NOTICE TO MARINERS.

No. 1706 of the year 1914.

NORTH SEA.

Caution with regard to Mined areas.

Former Notice.—No. 1626 of 1914; hereby cancelled.

Caution.—A system of mine fields has been established by H.M. Government and is being developed upon a considerable scale.

It is dangerous henceforth for ships to cross the area between the parallels of 51° 15' and 51° 40' North latitude and the meridians of 1° 35' and 3° 00' East longitude.

The Southern limit of the area in the North Sea which has been rendered dangerous by the enemy's mines is now, so far as is known at present, the parallel of 51° 54' North latitude and not as stated in the former Notice; this extension is owing to the enemy's mines having drifted from their positions.

Remarks.—Although these limits are assigned to the dangerous areas, it must not be supposed that navigation is necessarily safe in any part of the southern waters of the North Sea.

Authority.—The Lords Commissioners of the Admiralty.

By Command of their Lordships,

J. F. PARRY,
Hydrographer.

Hydrographic Department,
Admiralty, London,
3rd November, 1914.
