Rome, August 24.

THis Court is much dissatisfied with the Edict, which the Duke of Savoy has lately put out in favour of the Vaudois, and the Inquisition has made a Decree to condemn it. The Abbat *scarlatti* had this week a long Audience of the Pope, about the Business of *Liege*, which will now shortly be brought to a Determination.

Leghorne, August 30. By a Vessel which arrived here in ten days from the Bay of *Tunis*, we have advice, That the Algerines were with their whole Army before that City, and had begun to Bomb it; and that the Bey of *Tunis* was privately retired from thence.

Turin, Sept. 3. The Duke of Savoy is at present encamped with his own and the Imperial Forces between *Obassan* and *Rivoli*; and the Spaniards at *Villa Franca*, but they will march to morrow towards *Rivoli*. The *Marschal de Casimir* is still posted at *Diblen*, and 'tis said he has sent a Reinforcement to *Susa*, apprehending it seems that the Duke of Savoy is marching that way. Yesterday was Published here a Decree of the Senate of *Turin*, which confirms his Royal Highness's Edict of the 23th of May last, for the Re-establishing the Vaudois; and on the contrary, does Annul the Decree made the 19th of the last month by the Inquisition at *Rome*, and forbids the receiving and publishing the same within his Royal Highness's Territories, on pain of Death; This Decree of the Senate was published at the instance of his Royal Highness's Advocate General, who had represented to them the reasonableness of his Royal Highness's Proceedings in restoring the Vaudois to their Estates and Properties, which was no more than confirming what had been done by his Illustrious Ancestors; and also this new Edict was granted them in consideration of the Alliances his Royal Highness is now engaged in, yet it ought rather to be looked upon as an Act of Justice than of Grace. Our Troops employed in the Blockade of *Casal* have taken the Castle of *St. George*, by which means that Garrison is very much streightened, and there is a discourse as if *Casal* would formerly be Belieged.

Venice, Sept. 4. The Senate has received Letters from the Captain General, giving an account of his sailing from *Napoli* at *Romania* with the Fleet and Land Forces of this State; but it is not yet made publick what design he is gone upon. 'Tis confirmed from *Dalmatia*, That the Turks after their ill success at *Cicula*, had separated their Troops, and sent them back to their Quarters.

Vienna, Sept. 4. General *Caprara* parted from hence the 30th of the last month for *Hungary*; He went Post, and proposed to be in 5 or 6 days with the Imperial Army, which by our Letters of the 28th past from *Peter Waradin*, was encamped near that place; The Foot on this side, and the Horse on the other side the *Danube*, but so as that by the Conveniency of the Bridges they had made, they could joyn together in few hours. The Advices from the Frontiers confirm the Villiers having passed the *Savo*, having been before joined by the Tatars, commanded by their Han; but the Reports are various, concerning as well the number of their Troops, as their design: They had Ship'd their Artillery at *Belgrade*, to be sent by Water to *Semlyne*, near which place they intended to encamp. We hear from *Transylvania*, That General *Polland* had taken two Turkish Forts or Palanks near the Fortresses of *Giula*, but that he could attempt nothing further, not having any Cannon with him. The Imperial Army is in a very good

Condition, and will advance toward the Enemy so soon as General *Caprara* has joyned them.

Francfort, Sept. 12. The Confederate Army commanded by Prince *Lewis* of *Baden*, is, we hear, decamp'd from *Kreuzingen*, and is march'd nearer to *Stolkhoven*. We have advice, That an Imperial Party of 250 men, which was abroad towards *Friburgh*, had some days ago a Rencontre with 300 French, belonging to the Garrison of *Brissac*; and that the latter, after an hours dispute, were put to flight, 40 of them killed, and 36 taken. The *Hussars* have this last Week defeated several other French Parties, and brought in divers Prisoners. The French Army Commanded by the *Marschal de Lorge* has pass'd the *River Nobe*; and mark'd out a Camp near *Sommern*. The Troops of *Huff*, who lay near *Mentz*, on this side the *Rhine*, are march'd nearer to *Rheinfelt*.

Paris, Sept. 13. They write from *Mantua* of the 5th. That the *Marschal de Turville* continued with the *Marquis de Theulou*, having sent out several Brigades to get Intelligence of Admiral *Ruffel's* Motions, who he heard, sail'd from *Barcelona* the 26th of the last month; and that the Count de *Grignan* was come with 6 Regiments of Foot, and one of Dragoons, to Guard the Counts of *Provence*. The last Advices from *Piedmont*, which are of the 14th day, That the Duke of Savoy was encamped between *Rivoli* and *Falme*; and that the Confederate Troops had taken the Castle of *St. George* near *Casal*, the Garrison being made Prisoners of War. The Letters from *Catalonia* tell us, That the *Marschal de Noailles* had sent a strong Detachment to attack *Casfel Folio*, about a League from *Zulus*; and that the Spanish Army having received a Reinforcement, was advanced to *Ostabric*, and that the Militia of that part of *Catalonia* which remains under the Spanish Obedience were all in Arms, and in readiness to act according to the Orders they should receive from their Viceroy. The Spanish *Miquelets* had taken the Castle of *St. Pace*, which was defended by 40 French, who were made Prisoners of War. The French Court returned the 7th from *Marli* to *Versailles*, and goes the 16th to *Fontainebleau*, where the Dauphin is expected the 22th from *Flanders*. Several Orders of the Council have been published here of late for Creation of new Offices, tho' those that have been already erected are not yet disposed of for want of Buyers; And all the Fonds for carrying on the War are so drained, that the Ministers of this Court are very much at a loss to find out new ones. The People continue to suffer here very much by the dearthness of Bread, and their ill Diet occasions much Sickness among them.

Brussels, Sept. 15. The Baron de *Selles*, who was sent to the Court of *Poland* to carry the Elector of *Bavaria's* Picture to the Princess Royal his Wife, came back 3 days ago, and went presently to the Army, to give his Electoral Highness an account of his Journey, and to deliver him the Princess's Letter and Presents she sent his Electoral Highness by him: The King of *Polonia's* Present, which is 6 fine Horses, is not yet arrived. His Electoral Highness has named the Prince de *Steenoussen* to go to the Court of *Spain* to notify his Marriage to their Catholick Majesties; And the *Marquis de Spinola* is to go on the same Errand to the Court of *Savoy*. We hear that *Huy* is Belieged by the Confederate Troops.

From the Kings Camp at Roslaer, Sept. 15. The Armies continue in the same Camps. The Enemy is strongly intrench'd near *Courtray*. They have sent belices the Detachments of 16000 men, which lie between *Ipres* and *Mennin* to cover those places, another Body of 6000 men to *Berge St. Vinnock*.

rock, to cover Furnes and Dunkirke. On Friday, Quarter-Master-General Top marched with 600 Horse and Dragoons to Dixmuyde, to mark out a Camp near that place, in case it should be thought advisable to march thither. Huy was to be Invested yesterday by the Troops of Liege, and those the Duke of Holstein Plein has taken with him for that Siege; And yesterday morning about 20 Squadrons of Horse more began their march to wards that place from the Camp near Deynse; and 'tis said the French are sending likewise 6000 men that way. Our Parties have lately defeated several of the French, and yesterday they brought in upwards of 100, killing 20 upon the place. A French Man was seized some days ago as he was placing a burning March in one of our Ammunition Wagons, and upon his Examination owned he was employed by several of the General Officers of the French Army to set fire to our Magazine of Powder; upon which he was Sentenced by a Court Martial to have his Right Hand cut off, and afterwards to be burnt alive, which was executed accordingly.

From the Kings Camp at Rolelaer, Sept. 16. On Tuesday 3 Regiments of Foot, yesterday as many, and this morning four more, marched from hence towards Brabant, and 34 Squadrons in all have been detached from our other Camp near Deynse. The Enemy have made likewise some Detachements besides those for covering of Ipres and Dunkirke, which 'tis said are also to march towards Braubant. On Tuesday morning His Majesty went to the Camp at Wintergem, commanded by the Earl of Albion, where having Dined with Monsieur d'Arquerre, he returned hither in the Evening. The Duke of Holstein Plein is arrived before Huy, where the Trenches were to be opened yesterday. We hear that the Dauphin's Squa page is gone from the French Camp, and 'tis expected he will soon follow.

Hagen, Sept. 17. The Ambassadors were this morning in Conference with the Deputy for the States General. The 1st Letter from Massrich says, That the Cannon ordered for the Siege of Huy was sent from thence to Liege; The two Regiments of Anhalt and Brunswick are marched from Massrich towards Huy, to join the other Forces there, amounting in all to about 20000 men; 'tis believed the place was Besieged last Wednesday.

Guernsey, Sept. 7. Captain Tupper, Commander of a Privateer of this Island, is lately returned from Cruising; he went out on the 25th of August, the next day, on the Coast of Normandy, he espied 2 Sail, and giving Chase to them, forced them on Shoar in Carteret Bay, where they were lost, the Sea being so high he could not bring them off. The 27th he espied another Sail, being a new Privateer that could carry 8 Guns, but had but 2 on board, belonging to St. Malo; he gave Chase to her, and forced her on Shoar in Granville Bay, where the Men got on shoar, and from thence fired up on him, as they did also from a little Fort in the Bay. Capt. Tupper ordered 25 of his men to Land, who entered the said Fort, and took 3 Prisoners, the rest, with the Lieutenant that commanded them, turning away; he continued in possession of the Fort and of the Privateer for 3 hours, but it being impossible to bring the Prize off, he let her on fire, having had but one man wounded in this Action. On the fifth Instant, coming on that Coast, he espied 18 Sail, and 2 being a Part of the rest, he chased them, and run them on shoar in Carteret Bay, where one was burnt of 140 Tuns, laden with Salt and Barley; the other of about 80 Tuns, laden with Wine, was sunk.

Portsmouth, Sept. 13. Their Majesties Ship the Marsden, has sent in this day a French Privateer, carrying 8 Guns, and 40 Men, which she got sight of on the 10th Instant about 2 Leagues to the Westward of Portland, and took her a Chase of 4 hours; during which, the Privateer threw over board 5 of her Guns; She is a new Ship, called the Dutchess of Sheron, belonging to St. Malo, and carries 10 Guns.

Dunk, Sept. 14. This Day the Machine Vessels returned from before Dunkirke, under the Convoy of the Unity and Fire-Drake, except 2 of them that were set fire to, but at so great a distance, that they had no effect; the biggest of the Machines we hear was sent in on Wednesday last, about 4 in the Afternoon; she went in very boldly, and had about 50 Shoar made at her, but as she came near the Mouth-head, the Tide set her on one side, so that she drove a Cable length, and then blew up. The Spring-Tides being spent, it was not thought fit to make any further Attempts; and Sir Cloudesly Shovel went with the Squadron under his Command towards Gravilin, sending Orders for the Bomb Vessels that were left in the Downs to come to him.

Dunk, Sept. 15. This Morning the Signal was made for

all the Bomb Vessels to sail, which accordingly got ready, and about 2 this Afternoon they were all under sail with a fair Wind for the Coast of France.
