The Marq is **Patlavicino** our Refident at Madrid, ha in his Audioace from the Queen Regent made complaint of fome undue proceedings in feifing upon Money, upon one^t of this States Gallies at Barcellona, and the arreting of the Goods belonging to fome Genoueles at Milan; whereupon Her Majefly was pleafed to fend his Memorial to the Council, promising to do Jultice.

Council, promiting to do Jultice. Bruffells, fan. 11. The laft week the Magistrates of this place having at the laft by fome new Proposals farisfied the Commonalty, as to the Point of admitting the Spanish Soldiers, went to attend the Constable of Caffille at Malines; from whom they were dim illed with farisfastion : fince their return, the Regiment of Monterey are permitted entrance into the City; they finding out their own Quarters for their money, the Suburbs by this means being wholly freed from their burthen : all things as yet continue pesceable and quiet, and the Soldiers careful not to prejudice the Citizens; who have agreed for 6 moneths to allow them 3000 Florins a moneth towards the psyment of their Quarters.

The Constable is daily expected here, where all things are prepared for his reception.

The Commissioners at Lille have made little progress in the affairs for which they net, the grand business of the Vrench Pretensions being remitted to Spain; whole relolation is impariently expected. We continue still our apprehensions of the intentions of our neighbours but the better to provide for our fecurity, all Governours of the winces have been ordered to be prefent in their respective Potts and Charges the eth initiant, to take a view of their Magazin's, and to give order for their supply. The Duke d'Aerfohat particularly has this week been emploied in vifitting the Foreifications in his Province of Haynsult,

On Sunday last the Baron d' Ifols Envoye Extraordinary from the Emperour, went hence to Malines, and is fince departed from thence into Holland.

Here are lately arrived Letters from Milan, bearing date the 26th paft, informing us of the death of the Marquifs de Nortara: who decealed the day before, after a long diflemper of the Gour.

On Sunday laft the States of Brabant returned hicker, and this day affembled; where they fell upon the Debate of maintaining a certain force for the defence of this Province.

The French are daily making new Proposals by their Committeers at Lille, touching their Pie enforts to the Dependencies on their late Conquests. The Constable is upon a resolution to lend fome perform to them, to defi e they would please to give him in writing the fum of all their Pretentions, without any referve; that they may the better come to an islue upon that point.

'T is faid the Council of Spain is refolved, that the fum of 2 Millions and 500 thousand Livres per annum shall be advanced for the defence and safety of these Provinces; the faid sum to be drawn out of the Kingom of Naples.

Brassells, Fan. 15. The 12th inftant arrived here privately without any Ceremony the Constable of Castille, and the next day was with much state attended to the great Church by the Prince de Ligne, Count Marcin, and the Count de Sa'szar ; who re-conducted him to the Pslace.

The Soldiers continue quiet in their Quarters, without committing any diforders to the diffurbances of the City; but without the Town they commit many robberies: having killed fome perfons of the City, who refued, when let upon; to deliver their moneys.

One other of the accomplices in the fact committed formerly at Outeman, is faid to be lately apprehended at Mons in Haynault.

Mambourg, fan 12.5. N. Count Coning fmark is daily expected here, where it the war fhould c Brinue between the Blector Palative and Duke of Lorrain, he has thoughts of raising fome forces for the fervice of the former, in which he may provide himfelf faccels, this place being fil'ed with Soldiers lately disbanded from the Swedifh Componies in the Dutchy of Bremen. The Duke of Saxe Lawenburgh coatinues his Leavies, but with what intentions is not yet faid. Frem Vienna we are told that the Turks have lately exp effed their reientment of the Emperours late proceeding, complaining that he fends his forces to affift the Republick of Venice their Enemy, that he permits the Hufla.s and Haydukes in Hungary without punifhment to continue their hoftilities upon their Quarters, and that he takes no care in latisfying them in ordering the Fort neer Gomorrhe to be thrown down 3 but this is returned towards their latisfaction.

1. That the forces which are lately entred into the Venetian fervice, were disbanded and at liberty to take what employment they pleafed.

2, That the Turks having made many and ofiner inroads upon the Emperors Territories, then the Hungarians upon theirs, they had no reason to complain of a return.

And Thirdly, that there was no new Fort creded neer Gomorrhe, but only that his Officers had taken care to repair an old one, which was not inconfiltent with the Treaty between t' e two Empires.

Hagues fan 1°. On Thursday last the Heer Silver Croon the Swedilli Refident had an Audience from the States, to whom he prefented his Letters of Credence.

The Council of State having taken notice of the great decay of the fortifications in leveral of the Garrilons under the jurifdiction of the States, which they principal y attribute to the backwardness of several of the Provinces in paying the proportions charged on them for that work, have lately prefented a Petition to the States-General defiring them to take this affair into their confiderations ; and to order the continuance of the yearly allowance of Two hundred and fifty thousand France to be expended in the reparation of their Forts, and to take order to quicken the Provinces concerned, that they may readily and timely furnish their respe-Clive Quotas; as alfo that they would continue the allowance. of 3000 Francs a moneth for the fupply of their Magazines of Provisions for the Militia; belides which, 'tis defired, that the Magistrates in each Garrison may take care for laying up ftores, which in cafe of exigency may supply the Inhabitants for fix moneths : farther comminding to their care, the fupply of Guns, and other necessaries for their fhipping, the necessity of affairs requiring, that a greater Fleet then is usual in times of fettlement should be kept at fes, to be in readiness upon any occasion which may happen.

The States of Zealand are in few days to Allemble, bue as yet 'tis doubtful whither those of Zirchzee, will refolve to fend their Deputies to take their places there.

The States of Zealand having lately ordered the disbanding of three Companies of their Militia, a Letter is ordered to be fent to them to expoftulate their proceedings therein, as being an ill prefident to the other Provinces, who by their example, may also difcharge themfelves, and by that means the publick receive detriment, the affairs of our Neighbours not being yet in fo quiet a pofture, that we can promife our, felves fecurity, should not more then a ufual force be kept up for the defence of our peace defiring them to continue the Companies as formerly for fome few moneths longer, and to take with them the asvice of the reft of the Provin-, ces and Council of State for their disbanding.

The States have ordered the fo.ces upon the frontiers to change their Garrilons, thole of *Flanders* to move to the Gartilons on the Confines of *Brabant*, thole allo upon the *Rhine* to be removed, and others placed in their room.
