Lisbon*, and the general Report is that they are gone to *Cadix*.

Brussels, June 24. Our Parties from *Charleroy* are very troublesome to the Enemy, who continue in their Camp between *Bessut* and *Tillemont*; They had laid several Bridges over the River *Dyle* for the conveniency of Foraging, but Monsieur de *Puy*, Lieutenant General of the Spanish Horse, went lately out with a Detachment, and broke some of them down; and Major *Jacob*, with his Fusiliers, has broke down their Bridge near the Abbey of *Florival*.

From His Majesty's Camp at *Parke*, June 25. On Monday about Midnight we had a Report, that the Enemy were burning their Camp, and going to march; but the next day we were informed that it was only the accidental burning of some of their Tents. We have had lately
