#### ROYAL INDIAN MARINE.

The KING has approved the grant of the rank of Eng. Lieut.-Comdr. on the retired list of the R.I.M. to Eng. G. R. Ellis, retired, with effect from 12th June 1926.

#### MINISTRY OF HEALTH.

##### PUBLIC HEALTH ACT, 1925.

By an Order dated 27th August, 1926, the Minister of Health has consented (1) to the adoption of Section 21 (prevention of water flowing on footpath) Section 22 (preventing soil &c. from being washed into streets) Section 44 (offensive trades) and the Sections contained in Part V (watercourses &c.) of the above Act by the Town Councils of Barnstaple, Calne, and Hemel Hempstead, and the Urban District Councils of Ashbourne, Heath Town, Linthwaite and Sowerby; (2) to the adoption of the said Section 21, and Sections 54 and 55 contained in Part V of the Act by the Town Council of Saffron Walden; (3) to the adoption of the said Sections 21 and 22 and the Sections contained in Part V of the Act by the Urban District Councils of Altofts, Criccieth, Llanfrehfa Upper, Portslade-by-Sea, and Stroud; (4) to the adoption of the said Sections 21, 22 and 44 of the Act by the Urban District Councils of Holmfirth and Newport Pagnell; and (5) to the adoption of the said Sections 21 and 44 and the Sections contained in Part V of the Act by the Urban District Council of Northallerton.

A copy of the Order may be inspected at the Offices of the respective Councils.

Electricity Commission,  
Savoy Court,  
Strand, W.C. 2,  
27th August, 1926.

For the purposes of the Electricity (Supply) Acts, 1882 to 1922, and all Orders and Licences made or granted and issued thereunder, and any Local Act relating to the supply of electricity, the Electricity Commissioners approve of the construction and pattern of the meter (hereinafter described) for the measurement of electrical energy when supplied on the constant pressure two-wire single-phase alternating current system, and known as the Electrical Apparatus Type "E" Induction Watthour meter, rated sizes 2½ amperes to 20 amperes inclusive, 200 to 250 volts inclusive, at 50 cycles per second.

Provided that the meter be constructed as described in the specification and drawings deposited at the National Physical Laboratory, Teddington, Middlesex, dated and numbered 3rd June, 1926, and No. 112, and be in accordance with one of the pattern meters Nos. 120122, 120123, 125032, 125033 and 125034 deposited at the National Physical Laboratory on the 28th April, 1926, and the 22nd July, 1926, respectively, by or on behalf of the Electrical Apparatus Company Limited, Vauxhall Works, South Lambeth Road, London, S.E., and sealed by the National Physical Laboratory at the instance of the Electricity Commissioners.

The Electricity Commissioners further approve of the means provided for fixing meters of this description, and for connecting them with the service lines as described in the specification and drawings above referred to.

Signed by order of the Electricity Commissioners this 27th day of August, 1926.

(Signed) *W. Cook,*  
For Secretary to the  
Electricity Commissioners.

Electricity Commission,  
Savoy Court,  
Strand, W.C. 2,  
6th September, 1926.

For the purposes of the Electricity (Supply) Acts, 1882 to 1922, and all Orders and Licences made or granted and issued thereunder, and any Local Act relating to the supply of electricity, the Electricity Commissioners approve of the construction and pattern of the meters known as (i) the Ferranti Type F.H. Continuous Current Mercury Motor Ampere-Hour Meter, and (ii) the Ferranti Type C Single-phase Alternating Current Meter, of rated sizes 2½ amperes to 20 amperes inclusive in combination in each case with the prepayment mechanism (hereinafter described) for the measurement of electrical energy when supplied respectively on (i) the constant pressure 2-wire direct current system and (ii) the constant pressure single-phase alternating current system at a frequency of 50 cycles per second.

Provided that the meters and prepayment mechanism be constructed as described in the
