

APPENDIX.

TRADE.

The Tobacco trade, that is to say, the manufacture of tobacco, cigars, cigarettes, cigarette tubes, and snuff, including all preparatory processes and including also the operations of storing and storekeeping, boxing, packeting, labelling, parcelling and despatching, and all other warehousing and packing operations incidental to the manufacture of any of the above mentioned articles.

Admiralty, 29th October, 1918.

The KING has been graciously pleased to approve of the award of the Albert Medal for gallantry in saving life at sea to

Surg.-Lieut. William Fryer Harvey, R.N.

The account of the services in respect of which this decoration has been conferred is as follows:—

On the 28th June, 1918, two of H.M. torpedo-boat destroyers were in collision, and Surg.-Lieut. Harvey was sent on board the more seriously damaged destroyer in order to render assistance to the injured. On hearing that a stoker petty officer was pinned by the arm in a damaged compartment, Surg.-Lieut. Harvey immediately went down and amputated the arm, this being the only means of freeing the petty officer. The boiler-room at the time was flooded, and full of fumes from the escaping oil. This alone constituted a great danger to anyone in the compartment, and Surg.-Lieut. Harvey collapsed from this cause after performing the operation, and had to be hauled out of the compartment. Moreover, at any time the ship might have broken in two and all hands were fallen in on deck, wearing lifebelts, at the time, in order to be ready for this eventuality. Surg.-Lieut. Harvey displayed the greatest gallantry and disregard of his personal safety in descending into the damaged compartment and continuing to work there amidst the oil fumes at a time when the ship was liable to sink.
