Bath, Octob. 10.

ON Thursday last Her Majesty, with his Royal Highness, after 6 weeks stay, left this Place about 9 in the morning, being attended by the Mayor, one of our Representatives in Parliament, the Aldermen, and Common Council, to the North Gate, from whence the Sheriff and his Men waited on Her Majesty to the Confiners of Somersetshire: The Corporation having some time before presented Her Majesty with a Silver Gilt Cup, with a Cover and Salver, all in a rich Case of Crimson Velvet lined with Gold, and having waited every Sunday on Her Majesty to Church in their Formalities, did now in a most Solemn manner express their Duty to Her Majesty, wishing Her Majesty and his Royal Highness a happy Journey: After which the Corporation was invited by our Mayor to his House, where they drank Her Majesty's and his Royal Highness's Health, who seemed well pleased with their Reception in this City, and with the Bath Waters, as continuing very much to their Healths, of which we hope for a long Continuance.

St. James's, Octob. 13. The following Address was presented to Her Majesty by Colonel Blakiston, Governor of Maryland.

To the QUEEN'S most Excellent Majesty.

The humble Address of Your Majesty's most Dutiful and Loyal Subjects, the Council and Delegates of the Assembly of Your Majesty's Province of Maryland.

SAD and Dismal was the News of the Death of our late Gracious Sovereign Lord William III. of ever blessed Memory; whose Royal Virtues, and Heroick Achievements, in restoring and establishing the Reformed Religion, and maintaining the just Liberty of his Subjects, and rendering his Person most dear, and his Memory most fragrant, to all his loving Subjects, and particularly to us, who had always our just Proportion of his Royal Care and Bounty: We have lost a good and great King, who amongst his Subjects was an eminent Example of good Life, a Discouragement of Immorality, and an Encourager of Virtue and sober Conversation, and abroad was the Terror of his and the Nation's Enemies, and Support of his Allies; whose Departure out of this Life, we, with the rest of Your Majesty's Subjects, most unfeignedly Lament and Condole: But yet, notwithstanding this sad Circumstance, to which Almighty God (whose Heavenly Will be done) in his good Providence has reduced us; we find our selves not a little comforted when we behold Your Majesty, whom we acknowledge our true and Rightful Sovereign Queen and Liege Lady, succeeding our first late Sovereign, not only in his Dignity and Dominion, but in all his Virtuous, Pious and Gracious Inclinations and Dispositions, to Protect Religion and Liberties, according to our known and established Laws, and so steadily, without Interruption, to prosecute the same Alliances and Royal Designs; in which we pray God Almighty to prosper Your Majesty, and bless You with long Life and an happy Reign.

We acknowledge our Happiness under the immediate Government of Your Majesty's Crown, and the Establishment of Religion among us; and herein we are obliged in Gratitude to declare the Care, Integrity, and Justice of our present Governor Nathaniel Blakiston Esq; by whose Example and Encouragement, Religion has been advanced among us; and by whose Justice and Conduct, we have enjoyed all that free Subjects can reasonably desire or hope for; and for whose leaving us, (because he has not his Health) we are heartily sorry, and entirely depend on Your Majesty's Wisdom and Goodness to supply us in that particular. And we beseech Your Majesty to continue this Your Majesty's ancient Province in Your Royal Care and Consideration, assuring You Majesty of the sincere and good Affections of the Inhabitants thereof, from whom Your Majesty may expect all that cheerful Obedience which Love and Duty command; from Your Majesty's most Dutiful and Loyal Subjects.

Which Address Her Majesty received very graciously.

Ratisbonne, Oct. 9. N.S. The Elector of Bavaria having made himself Master of Memmingen by a Capitulations the chief Conditions whereof are, That the Burghers should be disarmed, but not molested in their Possessions, Liberties, or Religion, or over-burthened with quartering of Soldiers, or obliged to defend the Town in case of an Attack; he ordered that a Garrison of 2000 Men should be put into that Place, which accordingly took possession of it the 2d Instant. He has since possessed himself of Kempten, another Imperial Town, and his Troops are also entered into Biberach: And by Letters from Munich of the 6th we understand, that he designed to attack Kauff-Bayern, an Imperial Town on the River Wertach, and that not being in a condition to seize Augsburg, he had prevailed with that City to enter into a Treaty, whereby they have engaged not to admit any Foreign Garrison. It is said, he will also endeavour to take Nördlingen, an Imperial Town about 6 Miles distant from Donauwertsh; And he has summoned 4000 Pioneers in his Country, who are to make a Line from Ingolstadt to Neumark, to cover the Bavarian Palatinate. The Detachment which was lately made from the Imperial Army to oppose his Designs, consisting of 53 squadrons of Horse, and 22 Battalions of Foot, having with them 23 Pieces of Cannon, came the 3d Instant to Wilingen, a small Town near the heads of the Rivers Neckar and Danube, where a considerable Magazine of Meal, Oats, and Hay had been prepared for them by the States of the Upper Suabia, and as we suppose they are now continuing their March, in order to pass the Danube near Dillingen; but we have no fresher Accounts of their Motions than these of the 3d, our Letters, as we imagine, having been intercepted. The Imperial Hussars have already had several Encounters with the Bavarian Forces with good Success, and 1700 of them are now marching by the way of Hall in Suabia, to oppose their making the Line above mentioned between Ingolstadt and Neumark. Letters from Keibl of the 2d day, the Germans had taken several Redoubts on the Rhine, between Fort Louis and Strasbourg, and had made a Bridge of Boats over that River near Stollhoffen; that a Detachment of 10000 of their Men was marched towards Schelestadt, and that the rest of their Army would draw near to Strasbourg. Letters from Italy of the 26th past left the Imperial and the French Armies in their old Posts, but the latter seemed to prepare for decamping. Adjutant-General Davia had advanced as far as Pavia with 500 Horse, and had obliged that Town to pay him 2000 Pistoles by way of Contribution: There are Letters from several Places that day, 69 of his Hussars came as far as Milan, and having driven the Guard which was at the Roman Gate from their Post, entered the Town, and rode through several Streets crying out, Long live the Emperor, and then retired without doing any harm, or meeting with any opposition; As they came out they cut down the Duke of Anjou's Arms, which were set up over that Gate.

Francfort, Octob. 12. The Marshal de Catinat, who continued some days near Strasbourg, with intent to cause his Troops to file off in small numbers towards Memmingen, in order to surprize our Forces at Friedlingen, over against that Place, finding that his Design was discovered, and that this Body had been reinforced by several Detachments from the Imperial Army, he decamped very suddenly some days ago, and marched with his small Army towards Hunningen. Our Letters from thence give an Account, that the Marquis de Villars being arrived there with the Detachment of French Forces under his Command, endeavoured several times to take Post in an Island of the Rhine, over-against that Place, (where the French had formerly some Fortifications, which were demolished in pursuance of the Treaty of Ryswick) but having been constantly repulsed, he sent on the 2d Instant, in the night, a great number of Men in Boats over the Rhine, who landed before they were discovered, but our Forces soon obliged them to get into their Boats again, however the Enemy remained Masters of the Island, and returning in their Boats in greater numbers, took Post on this side of the

Rhine.

Her Majesty left Bath on came that evening to Majesty was received by on in their Formalities, Her by the Town, and the Honour to lie at entertained Her Majesty Majesty came from thence reading, where Her Majesty by the Mayor and alities, and had also a tion; and Her Majesty hither this evening.

sole their landing, from whence they were repulsed with considerable Loss, one of their Colonels of Foot being killed, whose Regiment and that of *Champaign* were entirely ruined in these Attacks, and Prince *Lewis* of *Baden* being near at hand with a considerable Body of Imperial Troops, will, we hope, give such powerful Assistance to our Forces at *Strasbourg*, that they may be able to force the *French* to repass the *Rhine*. General *Dont* parted by this Place 2 days ago, in his way to *Heldelberg*, whither he went to confer with the King of the *Romans*, who has since left that Town, and will be to-morrow at *Aspern*, where the Elector of *Munich* designs to entertain him; and his Majesty will continue his Journey from thence to *Vienna*.

From the Camp of the Allies before Liege, October 15. The 15th Instant, about midnight, we decamped from *Strasburgh*. The 15th, by break of day, we had passed the River *Jour* or *Jeker*, and we marched on to this Place, where we arrived by 3 in the afternoon. The Evening being alarm'd with our March, had decamp'd early that morning from *Zingst*, with such Precipitation, that they left behind them the Tools where with they were fortifying that Place, and they march'd 5 Leagues to *Orp le Grand*, between *Hainoy* and *London*. Upon our coming thither, we found the Suburb of *St. Willibrord*, which is next to the Citadel, all in Flames, the *French* Garrison, consisting of 12 Battalions, having set it on fire; after which 8 Battalions of them retired into the Citadel, and the other 4 into the Chartrouffe. The same evening the Chapter and the Magistracy sent our Deputies to his Excellency the Earl of *Manchester*, desiring to treat; and the 14th, three of the Chapter of *Liege*, and as many of the Magistracy, came out, and the Articles being agreed upon, and signed by his Excellency, the Deputies of the States General, and those of the Chapter and Magistracy, a Detachment of our Troops took possession that night of one of the City Gates, as we did yesterday of the whole Town, three *English* and three *Dutch* Battalions of Foot marching in to it under the Command of the Lord *Cutts*. Our Artillery came up to the *Muse* yesterday morning, and our Troops are all employ'd in cutting Fascines, and making other Preparations for the Attack of the Citadel, which we hope we shall be ready to begin by to-morrow night. His Excellency has received a Letter from the Margrave *Albert of Brandenburg*, who commands the King of *Prussia's* Forces; It is dated from his Camp at *Ejers* the 12th Instant, and gives an Account, that having been joined by the other Detachments from *Ruremonde*, he march'd towards Count *Tallard*, who upon his Approach retir'd to *Bon*, where having changed the Garrison, by taking out the Elector of *Cologne's* Troops, and putting in a like number of *French*, he had continued his March together with the Elector, with intent to join the *Marshal de Boufflers*. The Margrave adds, that his Troops being tired with continual Marches, he design'd to rest the next day, and on the 14th to march to *Bon*, in order to bombard that Place.

Paris, Octob. 15. Letters from the French Army in Italy of the 3d Instant say, both they and the Imperial Army continued in the same Posts; and that the King of *Spain* came away from the French Camp the 2d, intending to lie that night at *Cremona*, the 3d at *Lodi*, and the 4th at *Milan*. We have received the Confirmation of the Arrival of the Plate Fleet into the Port of *Vigo* the 22d last, under Convoy of 23 French Men of War commanded by the Count de *Chateaufort*; Two Ships belonging to the said Fleet, which were separated from them in bad Weather, are put into *St. Andre*, on the Coast of *Biscay*, under Convoy of 3 other French Men of War. Letters from the Marquis of *Villars's* Camp near *Huningen* of the 5th Instant say, that finding it impracticable to join the Elector of *Bavaria*, he was resolv'd to march back again towards *Strasbourg*, and to rejoin the *Marshal de Catinar*, in order to oppose the *Imperialists*, who seem'd to have a Design of bombarding *Strasbourg* or *Fort Louis*.

Hague, Octob. 17. N. S. According to our last Accounts from the Army of the Allies before *Liege*, they were preparing to attack the Citadel of that Place, and the Chartrouffe, of which we hope they will make themselves Masters in very few days. It is discouf'd here, that the Forces of the Allies will besiege *Rhinberg*, if the Weather continues fair. The States have order'd a Squadron of Men of War to be fitted out, which is almost ready to put to Sea, but it is not said upon what Design. The Earl of *Winchelsea* arriv'd here the 14th Instant from *England*, in his way to the Court of *Hanover*, whither he is going with a Compliment from Her Majesty of Great Britain. The several Provinces have given their Consent to the making of the Earl of *Arbuthnot* Velt-Marshal-General of their Forces, which Choice will be declar'd in few days.

Dublin, Octob. 6. On Sunday the 27th past, the Right Reverend Father in God, *William Lord Bishop of Kilmore* did consecrate in the French Tongue the French Church of *Port-Arlington* in the Queen's County. The Deed of Consecration was signed by most of the Offi-

cers of that Place; the whole Congregation was present at the Divine Service, and Sermon; Many receiv'd the Communion at the Bishop's Hands, especially *Mr. Daillon*, the French Minister there. In the afternoon, *Mr. Daillon* and the Congregation attend'd the Evening Service; and the whole Colony made it their earnest Request to his Lordship, in which *Mr. Daillon* himself joined, That his Lordship would be pleas'd to give them for their Minister the *Rev. Mr. Anthony Boneval*, a French Minister, who is Episcopally ordain'd, and thoroughly conformable; and his Lordship granted them their Petition.

Falmouth, Octob. 10. Her Majesty's Ships the *Delphin* and *Hartings* Frigate sail'd from hence the 8th Instant with about 50 Sail of Merchant Ships bound to *Wales*, *Brittany*, &c. Yesterday was sent into this Harbour a French Prize of about 220 Tuns and 15 Guns, from the West Indies, laden with Sugar, Indigo, &c. and is said to have a considerable quantity of Plate on board, which was taken by a Dutch Cutter, after a Fight of 7 or 8 hours. This morning was brought in by a Fishing Privateer another French Ship of about 100 Tuns, laden with Sugar, &c. from the West Indies, and another Dutch Privateer of 18 Guns, sent in a French Privateer of 6 Guns and 50 Men, which he had taken, that belonged to *Burk*, and came out from thence to cruise but 4 days before. Our Tin Ships, and several Merchant Ships from *Virginia* and *Portugal*, bound to *London*, are now under Sail, under Convoy of Her Majesty's Ship the *Bedford Galley*.

Kingsington, Octob. 12. Her Majesty and his Royal Highness Prince *George of Denmark* came hither this day from *Windsor*.

London, Octob. 13. This day the Lord Mayor and Aldermen of this City waited upon Her Majesty at *St. James's*, to Congratulate Her Majesty's good Health, and late Return from the Bath, which the Recorder did in a most Loyal speech; and invited Her Majesty to honour the City with Her Royal Presence at Dinner on the Lord Mayor's Day; Her Majesty received them very graciously, and was pleas'd to accept this Invitation: After which they waited upon his Royal Highness Prince *George of Denmark*, and made the like Compliments to him, and his Royal Highness was likewise pleas'd to accept of the same Invitation.
