The French Forces which were quartered about Sabern are removed nearer to Strasbaurg; They have quitted Reisch. ffen, a fmall Town, whereof they had possessed themselves, not far from Haguenen; But they still keep strong Garisons in this last Place, and at Bisweiler, for the better Security of their Winter Quarters.

Hamburgh, Dec. 15. N. S. The Count de Guldenlew, who has the chief Command of the Danish Forces which are employed in the Emperor's Service in Italy, arrived here from thence yesterday, in his way to Copenhagn. We hear Mon-fieur Du Heron, the French Envoy, is brought with a Guard from Thoorn to Koningstein, to be conveyed from thence to the Frontiers of the French King's Dominions, where he will be fet at liberty. The King of Poland has appointed the Baron of Schrylenberg to command the Troops which he has lately put into the Emperor's Service; to whom, as it is reported, he offers two Regiments more. They write from Theorn, That the Cardinal Primate was shortly expected in that Place, where his Presence would be very necessary in the Great Council of the Polish Nobility which is assembled there, to consider of the present Posture of their Affairs, and of the best Means to restore the Passer in Peace in those Parts; And that the Weywode of Massovia, who is the first of the Deputies appointed to attend the King of Sweden in the Name of the Republick, with Offers of their Mediation, and several Deputies from the Lesse-Mediation, and feveral Deputies from the Leffe-Poland, were also coming to Theory, in order to affift at that Assembly.
