Genoua, December 14.

He 1200 Soldiers who arrived here some days ago from Naples, are landed, and marched to-The loss of two wards Milan. Galleys of the Duke of Turfis Squadron is confirmed by Letters from himself, wherein he gives an account, That being bound hither from Barcelona, with Soldiers for the Service of the Milaneze, they were furpriled by a violent Storm off of St. Firenze, during which the Galleys called the Spinel: and St. Marie foundred at Sea, and most of their Men were lost; and that the rest of the Galleys are put into Corfica.

Milan, Decemb. 16. Our Governor upon the Advice he has received that the French are retired out of Piedmont, has ordered the Spanish Troops (who remained together in a Body on the Frontiers to hinder the Enemy from fending Relief to Cazal) to separate and to march to their Winter-Quarters. The German Troops who are to Winter in the Dutchies of Mantua, Modena, and Parma, will now in few days begin their march thither; and in the mean time we hear that the Contributions for their subsistence are fully agreed with those Princes. Part of the Recruits we expected from Naples are landed at Gasua, and are on their march hither; and the rest will soon sollow.

Venice, Decemb. 18. This week arrived at the Lido several new raised Companies of Foot, in order to embark on the next Convoy that goes to the Levant, where the Venetians propose to reinforce their Army very considerably against the next Campagne. Signior Venier, now Ambassador of this Republick at the Court of France, is appointed to go with the same

Character to Spain, in the place of Signior Ruzzini, who is to remove from thence to Vienna. The Popes Bull for a General Jubilee will be published here in few days.

Turin, Decemb. 23. The French Troops have repassed the Mountains, to take their Winter-Quarters in Dauphine, and Burgundy; The Mareschal de Catinat was, according to our last advice, still at Pignerol, but designed to part from thence in 2 or 3 days for Versailles, to give the French King an account of the State of things on this fide. The Recruits for the Duke of Savoy's Troops are made with good fuccess; The Germans expect a great Reinforcement; and feveral thousand Men are coming from Naples and Spain to recruit the Spanish Forces in the Milaneze; and at the same time the other necessary preparations are making for an early Campagne the next year.

Stockholm, Decemb. 9. Yesterday the late Queen of Sueden was Interred with all the Pomp and Magnificence that could be contrived; The States of the Kingdom, to wit, the Nobility, Clergy, Burgers, and Peasants, assisted at the Solemnity, and were afterwards very Splendidly Entertained.

Vienna, Decemb. 23. The last Letters from Turkey, by the way of Valachia and Transilvania, say, That the Cham of Tartary was come to Adrianople to be present at a great Council of War, and that the Turks make great Efforts, to prepare for the next Campagne. They continue in the mean time to work very hard on the Fortifications of Belgrade: And the Imperialists do the like at Peter-Waradin; Thelebeing now the two Frontier Garisons between the Ottomans and Us. write from Sclavonia, that things remain very quiet on that fide, the care they have taken to secure their Frontiers having probably disappointed the design the Enemy seemed to have, of insesting
