Turin, May 1.

THE Troops of his Royal Highness have Orders to encamp near *Quieras*; and the German Forces with those of the Milaneze are on their march to join them. The French Troops are likewise in motion on the Frontiers of *Dauphine*.

Madrid, April 29. The Forces that have been lately raised in this Kingdom are on their march towards *Catalonia*, and a considerable Supply of Money has been remitted to the Vice-Roy there for the Service of the Campagne. The French, as we are informed by an Express from thence, have begun to draw their Troops together, and give out that their Army will consist of 30000 Men. They write from *Barcelona* of the 17th Instant, that two English Men of War arrived in that Port some days before with several Merchant Ships under their Convoy, and that they sailed again the 15th for *Majorca*.

Corunna, May 5. Two Dutch Privateers have brought in here a French Ship called the *Amazon* of *Bayonne* of 26 Guns, and 8 Patereroes, laden with Corn from *Tercera*, together with a Dutch Ship of 14 Guns bound home from *Malaga*, which was taken by the *Amazon*, and retaken by the said Dutch Privateers.

Warsaw, May 4. The Letters of the 25th past from the Court of *Poland*, which is still at *Zoliew*, tell us, that the King was perfectly recovered. And that the Baron *de Meyer* was expected there in the Quality of Envoy Extraordinary from the Elector of *Bavaria*, to Treat of a Marriage between his Electoral Highness and the Princess of *Poland*.

Vienna, May 5. The Imperial Troops in *Hungary* are commanded to be on the 25th of this Month at the General Rendezvous near *Essicke*; and in the mean time they continue to send from hence all manner of Stores for the use of the Army. The Letters from the Frontiers say, that *Tikeley* is fallen into disgrace at the Ottoman Port, and 'tis even reported, that Orders are come from the Visier to send him Prisoner to *Adriavle*; Which is a new motive to the Hungarians of his Party to desert him, as divers do every day: Some of them, who were quartered at *Rham*, designed to have followed the Example of *Darozzi* by setting that place on Fire, and going over to the Imperialists, but the Turks having got timely notice of it, sent some Troops thither, who cut them all in pieces; and about the same time they detached 500 Janitaries to repossess themselves of *Vipalanka*, and to fortifie it. The Enemy have put some Provisions into *Gyula*, which were con-

ducted thither by 3000 Turks, who passed the *Danube* at *Belgrade*. Two days ago another Conference was held here between the Imperial Ministers and the Envoy of *Saxony* about General *Schoning's* Affair, which, we are told, was finally adjusted at this Meeting, and an Express has been sent to *Dresden* with an account of it. The Count *de Martenitz* is going again to the Court of *Poland* in the Quality of the Emperor's Envoy Extraordinary.

Dresden, May 10. On the 7th Instant in the Evening died here *John George* the Fourth, Elector of *Saxony*, of the Small Pox, being the Eleventh day of his Sickness; And the next day his Brother Prince *Frederick Augustus* was proclaimed Elector, and received the Homage of the Magistrates of this City, and the Troops in Garrison here; after which his Electoral Highness retired to *Mauritzburg* about two German miles from hence. Where one of the first things he did was to name the Baron *de Frixon* to go with the Character of his Envoy Extraordinary to the King of *Great-Britain*, and to attend his Majesty during the Campagne.

Hailbron, May 11. There are now Encamped about 20000 Men of the Confederate Forces near this place, the rest are on their march, and Prince *Lewis* of *Baden* is expected here against the 20th of this month, to put himself at the head of the Army. The French Troops in *Alsace* and parts adjacent march to *Neustadt*, and it's said they are to encamp in that Neighbourhood about the 25th of this month; The Detachments they had ordered from the *Rhine* towards *Piedmont* and *Catalonia* are countermanded, and are now to serve in the Army under the Marechal *de Lorge*.

Frankfort, May 12. The Elector and Electores of *Hanouer* came to this place on Monday last, and went this morning to the Bath at *Wisbaden*. Prince *Lewis* of *Baden* is now at *Stutgard* in the Country of *Wirttemberg*; The Army he is to command this Summer assembles near *Hailbron*, where there are already above 20000 Men together. His Highness has ordered a Detachment to secure a considerable Pass near *Pfortzheim*. A strong French Party, commanded by Monsieur *Melac*, passed the *Rhine* some days ago at *Philipsburg*, and advanced to *Ladenburg* on the *Neckar*, having with them one Field Piece; There passed some Shot between them and those in the Town, after which the French retired, and viewed all the Passes between that place and the *Rhine*, but found them so well guarded, that they returned without attempting any thing farther. Several of their Dragoons took this occasion to desert; whose Horses are in a very poor condition. Yesterday passed by this City 6 large Boats with some of the Bavarian Troops who are going to serve in *Flanders*.
