MERSEY CONSERVANCY ACT.

*Mersey Conservancy,
Ministry of Transport,
Berkeley Square House,
Berkeley Square,
London, W.1.*

19th February, 1949.

I hereby give notice, pursuant to the 9th Section of the Act 5 and 6 Victoria, Cap. 110, intitled "An Act for better preserving the Navigation of the River Mersey" that I have received a Notice from the Mersey Docks and Harbour Board with reference to the proposed construction of certain works in connection with a new River Entrance Lock into the Langton Dock, Bootle.

A copy of the Notice is subjoined.

J. A. Edgell,
Vice-Admiral,
Acting Conservator of the Mersey.

To Vice-Admiral Sir John A. Edgell, K.B.E., C.B., F.R.S., Acting Conservator of the Mersey.

The Mersey Docks and Harbour Board hereby give notice of a proposal by them to carry out the undermentioned Work or Works under their powers contained in the Mersey Docks and Harbour Board Act, 1945, with the consent of the Lords of the Admiralty as provided for in Section 357 of the Mersey Dock Acts Consolidation Act, 1858:—

Construct in the County Palatine of Lancaster, partly in the city of Liverpool and partly in the county borough of Bootle, an entrance lock from the River Mersey to the Langton Dock, partly inside the present River Wall, partly in Canada Basin and partly outside the present River Wall on the bed above or foreshore of the River and in the lines or situations and according to the levels shown upon the plan and sections.

The permanent works to be constructed on the bed shore or foreshore and in the tidal waters of the River are as follows:—

A river wall abreast of Canada Dock,
A pierhead abreast of Canada Basin, and
Part of the sides and floor of the lock.

The total length of the permanent works, measured in a straight line in a Northwardly direction from a point abreast the Southern end of Canada Dock, is approximately two thousand five hundred linear feet, and the maximum projection into the River, measured at right angles to the present River Wall, is approximately one hundred and twenty linear feet.

The whole of the permanent work is to be of solid construction in concrete or masonry and is to include lock-caissons and machinery, culverts, sluices and other equipment.

The temporary works to be constructed on the bed shore or foreshore include an embankment abreast of Canada Basin.

The total length of this work, measured in a straight line in a Northwardly direction, is approximately one thousand linear feet and the maximum projection into the River, measured at right angles to the present River Wall, is approximately four hundred and fifty linear feet.

This embankment will be removed as soon as the state of progress of the permanent works permits.

Existing structures on the bed shore or fore-shore of the River to be demolished are the sluices and timber jetties of open construction contiguous with the North and South Pierheads of Canada Basin.

The principal object of the works is to provide improved facilities for the docking and undocking of deep draughted vessels at the North Docks as the present Canada and Langton Entrances completed in 1858 and 1881 respectively are not suitable for the modern larger type of vessels.

It is not proposed to commence the works until the expiration of two months from this date.

Plans and Sections of the proposed works have been deposited at the Mersey Conservancy Office, Ministry of Transport, Berkeley Square House, Berkeley Square, London, W.1, and with the Hydrographer to the Admiralty, London, S.W.

Dated this 14th day of February, 1949.

R. J. Hodges,

General Manager and Secretary,
for and on behalf of the Mersey Docks and
Harbour Board.

Dock Office, Liverpool.
