

authority or university in the United Kingdom approved for the purpose of this provision by the Treasury, or any other Institution or Body so approved, and declared by the consignee in a form approved by the Commissioners of Customs and Excise to be imported solely for use as exhibits or specimens, and not for sale.

The Chancellor of the Exchequer reminds the Board that the Import Duties Advisory Committee in their Report dated the 29th June, 1932, suggested that an appropriate Body to advise Their Lordships in regard to the approval of a particular gallery, museum or other non-scientific institution, might be the Standing Commission on Museums and Galleries, and that in the case of scientific institutions the Council of the Royal Society, might be invited to undertake the duty; and that in accordance with this suggestion of the Advisory Committee Their Lordships on the 14th July, 1932, caused letters to be addressed to the Standing Commission on Museums and Galleries and to the Council of the Royal Society inviting those Bodies to afford Their Lordships the benefit of their advice in regard to the particular Institutions which should be approved by the Treasury for the purposes of the above mentioned Order.

The Chancellor of the Exchequer informs the Board that the Standing Commission on Museums and Galleries and the Council of the Royal Society have respectively intimated their willingness to undertake the duty of advising the Treasury on this matter and have submitted preliminary lists of the Institutions which they recommend should now be approved by the Treasury.

The Chancellor of the Exchequer proposes to the Board that the following Institutions, being Institutions which the Standing Commission on Museums and Galleries and the Council of the Royal Society have recommended that the Treasury should approve for the purposes of the Import Duties (Exemptions) (No. 2) Order, 1932, be so approved.

Royal Society of London.  
 British Association for the Advancement of Science.  
 Entomological Society of London.  
 Geological Society of London.  
 Linnean Society of London.  
 Royal Anthropological Institute of Great Britain and Ireland.  
 Royal College of Surgeons of England.  
 Royal College of Physicians.  
 Royal Institution of Great Britain.  
 Royal Microscopical Society.  
 Royal Society of Tropical Medicine and Hygiene.  
 Zoological Society of London.  
 Royal Society of Edinburgh.
