Rome, Sept. 9. N. S.

THE Ecclesiastical State being free from the Excursions of those that are in Arms for the Emperor in the *Araxzo*, who are now better satisfied with the Pope's Conduct in regard to the Dispute about the Spanish Succession, Orders are sent to Signior *Falconi* to return home with the Forces under his Command, leaving a sufficient Guard for the Security of those Frontiers. This Court is extremely pleased with the Behaviour of the Imperial Ambassador, who being applied to in behalf of a Jewd Woman, whom the Serri and other Officers of Justice were looking after in his Neighbourhood, refused to give her his Protection, saying in this case the Pretension so much insisted on by all foreign Ministers to the Freedom of their Quarters Letters from *Naples* of the 6th Instant give an Account, that the People there grew so uneasy at the Continuance of 6 *Francis* Gallies in that Port, that the Government was forced to make Applications for an Order from the French Court for their departure from thence, and that they are accordingly gone for *Madrid*: That the inhabitants of *Naples* are frequently in Variance with the French Soldiers in Garrison there, and that they had lately a Dispute, which proceeded so far, that coming to Blows, many were killed on both sides. Their Letters are full of Complaints of the Scarcity of Money and the Decay of their Trade, which will find little Advantage by an Order that has been lately published there, for all the Subjects of *England* and *Holland* to depart in 12 days out of the City of *Naples*, and in 20 days out of that Kingdom.

From the Imperial Camp near *Luzzara*, Sept. 10. N. S. The 4th Instant, Two of our Parties came home, who in several Encounters with the French had killed about 40 of them, and brought home a Lieutenant and 9 Soldiers Prisoners, and 38 Horses: On the 5th a Captain of Dragoons and a Trooper were killed. We began this day the Exchange of Prisoners, and the Exchange of the Cartel lately concluded. The 6th, we heard great noise at *Guastalla*, the French pressing the Siege with great vigour. We foraged towards *Reggio* with a Guard of 200 Horses, and advancing too far that Place, the French Garrison there fired upon us, and did us no other damage than the wounding of 20 Horses. In the evening the Enemy sent home 560 Prisoners they had taken from us. The 6th, we received an Account, that 4 Companies of Foot were sent to be added to the Regiment of *Ringsvare* which arrived at *Ostiglia*. The firing continued at *Guastalla*, and some Officers assured us, that above 100 Horses were killed and wounded that night by the Shot from the Garrison, notwithstanding the great Precaution they had used to preserve their Men, having opened Batteries before a Town that had neither Dutch nor English to defend it. The two Armies continue to fight, and then to fire at one another with their Cannon. The 7th, we foraged again on the side of *Reggio*, with only 4 Horses. We received an Account, that the Troops of *Wolfenbuttel*, to the number of about 1500 Men, were arrived at *Benedetto*, where they would stay a day or two. The 8th, a Party which was sent from hence over the *Mincio*, met betwixt *Gorso* and *Verona* 18 Wagons laden with Powder and other Ammunition under a Guard of 40 Men; Our Men attacked, and killed them all, 5, whom they brought Prisoners to us; but not being able to bring away the Wagons, they fled, they blew up the Powder, and destroyed the rest of the Ammunition. The 9th, we foraged with a Guard of 200 Horses without any interruption. Some of our Parties killed several of the Enemy, and took some Horses and Mules, and destroyed several Wagons which were going with Provisions to the French Camp. This evening 2:1 exchanged Prisoners in our Camp, being the same which they had taken from us in the Action at *Santa Vittoria*. We received an Account, that *Guastalla* had begun to capitulate that day; and we cannot but wonder that *Maximilian* could defend a Place for 11 days, though the French had neither the Fortifications, Provisions

or Ammunition, that were necessary to sustain a Siege. The 10th, we had a Confirmation of the taking of *Guastalla* by the French, and that it had surrendered upon Capitulation. Our Left Wing foraged with a Guard of Horses without any Loss. One of our Parties attacked the Enemy's advanced Guards, killed 30 of them, and brought in 2 Prisoners, and 41 Horses and Oxen. Our Army still continues encamped in the Field of *Battel* near *Luzzara*, as the French do in the same Camp, to which they retired after our late Victory there.

Warsaw, Sept. 16. The Deputies of the several Parliaments of the *Greater Poland*, who were met at *Semolow*, are separated without coming to any Resolution, some being for a Confederation, and others for a Diet on Horseback; and both Parties have sent Deputies hither to lay the Reasons of their Proceedings before the King of *Poland*. The Cardinal Primate arrived here last night from *Radziowicz*, and had this day a long Conference with the King. The French Envoy is forbid the Court, upon a Discovery that he was obstructing the Differences between this Court and that of *Sweden*. We hear the Army of the Crown has passed the *Weissel* near *Baranow*, to the number of 12000 Men, with intent to march towards *Cracow* in 4 Bodies, and to endeavour to cut off the Provisions from the *Swedish* Army, which continues in and about that Place. The *Saxon* Army is partly quartered at *Praag*, not far from hence, and partly encamped on the other side of the *Weissel*, about a League off.

Vienna, Sept. 20. The Imperial Officers continue to raise Recruits in these Parts with very good Success for our Army in *Italy*. Orders are dispatched to *Croatia* for 6000 Men to be sent to the Emperor's Sea-port Towns on the *Adriatic* Sea, where several Frigates are to be fitted out, to convey the Ships that are sent from thence with Provisions and Men for the Army in *Italy*. *Te Deum* is ordered to be sung to morrow in all our Churches for the taking of *Laudau*.

Ratisbonne, Sept. 25. The Declaration of War against *France* and *Spain*, and their Adherents, having been proposed in the Imperial Diet, all the Votes were given for it except those of the Ministers of *Bavaria* and *Cologne*: On the 19th, the Directors of the several Colleges drew up the Resolutions in form, which they call *Conclusions*, which were read on the 20th; and when the Minister of *Saltsbourg*, as Director, read his in the College of Princes, there arose some Dispute among the Members about the wording of it, which being referred to the Imperial Commissioners, the Matter was soon adjusted. Yesterday Cardinal *Lamberg*, the Emperor's First Commissioner, received an express from *Vienna*, with the Emperor's Approbation of the *Conclusions* of the Three Colleges of the Empire drawn up some days ago, upon the Occasion of the Elector of *Bavaria's* seizing of *Ulm*; to whom the Emperor has writ a Letter, to admonish him to return to his Interest, and that of the Empire; and his Imperial Majesty has sent another to the Confederate Circles, to encourage them in their Alliance, and advise them to concert their Measures with the King of the *Romans*. We have had several groundless Reports of the Elector of *Bavaria's* Motions since his seizing of *Ulm*; but we are well assured, that he is still at *Oeffingen*, within two Leagues of that Place; and a Trumpeter who was sent to him with a Message from Cardinal *Lamberg*, and is since returned, reports, that he had ordered his forces back towards *Munich*. Several Letters from Monsieur *Chamilly* have been intercepted, whereby and by the Confession of a Colonel, who being dispatched by the Elector to the Marshal *de Carinac*, was seized at *Rainfeld*, his Designs have in a great measure been discovered.

Frankfort, Sept. 27. The Imperial Army continues at *Croonweissenburg*. The Forces of the Circles of *Swabia* and *Franconia*, with 3 Imperial Regiments of Horses and Dragoons, and two of *Hulizars*, have been detached

from thence towards *Offenbourg*, where they are to be joined by the Forces which the Margrave of *Baden Dourlach* had drawn together for the better Security of that Country during the Siege of *Landau*, and then they are to march towards *Ulm*, to make head against the Elector of *Bavaria*. The French Army commanded by the Marshal de *Catinat* is intrenching under the Cannon of *Strasbourg*. The King and Queen of the *Romans* are on their departure for *Vienne*; but the King will leave his Equipage at *Heidelberg*, intending to return into these Parts early the next Campaign. The Elector of *Mentz* is gone thither to make them a Visit.

From the Camp of the Allies at *Soutendael*, October 2. Our Batteries began to play upon *Stevenswaert* on Saturday, and continued firing without intermission till about 10 last night, when the Belieged having abandoned the Counter-scarp, and our Men being ready to mount the Breach, they bear a Parley, and desired to Capitulate; whereupon the Hostages being exchanged, the Articles of Capitulation were this day agreed upon, and the Garrison, consisting of about 400 Men, are to be conducted to *Namur*. We found in the Town near 300 Barrels of Powder, with all manner of Stores in proportion, and great quantities of Provisions; We have not lost one Officer, and not above 5 or 6 private Men, in the taking of the Place: Of the Enemy we reckon 50 killed, besides the wounded. We expect every day to hear that the Batteries are finish'd before *Ruremunde*, and do not question to be Masters of the Place in 4 or 5 days after they begin to fire. Monsieur *Dopff* is gone to *Landau*, to confer with the King of the *Romans* and Prince *Lewis* of *Baden* about the Security of the Upper *Rhine*, and the Measures to be taken to put a stop to the farther Designs of the Elector of *Bavaria*.

Paris, Sept. 30. Letters from Italy of the 15th Instant say, the French and the Imperial Armies were still in the same Camps, and that ours suffered very much by Sickness, that Country being very unhealthy at this Season. The Chevalier de *Fourbin* continued to cruize in the *Adriatick* Gulph with the French Squadron under his Command.

Hague, October 3. N. S. This day we received an Account of the Surrender of *Stevenswaert* upon the following Articles:

That the Garrison should march out of the Place with Arms and Baggage, Drums beating, Colours flying, &c. That two Pieces of Cannon 12 Pounders should be allowed them; and 42 Wagons, whereof 12 to be covered, for their Sick and Wounded; and for their Baggage: That they should be conducted by the shortest way in 5 days to *Namur*: That the Town should not be Plundered, nor the Inhabitants disturbed in the Exercise of their Religion; but if any of them was desirous to retire, 6 weeks time should be allowed him to do it in: That the Garrison should march out the 3d Instant, at 8 in the morning: That the Wounded who are not in a Condition to march, might remain in the Hospital, with a Chirurgion to look after them: That the Ammunition, Stores, Artillery and Arms, in the Magazine, should be delivered up to the Commissioners who should be sent the next day into the Town for that purpose; to whom the Mines should be faithfully discovered: And lastly, That the Ravelins before the Gate should be delivered up to our Troops that night, and one of the Gates the next morning at 6 of the Clock. Dated October 2. N. S. at 2 of the Clock in the morning.

The French seem to have a Design to quit *Liege*, and the People are in Apprehension of being Plundered by them before they go. The States are sitting out several Men of War; but upon what Design is kept very secret. The Convoy from *England* that brought over Mr. *Aylmer*, Her Majesty's Envoy Extraordinary to the *Swiss* Cantons, is arrived, and he speaks of going from hence to morrow on his Journey thither. Sir *David Mitchell*, the Wind continuing contrary, is come back hither from the *Brill*. They write from *Switzerland*, that 500 Men of the Canton of *Bern* were marched with Artillery, &c. to oppose the Designs of the Elector of *Bavaria*, having already killed 2 or 300 of his Men in the *Black Forest*; and that 5000 Men more of the Protestant and Catholic Cantons were following those before-mentioned, in order to form a Body of an Army.

Portsmouth, Sept. 25. Yesterday the Rt. Hon. the Lord Marquis of *Carmarthen* had the White Flag hoisted on the Fore-top Mast of Her Majesty's Ship the *Royal William*, lying in our Harbour. The *Hampton Court*, and 7 more of Her Majesty's Ships, with about 100 Sail of Coasters, Victuallers, Storeships, &c. came yesterday from the *Downes*, and joined Her Majesty's Ships at *Spithead* under the Command of Sir *Cloudesly Shovel*.
