From Thursday January 3. to Sunday January 7. 1694.

Cadix, December 13. N. S.

THE Fleet under the command of Admiral *Russell* continues in this Port; The Weather has been very Stormy for these last 3 weeks, but the Men of War have not received any damage. On the 2d arrived here 7 or 8 English Merchant Ships from *Malaga*. The Galeons designed for the *West-Indies* will now very quickly begin to lade. The Moors are still before *Ceuta*, but have hitherto made so little progress in the Siege, that we do not apprehend the place to be in any danger.

Madrid, Dec. 22. The Council here has at present under consideration the sending the necessary supplies of Money to *Flanders*, *Piedmont*, and *Catalonia*, for the service of the next Campaigne. The last week a Hundred thousand Crowns was remitted to the Governor of *Milan*, and a like Sum to the Elector of *Bavaria*. They write from *Barcelona*, that the Marquis de *Gastanaga* their new Viceroy, arrived there the first of this month; and that he had taken a review of all the Spanish Troops quartered thereabouts. The Letters from *Carthage* of the 13th confirm the loss of two Genouese Ships and several Satees in *Almeria Bay*, who were cast away in a violent Storm the 24th of the last month; and farther tell us, that a great Venetian Ship perished at the same time off *Cape Paul*, with all her Men.

Coruna, Dec. 25. The 20th arrived here the *Arch-Angel*, Capt. *Christopher Fog* Commander, with several English Merchant Ships from *Newfoundland*. They write from *Bilboa* of the 13th, that the day before came in there the Fleet of Merchant Ships bound to that place from *England* and *Holland*: And from *Vigo*, that the *Flying-Horse*, Samuel Weston Commander; and the *Mary*, John Dudley, were arrived in that Port from *Newfoundland*. The Letters from *O-Porto* of the 18th say, they had an account from *Lisbon*, that the English Cruisers had taken two *Sally Men* of War.

Leghorne, Dec. 13. This day arrived here a Bark in 6 days from *Tripoli*, and brings advice, that Mr. *Lodington*, the English Consul, was returned thither, and had confirmed the Peace with that Government.

Turin, Dec. 22. They continue to talk here of besieging *Gazal* early in the Spring. The Officers of his Royal Highness's Troops are very busie in making their Recruits. Prince *Eugene* of *Sarvoy* is gone to *Vienna*.

Venice, Dec. 24. By a Vessel which arrived here two days ago from *Constantinople*, we have advice, that the Visier was returned to *Adrianople*, and that the Grand Signior had ordered him to use his utmost endeavours for the regaining of *Scio*; The Bassa of which place has had his Head cut off since his return to *Constantinople*, for not defending it better: The Grand Visier has dis-

patched Chiauses to the Governments of *Argiers*, *Tunis*, and *Tripoli*, to require them to lend their Ships to the *Levant*, in order to join the Ottoman Fleet in the Spring. The Senate here gives out Commissions daily for new Levies, having resolved to augment their Forces in the *Levant* against the next Campaigne.

Vienna, Dec. 29. On the 25th Instant arrived here an Officer from *Hungary* with an account, that the Turks at *Gyula* being reduced to the last extremities through the want of Provisions, had at last agreed to surrender the place to the Imperialists upon Articles concluded between them and the Governor of the Imperial Garrison of *Segedin*, provided the Emperor did confirm the Capitulation; and the same evening he parted again from hence with the Emperor's Ratification of it; and with a Gold Chain and Medal which his Imperial Majesty had ordered to be given him for bringing this Welcome News. There are Letters from *Turkey* which say, that there had happened a great Tumult at *Adrianople*, which was chiefly occasioned by the news of the taking of *Scio*, but the Caimacan upon the first notice of it, went with a Body of Spahis and Janifaries, and dispersed them, after having cut in pieces some of their chief Leaders.

The Capitulation concluded between the Baron *d'Hayn*, Commandant of *Segedin*, in the Name of the Emperor, and *Effendi Ibrahim Ozelob* *Mehmet* and *Oda Bassa*, deputed by the Bassa and Garison of *Gyula*.

I. **A**ll that is found in the Arsenal of *Gyula*, as Powder and other Ammunition, with all other things great and small; all the Cannon within the Fortrefs and Palanke, and all Instruments and Utensils of War, shall be delivered into the hands of the Commandant of *Segedin*, or such as shall be appointed by him. All Mines and Powder hid under Ground shall be faithfully discovered by the Turks; and no frauds or imbezlements committed; and all Fires shall be extinguished at their marching out.

II. All Prisoners shall be released without any ransom.

III. The Garison, together with all the Inhabitants, as well as Strangers that are within the place, may march out with their Wives, Children, Goods, and Cattle, and shall be conducted in 5 days (if desired) to *Temefwaer*; but they are not to go out with Colours Flying and Drums Beating, except the Janifaries, to whom one Colours is allowed. The Radzens in the place that have a mind to go away with the Garison, may freely do it, and others that will stay, shall remain there without any trouble or molestation.

IV. There shall be provided for them that go out 320 Wagons, and 50 Saddle Horses during their Journey.

V. The Turks may sell such of their Goods as they have not a mind to carry away with them.

VI. The Garison, &c. shall march out so soon as the Emperor's Ratification of this Agreement arrives at *Gyula*;
