*Civil Service Commission,**January 20, 1931.*

The Civil Service Commissioners hereby give notice that the following Regulations are published with the approval of the Lords Commissioners of His Majesty's Treasury, viz:—

REGULATIONS RESPECTING OPEN COMPETITIVE EXAMINATIONS FOR THE SITUATION OF FEMALE TELEGRAPHIST IN LONDON IN THE DEPARTMENT OF THE POSTMASTER-GENERAL.

*These Regulations are liable to alteration from time to time.*

1. The limits of age for this situation are 15 and 18. If an Examination begins in one of the first six months of any year, candidates must be of the prescribed age on the 1st day of April in that year. If an Examination begins in one of the last six months of any year, candidates must be of the prescribed age on the first day of October in that year. A candidate who attained the age of 15 on the governing date would be admitted to the

examination, but a candidate who attained the age of 18 on that date would not be admitted.

2. Every candidate must be a natural-born British subject, the child of a person who is or was at the time of death a British subject; provided that exception may be made in the case of persons serving in a civil situation to which they were admitted with the certificate of the Civil Service Commissioners.

Provided also that if the Civil Service Commissioners are satisfied in the case of any candidate who is a British subject but does not fulfil all the requirements of the rule as to nationality and descent, that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions that an exception may properly be made to that rule, they may accept such candidate as eligible provided that this discretion shall not be exercisable unless (a) the father or the paternal grandfather of the candidate was a natural-born British subject, and (b) neither the father nor the paternal grandfather had acquired any other nationality by naturalisation or by any other voluntary and formal act.

3. Candidates will be required to satisfy the Civil Service Commissioners that they are duly qualified in respect of health and character.

4. At each Examination the number of candidates to be selected will be such as the Postmaster-General may from time to time fix.

5. The Examination will be in the following subjects, viz. :—

1. English.
2. History.
3. Geography.
4. Arithmetic.

Candidates must satisfy the Civil Service Commissioners in Handwriting and in the Examination as a whole.

6. The Examination is open only to local candidates. A local candidate is regarded as one whose family home is situated where she can travel to and from the office conveniently and without detriment to her health or the interests of the Department. It will be within the authority of the Postmaster-General to decline to employ a candidate successful in the Examination if he is not satisfied on enquiry that the candidate complies with this requirement.

7. Candidates must be at least 5 feet in height.

8. In view of the difficulty which left-handed operators are likely to experience in the use of instruments designed for right-handed operators, candidates who are markedly left-handed are ineligible for appointment.

9. Persons holding situations in the Civil Service must obtain the permission of the authorities of their Department to attend the examination before the commencement of the competition.

10. Persons upon whose training for the occupation of teacher public money has been spent cannot be appointed until the consent of the appropriate education authority has been notified to the Civil Service Commissioners.

11. Application for permission to attend an Examination must be made at such time and in such manner as may be fixed by the Civil Service Commissioners.

12. A fee of 10s. will be required from every Candidate attending an Examination.

The Commissioners further give notice that an Open Competitive Examination will be held in London under the foregoing Regulations, on the 14th April, 1931.

Appointments will be offered to not fewer than 30 of the candidates highest on the list, provided they obtain the necessary aggregate of marks, qualify in writing, and are duly qualified in other respects.

No person will be admitted to Examination from whom the Secretary of the Civil Service Commission has not received, on or before the 4th March, 1931, an application in the Candidate's own handwriting, on a prescribed form, which may be obtained from the Secretary at once.

## ADMIRALTY NOTICE to MARINERS.

No. 6.

[TEMPORARY.]

### BRITISH ISLES AND NORTH SEA.

CAUTION RE VESSELS TRAWLING WITHIN CERTAIN  
AREAS; GENERAL INFORMATION RE MINES.

Former Notices.—Nos. 6 and 2085 of 1930;  
hereby cancelled.

#### I.—CAUTION WITH REGARD TO VESSELS TRAWLING WITHIN CERTAIN AREAS.

Notice is given that within the undermen-  
tioned areas large numbers of unexploded  
mines are known to have been sunk, and it is  
recommended that within these areas vessels  
should not trawl without using some safety  
device to prevent mines entering the trawl.

The areas are bounded by lines joining the  
positions given:—

The foregoing caution has been rendered necessary owing to danger of sunken mines on the bottom. A cautionary note is shown on the charts.

NOTE.—The areas defined above, with the exception of a portion of No. 19 and the whole of No. 21, are shown in red on the accompanying chartlet, which is intended to provide a ready means of reference.

II.—GENERAL INFORMATION REGARDING MINES.

1. Mariners are warned that a certain number of mines have sunk without exploding. It is possible that some of these mines lying on the bottom may still be dangerous. Surface vessels navigating these areas should therefore, whenever possible, have a clear depth of at least six feet (1<sup>m</sup>8) between their keels and the bottom when in the vicinity of shoal water or in the approaches to ports and harbours which were subjected to mining operations during the war.

2. In regard to vessels trawling, it is pointed out that a risk, although of a diminishing character, still exists.

The attention of all vessels trawling is drawn to the immunity which may be secured by the use of a suitable protective device to prevent mines entering the trawl.

As can be readily understood, it is not possible to predict for how long a period

sunken unexploded mines remain dangerous, and consequently no unnecessary risk should be taken.

3. Dummy mines (British) are distinguishable by the words "Sand-filled" which are stamped on the circumference of the top and bottom annular rings of the mine shell, and also painted in large white letters round the top mouthpiece.

Authority.—The Lords Commissioners of the Admiralty. (H. 7766/30.)

By Command of their Lordships,

H. P. Douglas,  
Rear-Admiral and  
Hydrographer of the Navy.

Admiralty, London,  
1st January, 1931.

*The last Admiralty Notice to Mariners issued during 1930 was No. 2163.*

## ADMIRALTY NOTICE TO MARINERS.

*No. 1 of the year 1931.*

### CAUTION WHEN APPROACHING BRITISH PORTS.

#### PART I.

#### CLOSING OF PORTS.

*Former Notice.*—No. 1 of 1930; hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the British Isles, or any of the ports or localities of the British Empire, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II., of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three *red* lights vertically disposed by night, or three *red* balls vertically disposed by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II., of this Notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At some ports or localities at home or abroad, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing movable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

#### PART II.

#### EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter ports or localities at home or abroad.

(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already

received this information from the local authorities.

(6) As the institution of the Examination Service will probably be unknown to vessels desiring to enter the port, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In approaching by night any port in the British Empire, serious delay and risk will be avoided if four efficient all round lanterns, two *red* and two *white*, are kept available for use.

(7) By day the distinguishing flag of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border).

Also, three *red* balls vertically disposed if entrance is prohibited.

Usually the Examination Steamers will fly the Blue Ensign, but in certain circumstances they may fly the White Ensign.

By night the steamer will carry:—

(a) Three *red* lights vertically disposed if entrance is prohibited.

(b) Three *white* lights vertically disposed if entrance is permitted.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Merchant vessels approaching a British Port at which the Examination Service is in force, must hoist their signal letters on arriving within visual signal distance of the port, and are not to wait for the signal "What ship is that?" to be made from the Examination Steamer.

(9) Masters are warned that, before attempting to enter any port when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things, without permission from the Examining Officer:—

To lower any boat.

To communicate with the shore or with other ships.

To move the ship.

To work cables.

To allow any person or thing to leave the ship.

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports

are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

### PART III.

#### MINE-SWEEPING OPERATIONS.

H.M. Vessels engaged in mine-sweeping operations or exercises are hampered to a considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned. For the public safety all other vessels, whether steamers or sailing craft, should endeavour to keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass between the vessels of a pair or group sweeping together.

#### 1. SIGNALS SHOWN BY DAY.

##### (a) By vessels working singly:

A black ball at the foremast head, and a similar ball at the yard-arm, or where it can best be seen, on that side on which it is dangerous to pass. (If a ball is shown at each yard-arm it is dangerous to pass either side.)

Vessels showing this signal should not be approached nearer than 900 yards.

##### (b) By vessels working in pairs or groups:

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels should not pass within a distance of 40 yards astern of a pair or group of

sweepers, or when more than one pair or group are working in company within a distance of 400 yards astern of the rear pair or group. They should on no account attempt to pass between pairs or groups working in Company.

#### 2. SIGNALS SHOWN BY NIGHT.

As for day, except that all round *green* lights will be used in a similar manner to and in place of the black balls.

NOTE.—This Notice is a re-publication of Notice No. 1 of 1930.

(Notice No. 1 of 1931.)

Authority.—The Lords Commissioners of the Admiralty. (H. 7761/30.)

By Command of their Lordships,

*H. P. Douglas,*

Rear-Admiral and Hydrographer of the Navy.

Admiralty, London,  
1st January, 1931.
