To make provisions for and with respect to the determination from time to time of such rates per centum and the amount thereof, and, if thought fit, to authorize the same to be determined on the basis of an estimate by the Board of their probable revenue and expenditure in the financial year with reference to which the determination is made.

To amend section 7 of the Act of 1907 by increasing the minimum proportion of the expense of providing and laying down mains or pipes which is to be represented by the aggregate amount of water rate payable by owners or occupiers of houses or buildings or parts of houses or buildings requiring a supply of water pursuant to that section.

To extend to premises of any such class as is referred to in section 9 of the Act of 1907 being of less rateable value than three hundred pound per annum the provisions of that section with respect to rebates from the rate payable in respect of the supply of water for domestic purposes, and to vary (by way either of increase or of reduction or of alteration of incidence) the amount or proportion of such rebates (as prescribed by the said section) in the case of all or some of the premises to which the said section applies or is intended as proposed to be amended to apply.

To authorize the Board in the case of any premises of any such class as is referred to in the said section 9 of which the rateable value does not exceed one hundred pounds per annum to allow such rebates or discounts (if any) as they may think fit from the water rate payable for or in respect of the supply of water to such premises for domestic purposes.

To amend Section 20 of the Act of 1907 by extending the provisions thereof so as to include hospitals and sanatoria, notwithstanding that they be wholly or partly supported by endowments or voluntary contributions and be not carried on for purposes of private profit or gain, and to empower the Board to refuse to supply water to such hospitals and sanatoria otherwise than by measure, and if thought fit to provide for and authorize the making of special discounts or rebates in the case of such

supplies by measure from the ordinary charges for a supply by measure.

To repeal, alter or amend Section 13 of the Act of 1907, and to provide that for the purpose of ascertaining the charge to be made by the Board for or in respect of the supply of water for domestic purposes to any premises the rateable value of such premises shall for any financial year (subject as hereinafter mentioned) be deemed to be the rateable value assigned thereto in the valuation list in force at the date on which the Board fix the percentage of rateable value to be charged by them for or in respect of the supply of water for domestic purposes during that financial year or if no rateable value be so assigned then the annual value of such premises determined as provided by Section 68 of the Waterworks Clauses Act, 1847, but that where in consequence of the decision on any appeal or of the coming into operation of any provisional or supplemental valuation list any alteration is made after the date on which the Board fix such percentage of rateable value as aforesaid in the rateable value of any premises as appearing in the valuation list in force as aforesaid, or any premises are for the first time entered in such list, the altered or new rateable value shall be deemed to form the basis for determining the amount of the water rate in respect of such premises as from the date on which the alteration comes into operation or the new entry is made, and that any payments made to the Board before that date in respect of the financial year in which such alteration comes into operation or any part of such financial year by way of water rate in respect of such premises shall be adjusted accordingly by payment by the Board to the person by whom such previous payment was made (on demand by him) or by payment to the Board on their demand by such person and any other person who at the date last aforesaid may be the owner or occupier of the premises liable for the payment of the water rates in respect thereof (in due proportions) or by one of such persons as the case may require.

To provide that subject to the provisions referred to in the last preceding paragraph the Water Rate Definition Act, 1885, shall extend and apply throughout the limits of supply of the Board, but with the substitution of references to rateable value for the references to annual value contained in the proviso to Section 1 of that Act.

The Bill will or may for the purposes aforesaid repeal, alter or amend all or some of the provisions of Sections 15 and 18 of the Act of 1902 and re-enact any such repealed provisions with modifications, extensions or additions.

To authorize the Board within the limits of any maxima which may be prescribed by the Bill to vary from time to time the amount of the rates or charges for or in respect of the supply of water or for or in respect of the supply of water for any particular purpose or purposes or by any particular means, and to relieve them from any obligation to make any such variation unless and until the deficiency or surplus or accumulated deficiency or surplus in their revenue or water fund amounts to such sum (if any) as may be specified in or ascertainable under the provisions of the Bill.

To repeal so much of sub-section (6) of Section 15 of the Act of 1902 as is not already repealed.

To extend and apply to the new amended or additional powers of charging to be conferred under the provisions of the Bill all or some of the existing rights, powers and remedies of the Board with respect to the recovery of rates, rents or charges for or in respect of the supply of water or otherwise or exercisable in the case of non-payment of such rates, rents or charges.

To amend or alter any of the provisions of the Grand Junction Waterworks Act, 1856, the Act of 1902 or any other Act or Acts relating to the Board or their undertaking and to repeal such (if any) of the said provisions as would be inconsistent with the objects of the intended Act, and, if thought fit, to extend and apply to the intended Act, with or without modification, all or any of the said provisions and to confer upon the Board such further and other powers as may be found necessary or expedient for or in connection with the purposes of the intended Act or as are usually applicable to or conferred upon companies, bodies and authorities authorized to supply water.
