Rome, August 9. N. S.

Cardinal Janssen had Audience of the Pope the 6th Instant, and presented to him the Abbot *Theſu*, who is appointed by the Dutchels of Orleans to be her Plenipotentiary for adjusting the Differences between the Elector Palatine and her Royal Highness, concerning her Pretensions to several Lands in the Palatinate, the final Decision of which is referred to the Pope, pursuant to the Treaty of *Ryſwick*. The Pope has appointed Cardinal *Tamara* to be Legate of *Urbino*, and has named Cardinal *Archinto*, who is now at his Archbishoprick of *Milan*, to go to *Turin*, to make a Compliment in his Name to the new Queen of *Spain*. The Princeſs of *Urſini*, who is to accompany her Catholick Majesty in her Journey to *Spain*, is on her departure from hence to *Turin*. The Pope has given Orders for enlarging the Hospital of *St. Francis* at *Ripa*, founded by Pope *Innocent XII* his Predecessor. Letters from *Naples* say, the Affairs of that Kingdom are in great disorder, and that the Emperor's Party gains ground every day.

Dantzick, August 20. The last Advices from *Cowland* say, the Swedish Army was encamped near *Baufeben*. The Saxon Forces are marching back to *Saxony* by the way of *Prussia*, and the Muscovite Auxiliaries are returning home, so that the King of *Sweden* is entirely Master of all *Cowland*. He has demanded a considerable Sum of Money, and a great quantity of Provisions, of the States of that Country, which they have consented to furnish him, upon the hopes he has given them, that he will see them reimbursed upon the Conclusion of the Peace. The *Dinamunder* Fort held out still; but the same being so closely blocked up by a Body of Swedish Forces, that no Provisions can be carried into it, and the Garrison having no hopes of any Relief, 'twas not doubted but they would soon be obliged to surrender, upon such Conditions as the Swedes should be willing to grant them, who will thereby become Masters of the King of *Poland's* great Train of Artillery, consisting of 90 Pieces of Cannon, which is laid up in that Place. The Swedes are fortifying *Mitaw*, and several other Places in *Cowland*. Letters from *Warsaw* say, the Senate met there the 4th Instant, and resolved to send one of their Body to the King of *Sweden*, to desire, that he would not suffer his Forces to enter into the Territories of the Republick of *Poland*, which had no part in the Differences between him and the King of *Poland*. They write from *Vienna*, that the

Principal Nobility of *Lithuania* (who are met there to endeavour to accommodate the Differences between the House of *Sapieba* and the Confederated Nobility of that Dutchy) have writ a Letter to the King of *Sweden* to the same effect.

Vienna, August 17. Orders are given for sending a Reinforcement of 6000 Men from *Hungary* to the Imperial Army in *Italy*; and 'tis said the Danish Forces now in *Saxony* which have been lately put into the Emperor's Service, are to be sent to *Hungary* in their room; A Draught of 2000 Men is also ordered to be made out of the Imperial Garrisons at *Friburgh*, *Brisac*, and the other Places on the *Rhine*, to be sent to *Italy*, whose Place will be supplied by the like number of the Bishop of *Wurtzburgh's* Forces, which are to be taken into the Emperor's Pay, in pursuance of the Treaty lately concluded with that Bishop.

From the French Camp at *Antegnato* between *Soncino* and *Ponte Oglio*, Aug 23. The 12th Instant the Army continued at *Scandolera* to refresh the Troops, who were extremely fatigued with their difficult Marches, the Country being full of Hedges and Ditches, and of Fields sowed with Rice, and overflowed with Water. The 13th we continued our March along the *Oglio*, and came to *Rebecca*, the 14th to *Bardolano*, and the 15th to *Campagna*, a short League from *Soncino*. The Marquis of *Vauccourt*, Lieutenant-Colonel, who was detached the 13th with 250 French Horse, and 60 of the Duke of *Savoys* Horse-Guards, to view the Fords of the River *Oglio* as far as *Soncino*, rejoined the Army this day, and gave an Account, that he had viewed the River 3 miles above *Soncino*, advancing within the like distance of *Ponte Oglio*, at which Place, and at *Palazzuolo*, he heard there was a Body of 2500 German Horse commanded by General *Palfi*; and that he only met with a Party of 60 German Horse, who, the 14th at night, attacked a French Lieutenant with 12 Troopers, who were marching before to get Intelligence; But these being supported by the Duke of *Savoys* Guards, and by a French Troop of Dragoons, the Germans retired. The 16th the Army marched to *Romanengo*, and continued there the next day, to expect the coming up of the Troops which Count *Tesse* was bringing to the Army, and who were advanced to *Vaver* near *Crema*. The 18th the Sieur de *Courlandon* was sent out with a Party of Horse to get Intelligence of the Enemy, who brought an Account the next day, that their Army was come a League on this side *Brescia*, and was encamped near *Casali*, *Torbolo*, and *Roncadella*, in which last Place Prince *Eugene* has his head Quarters, and
