By a Bark from *Tunis* we are told, that they are fitting out there two great Ships, to be sent to the Turkish Fleet. The *Mary-Rose*, Capt. *Thomas Rogers*, is arrived here from *Galipoli*.

Venice, May 31. The Pope's Gallies intend to depart from *Civita Vecchia* the 5th of the next Month; and are to join the Gallies of *Malta* at *Messina*. A great Convoy may be ready to sail hence the next week for the *Levant*.

Madrid, May 29. Their Catholick Majesties are both very well again, and have been several times abroad this last week to take the Air. The Count de *Harach*, the Emperor's Minister, arrived here two days ago. Yesterday was brought hither 55000 Pieces of Eight from *Cadiz*, which came in the Flota, for the account of the King of *Spain*. Several Expresses have been dispatched hither by the Viceroy of *Catalonia*, to acquaint the Court with the Enemies Motions, and that he had drawn together the Spanish Forces, which make a Body of 12000 Foot and 4000 Horse; A Regiment of 800 Men was arrived at *Barcelona*, from *Final*; and the old Regiments of *Costa* and *Granada*, of 1000 Men each, were daily expected from *Malaga*. This day came in Letters from *Barcelona*, dated the 25th of this Month, which give an account, That the French Army assembled near *Gironne*, about 28000 strong, and that they had provided all things necessary for a Siege: 'Tis believed their design is upon *Barcelona*; and the Inhabitants have thereupon removed their most valuable Goods, and the Governor has sent away all the ablest People, and put the Place in a Posture of Defence. On the 11th Instant arrived at *Malaga* a Boat sent Express from *Melilla* with advice, that 14000 Moors were come before that Place, which they thought to have taken by Surprise, and in order thereunto Scaled an Outwork, but were discovered and repulsed by the Spaniards, who in this occasion had 11 Men killed and 100 wounded; what Loss the Moors sustained is not yet known. Three Spanish Gallies departed from *Carragena* the 10th of this Month for *Malaga*, and in their way thither took a French Privateer of 12 Guns; and a Moorish Pink with 40 Men. A great quantity of Provisions and Ammunition have been sent hither from *Malaga* to *Barcelona*; and more Forces are ordered thither by Sea. The Slaughter Galley, Capt. *Kear*, arrived at *Cadiz* the 12th Instant from *Alexandria*. And on the 16th the *Montague* Galley from *Genova*.

Coruma, June 8. The 31th of the last Month came in the Spanish-Expedition Packet-Boat, and this day the Spanish-*Allyance*, from *Falmouth*. On the 30th past were seen off *Cape Prior* 14 sail of great Ships standing to the Westward; which are supposed to be the Squadron commanded by the Marquis de *Nismond* and the Sieur *Magnon*.

Dantzicke, June 4. The Queen Dowager of *Poland* continues in this City; The last Letters from *Warsaw* say, there had not yet passed any thing of moment in the Dyet, they staying for the Arrival of the rest of the Nobility; and that in the mean time the Friends of Prince *James* had every day greater hopes that the Election will fall upon him.

Vienna, June 1. The Resolution holds to Besiege *Bihars* on the Frontiers of *Croatia*; The Troops commanded by the Governor of that Province are on their march for this purpose; and the Place will be Invested this day; The Imperialists believe they shall be soon Masters of it; seeing, the Turks, who did not suspect any such design, have not put any Reinforcement into the Town, or taken any Measures for it's Relief; The Garrison consists but of 700 Foot, and 200 Horse; and there will be 7000 Germans and 15000 *Croatians* employ'd in the Siege. The Imperial Forces continue their march to the Rendezvous between *Baya* and *Veris Marton*; and a great many Vessels are continually passing down the *Danube* laden with Provisions and Ammunition. The advices from *Constantinople* of the first of *May*, say, the Turks were sending 4000 Men of their best Troops, and commanded by their most Experienced Officers to assist the *Tartars* against the *Moscovites*.

Coningsberg, June 4. On the 28th of the last Month the 3 Ambassadors from the Czar of *Moscovy* arrived here; They were by Order of the Elector of *Brandenburg* received about a mile out of Town by the Commissary General *Danhelman*, and the Master of the Ceremonies, and Conducted hither in the Elector's own Coach, followed by a great number of other Coaches, and attended by his Electoral Highness's Officers and his Guards; on the 31th the Ambassadors had Audience of the Elector, and the first of them acquainted his Electoral Highness, that the Czar had sent them to confirm the Friendship and good Correspondence which for many Years has been established between their respective Dominions, and to thank his Electoral Highness for the Ingeniers he sent the last Year to the Siege of *Asaf*, where they did very good Service; That from hence they were to go to the Emperor's Court, to regulate Matters about the further Prosecution of the War against the *Turks* and *Tartars*, and desired his Electoral Highness to be assisting to them in their Journey; and then they made the Elector a Present of several Furs and rich Persian Silks; The Elector having returned their Compliment, they were reconducted to the House where they Lodge, and splendidly Entertained. Yesterday they visited the Sieur *Danhelman*; at night saw a fine Firework; and in few days they intend to proceed on their Journey to *Vienna*.

Frankfort, June 9. The Confederate Forces, which are to act on the *Upper Rhine* this Summer, will be all joined together in 3 or 4 days; and by that time Prince *Lewis* of *Baden* is expected in the Army. The French Army under the command of Marschal *Chusseul* march towards *Mentz*; and it's believed they will post themselves at *Neder Ulm*; The Troops of the Allies, who had formed a flying Camp at *Sinzingen*, are ordered to pass the *Rhine* near *Mentz*, and to Encamp in the Neighbourhood of that City.

Cologne, June 11. The Forces of *Hanover*, *Zell*, *Hesse*, and *Munster* continue their march towards *Brabant*, part of them have already passed the *Rhine* at *Bon* and *Lintz*, and the rest will do so to morrow, at *Newit*, *Mulheim*, and other convenient Places. Two Regiments of Horse and two of Foot of the Elector *Palatin's* Forces are ordered to march to the *Upper Rhine*.

Hamburg, June 11. We had an account some days ago that the Danish Troops and Artillery were actually marching to attack the 3 Forts which the Duke of *Holstein* re-fortified the last year; and this day advice is come of their having Invested the *Halmer Seans* with 4000 Men. On the other side, the *Garison* have Orders from the Duke to defend themselves to the last, and the Sluyces are opened to put the Country thereabouts under Water. The *Suedes* do much concern themselves in this Affair, and are resolved to assist the Duke: They are fitting out a Squadron of Men of War; and 8 of their Regiments are ordered to march. At the same time the Ministers of several Princes do employ their Offices to compose this Difference between the King of *Denmark* and Duke of *Holstein*.

Paris, June 10. An Officer, dispatched by Marschal *Catinat*, arrived here the 7th, with an account that the Garrison of *Ath* Capitulated the 5th, and was to march out the 7th. But this News occasions no Joy among the People, who look upon it as an Action of little Honour, and to take so small a Place with such great Armies; and would much rather hear of a Peace; For whatever Face things may have at Court, the Misery encreases in all the Provinces of this Kingdom, to a degree that cannot be expressed. The Letters from the French Army in *Catalonia* of the 30th past, told us, they were advanced to *Saloni*, and from thence would continue their march towards *Barcelona*; The Spanish Forces were retired thither, and the Prince of *Hesse Darmstat* with 3000 Horse cover'd their Rear; The Duke de *Vendosme* detached a Body of Horse and Dragoons to attack the Spaniards, and their was some Skirmishing between them, but they made good their Retreat: Yesterday arrived an Express with Letters an account, That the Spaniards had put 6000 of their best Foot into *Barcelona*, and that the French had possessed themselves of several Posts, and Invested the Town, which at the same time was block'd up by Sea, by 9 Men of War from *Thoulon*, under the Command of the Count d'*Estree*, and 25 Gallies were expected in few days from *Marseilles*.
