Rome, October 31.

The Cardinal *d'Estres* parted from hence on Sunday last for France. The same day the Cardinal *de Fourbin* had a long Audience of the Pope; and in a Consistory held on Monday 5 French Bishops more were pronounced, to wit, those of *Parniers*, *Aix*, *St. Omer*, *Perigueux*, and *St. Flour*. The Popes Galeys arrived on the 20th of this month at *Messina*, having left the Squadron of *Malta* off of *Cape Sparaveno* in their return home from the *Levant*.

*Naples*, October 27. Three thousand Men have been raised in this Kingdom for the service of the State of *Milan*, who will be sent thither with the first opportunity; together with a Reinforcement to the Garrison of *Final*. The new Levies are still continued here.

*Turin*, Nov. 2. Our Army marched on the 26th of the last Month to *Moncalier*, and still continues there to observe the Enemy; who are encamped at *Polonghera*; They have made great Provision at *Saluffes*, as they pretend for the Siege of *Coni*; though after all we do not believe they will think fit to attempt it. His Royal Highness has now with him at *Moncalier* 16000 Men, including 2 or 3000 of the Troops of the *Milaneze*, the rest, to the number of about 4000, being gone home; Besides these the Marquis *de Parole* is poited with 3000 Men about 10 miles from *Moncalier*, and the Count *de Rabutin* is with 1000 Horse at *Aff* to hinder the Enemies Excursions, so that his Royal Highness Army consists at present of 20000 Men, without reckoning the 4000 that are in Garrison at *Coni*. There has fallen a great deal of Snow within these few days.

*Venice*, Nov. 6. We have Advice that the Doge *Morosini* is returned with the Venetian Fleet to *Napoli di Romania*, and that he has ordered the Troops to go into their Winter Quarters.

*Vienna*, Nov. 4. The last Advices from *Hungary* give an account, that General *Hofkirken* after the defeat of 4000 Turks and Tartars near *Gyula*, went in pursuit of another Body of 10 or 12000, who had plundered and burnt divers Villages about *Debreczin*, but they having notice of his march, retired with so much haste that he could not overtake them; The Imperialists however recovered great part of the Booty the Enemy had got, which in their precipitate retreat they were forced to leave behind them. The Imperial Army under the Duke *de Croy* is marched from *Pukins* higher up the *Danube*; and the States of *Hungary* are appointed to meet at *Offen* to regulate the Winter Quarters that are to be assigned them. The Emperor has given the vacant Regiment of *Serau* to the Count of *Dietrichstein*; That of *Serotszenback* to Prince *Maximilian of Hanouer*; and that of *Archinto* to Major General *Geswind*, who serves at present in *Piedmont*.

*Vienna*, Nov. 8. The Troops in *Hungary* are on both sides marching to their Winter Quarters; The Grand-Vizier parted from *Belgrade* about 14 days ago on his return to *Adrianople*; and the Duke *de Croy* is shortly expected here. The Tartars who made the late Incurfion into the Neighbourhood of *Debreczin* are gone home; as are also the Turkish Troops that were raised in *Asia* for the Service of this Campaign. The Emperor is sending Commissioners to all his Hereditary Countreys, to demand the necessary Subsidies of them for carrying on the War; New Levies are going to be made for augmenting the Imperial Forces against the next year; And great Magazines are providing in many places, as well in the *Upper* as *Lower-Hungary*, for which purpose

several considerable Sums of Money have been lately sent thither. The Place of Chancellor of the Court, vacant by the death of Count *Straatman*, is not yet disposed of.

*Francfort*, Nov. 11. The Confederate Forces that have lain some time about *Herrenberg* and *Alringen* decamped on the 6th, and are marched to their Winter Quarters; But Prince *Lewis* of *Baden* with most of the General Officers will continue some days longer at *Herrenberg*, to regulate several matters relating to the said Troops. The Deputies of the Circle of *Stabia* are now assembled at *Ulm*, and among other things have under Consideration the raising of some new Regiments. The French Forces, lately commanded by the Marechal *de Lorge*, are gone into Quarters in *Alsace*, *Sinzow*, and *Burgandy*.

*Cologne*, Nov. 17. The Count *de Comingjecke* went from hence yesterday to *Bon* to assist at a Conference that's held there to settle the Repartition of the Quarters for 5 Regiments of *Brandenburg* Horse and 4 of Foot, who are to Winter in this Diocels; Four other *Brandenburg* Regiments are, it's said, to have their Winter Quarters in the Duchy of *Juliers*. The Elector *Palatin* has given Orders to the Officers of his Troops to compleat their Recruits by the First of *March* next.

*Paris*, Nov. 13. The Duke of *Luxemburg* arrived here two days ago from *Flanders*, wheré the Marechal *de Boufflers* is to command during the Winter. The Marechal *de Taverville* is also come hither from *Brest*. The French King has resolved to form a new Body of One Hundred Companies of *Carabiniers*, to be drawn out of the old Troops; of which the Duke *de Maine* is to be Lieutenant-General, and under him they are to be Commanded by Five Colonels. Yesterday a Review was taken of the Regiments of French and Swiss Guards, who were found to be extremely weakened by the loss they suffered during the last Campaign; and Orders are given for recruiting them. The Letters from Monsieur *Catinat's* Camp at *Polonghera* of the first Instant tell us, that they were laying up great quantities of Ammunition and Provisions at *Saluffes*; That several Pieces of great Cannon were brought thither from *Pignerol*; and 'twas given out that they were designed for the Siege of *Coni*. We have Advice that Monsieur *de Chasteau-venant* is arrived with his Squadron at *Brest*.

*Paris*, Nov. 16. The Letters from *Piedmont* of the 3d Instant say; that the French Army marched that day from *Polonghera* to *Morette*, these two places being distant about a mile and a half; That they had made a great Magazine at *Saluffes*; But that the design upon *Coni* seemed to be laid aside by reason of the difficulties they apprehended in that Enterprize as well from the Season as the good Condition the place is in: The Confederate Army was encamped at *Moncalier*, being reinforced by the Troops drawn from the Blockade of *Cazal* and other Posts. Monsieur *de Rozel*, the Marquis *de Belgarde*, Monsieur *du Mesnil*, and two more are named to command the 100 Companies of *Carabiniers* under the Duke of *Maine*. The Ministers of this Court are taken up with finding out new Ways and Projects to raise Money for the War, in which they meet with mighty difficulties, by reason of the great Poverty and Misery that appear in all parts of this Kingdom, and which increase daily.

*Brussels*, Nov. 15. The Troops on both sides are now in their Winter Quarters. The French continue to work on the Fortifications of *Charleroy* and *Courtray*, and they are raising 7 new Regiments within their Conquests.
