Milan, June 10.

OUR Governor the Marquis de Leganez returned higher on the 2d instant from *Turin*, and has since held several Councils of War with the Count de *Louvoigny*, Maître de Camp General, and the other General Officers of the Forces in the Service of this State, who are now on their march from their several Quarters towards *Piedmont*, except those that are to be employed in the Blockade of *Casal*; The Garison of which place is much weakened of late by Desertion, and suffers through the scarcity of Provisions; and to streighten them yet more Orders are given to attack the Castle of *St. George*, which is situated near *Casal*: The Enemy in the mean time endeavour to put Men into the place, in small Parties, but most of these have been taken Prisoners, and among others several Officers. We are told that the King of *Spain* has agreed to the Sale of the Duchy of *Sabioneda*, to the Duke of *San Pietro* for 800000 Crowns, or which he is to pay 250000 here in ready Money.

Venice, June 13. Several Vessels are arrived here which met the Doge on Saturday last off of *Zara* in *Dalmatia*, taking his Course for the *Levant*. Another Convoy is preparing, which will be ready to Sail towards the end of this month with Twelve Hundred new raised Men, (who are already arrived at the *Lido*) and with Provisions and other Necessaries for our Fleet and Army. We have an account from the *Mores*, That Lieutenant General *Domenigo* was putting the Troops of this State into a posture, to undertake some considerable enterprise upon the Doge's arrival. The Gallies of *Malta* are Sailed towards the *Levant*: to joyn with the Venetian Fleet.

Vienna, June 17. The Imperial Troops arrive daily at the General Rendezvous near *Mohatz*, where the whole Army, together with the Auxilliary Forces of *Brandenburg* and *Hancuer*, will be encamped by the end of this month. We do not yet hear of the motion of the Ottoman Troops in any considerable Body near our Frontiers; And the Advices from *Turkey* continue to speak of the great disorder their Affairs are in, and of the Discontents among the Asiatick Troops, which retard their marching into the Field. The Count de *Veterani*, who Commands the Imperial Troops in *Transylvania*, and Count *Palfi* who serves in *Piedmont*, are likewise made Lieutenant Generals of the Emperors Forces.

Hailbron, June 22. The Confederate Army, under the Command of Prince *Lewis* of *Baden* continues encamped at *Omarshelm* on the *Neckar*, and the French near *Bruchsal*. On the 18th instant, Major General *Hydersdorf*, late Governor of *Hydelberg*, Knight of the Teutonic Order, was Degraded of that Honour by Command of the Great Master: His Life was saved at the Intercession of some Eminent Persons, but a more Ignominious Punishment was inflicted on him; For after that the Collar of his Order was taken from him, and he was put out of the Assembly of the Knights, (who for that purpose were met together

at *Hailbron*.) in all the disgraceful manner that is practised on the like Occasions, he was delivered to the common Hangman, who carried him with his Hands bound in a Cart on the 19th instant to the Imperial Camp, and a long Line of the whole Army, which was drawn up in *Batalia*. At the head of his own Regiment the Sentence of the Council of War against him was Read; after which the Hangman broke his Sword over his Head, and threw the pieces in his Face; and then, being for ever Banished out of the Dominions of the House of *Austria*, and the Circles of *Suabia* and *Franconia*, and the *Upper Rhine*, and all his Goods and Estate forfeited, he was carried by the Hangman beyond the *Neckar* and left there.

Francfort, June 23. The Elector of *Saxony* and the Landgrave of *Hesse* arrived here two days ago, and were received by the Burghers in Arms, and the Discharge of the Cannon round the Town. This day passed by this place by Water some Saxon Regiments of Foot; the rest follow, and the Horse marches by Land towards *Mentz*, where they are to joyn with the *Hessian*, and some other Confederate Forces, and together will form an Army of 25000 Men, to observe the French Forces that have been detached from *Flanders*, and who are expected on the *Moselle* about the beginning of the next Month.

Cologne, June 26. The *Brandenburg* Forces, under General *Fleming*, marched yesterday from *Dueren* towards *Kerpen*; They will be joyned by the Troops of the Elector *Palatin* and Bishop of *Munster*, and make a Body of 20000 men. The French Army, under the Dauphin, marches by reason of the difficulty of the ways, in 4 Bodies, towards *Montroyal*, where they are to pass the *Moselle* about the first of the next month.

Paris, June 26. The French King arrived the 20th of this month at *Rheimes*, where he staid the day following, and parted the 22th for *Soissons*. The last Letters from *Germany* tell us, That the Marechal de *Lorge* was encamped at *Obstat* near *Bruchsal*; and the Confederate Army on the *Neckar*, between *Hailbron* and *Canstadt*. The Dauphin encamped on the 20th instant at *Dorte*, in his march towards *Montroyal*. From *Catalonia* we hear, That the Fort de *la Trinite* in the Gulph of *Roses* surrendered on the 15th instant. 'Tis said that a Courier is arrived here, who left the French Fleet, Commanded by the Count de *Tourville*, on the 12th instant off of Cape *St. Vincent*.

Brussels, June 28. We had very great Rains the last Week, by which the French Camp has suffered very much; And we are assured that the scarcity of Provisions increases among the Enemy every day. The Army, Commanded under the Dauphin, by the Marechal de *Boufflers*, continues its march towards the *Moselle*, having had on the 26th instant their Head Quarters at *Gerolstein*.
