Given at Our Court at St. James's the Eighteenth Day of February, 1792. and in the First Year of Our Reign.

GOD Save the QUEEN.

Wurzburg, Feb. 10. N.S. Yesterday a Detachment of 1200 Swedish Foot arrived here, who immediately took Possession of the Castle and the Cares of this City, and demand of our Burghers a weekly Contribution of 2400 Florins for their Subsistence. We have an Account, That the Forces of the Crown, which for some time have been divided into several Factions, are at length, by the Care of the two Crown Generals, brought to unite in a Confederacy never to abandon their lawful King Augustus the Second, but to venture their Lives and Fortunes for the Preservation of his Person, and of their Liberty and Religion; and it is believed the greatest part of the Republick will concur with them in this Resolution, and that this may promote a Peace in these Parts, which seems to be equally desired both by the Subjects of Sweden and those of Poland, who severely feel the deplorable Consequences of having their Countries the Seat of War.

Thorn, Feb. 15. The King of Poland is now at Marienburg; It is said he intends to go from thence into Lithuania, whither most of his Saxon Forces are marching, in order to join the Troops of that Dutchy, which have declared for him. The Detachment of Swe-

dish Forces commanded by General Munnich is advanced within 8 Leagues of this Place; In their March they surpris'd and took Prisoners the Waywode of Culmburg Troop of Cuirassiers. General Strum is gone from hence to Saxony, to raise a Regiment of Foot for the King's Service. Letters from Warsaw say, That of divers Senators summoned there by the Cardinal Primate, in order to the holding of a Senate, none came but the Bishop of Culmburg; and that the Waywode of Polackia, who had promised to be there, had since altered his Resolution.

Copenhagen, February 20. The King of Denmark has lately made a Draught out of his Militia, and formed it into a Regiment of Granadiers, which he reviewed on the 14th Instant, together with his Battalion of Foot-Guards. The Duke of Mecklenburg-Schwerin, with Prince Christian his Brother, came hither last week, but the Duke has not yet appeared in any publick Ceremony, by reason of some Dispute he has about Precedency with the Princes of the Blood. Three Dutch Men of War arrived some days since in the Sound, with a Fleet of Merchant Ships under their Convoy. It is reported, That the Muscovites have lately posses'd themselves of Jamburg, on the Borders of Finland.

Vienna, Feb. 14. The Emperor's Ministers have frequent Meetings, to consult how the Army in Italy may be recruited and augmented, as well as how to carry on more effectually the Attacks against the Elector of Bavaria. A Courier arrived three days ago from the Count de Stiriac, who brought an Account, That the Imperial Forces under his Command had been joined by those of the Circle of Franconia, and by some other Troops, and that he was marching with them towards the Country of Bavaria. We have since received Advice of General Schlick's Arrival at Linz, on the 11th Instant, where he was drawing together into a Body the Forces that are to attack Bavaria on that side, and much is expected from him, who of all the Emperor's Generals is look'd upon to have the greatest Knowledge of that Country: Count Solari is also making Preparations to attack it on the side of Tiro'l with another Body of Imperial Troops. We have received Advice, That the Marshal de Villars has pass'd the Rhine at Hunningen, with a Body of Horse and Foot, with intent to make a Diversion in favour of the Elector of Bavaria; and that Prince Lewis of Baden was assembling the Confederate Forces in those Parts to prevent his Designs, and expected a Reinforcement of 10 or 12000 Men from the Lower Rhine. They write from Constantinople, That the new Vizier is laid aside, whose turbulent Spirit gave some Uneasiness to this Court, as tearing he might at last be wrought upon by the Practices of the French Embassadors to engage his Master in a new War with the Empire, which would have suited with his Martial Inclinations. These Letters add, That the Grand Signior has appointed to be Vizier in his stead the Reis Effendi, or Secretary of State, who having been his first Ambassador and Plenipotentiary at the Treaty of Carlowitz, will in all probability look upon himself to be under the greater Obligation of seeing the Peace, in the making whereof he had so great a share, exactly observed.

Berlin, Feb. 20. The King of Prussia is still at Potsdam, and with him the Prince and Princess of Hesse Cassel, but they intend to go to-morrow to Oranienbourg, and to continue there a few days. The March between the Margrave of Brandenburg and the Dutchess Dowager of Courland is concluded; and their Marriage will be solemnized in a few days. Letters from Mermel of the 14th Instant say, the Muscovite Forces which are lately entered into Lithuania to join the Saxon and other Troops in that Country, are 6000 strong, and are advancing towards Poland. We have received a List of the Prisoners taken by the Muscovites on New-year's-day, when they surpris'd and burnt the Suburbs of Niz-

us, of which number there are 3 Colonels, 2 Majors, 13 Captains, 25 Lieutenants, 3 Cornets, 17 Ensigns, 1000 Soldiers, and a great number of other Persons of both Sexes.

Frankfort, Feb. 21. The Imperial Forces are every where in motion, in order to prevent the French from putting in execution any Designs they may have had in view when they passed the Rhine: Six Imperial Regiments which were quartered near *Rastad*, are marched towards *Nordlingen*, for the Security of that Place, which it was thought the Elector of *Bavaria* might attack: Six Regiments of the Elector Palatine's Forces are marched towards *Haguenau*, to give the French a Diversion; and it is said part of the Forces that lay before the Castle of *Trarbach* are to march into *Lorraine*, in order to make another Diversion on that side. This day we received Advice, That the French Forces commanded by the Marshal *de Villars* are set down before the Fort of *Kebl*.

Paris, Feb. 23. The French King is at present at *Marli*, but returns to-morrow to *Verfailles*: He has appointed a Review of his French and Swiss Guards to be made at *Marli* the 5th of the next Month; and the Draughts which are to be made out of them, in order to be sent to *Flanders*, will begin their March the 7th. All the Military Officers who had Leave to come home, are ordered to repair to their respective Commands by the 15th. It is said, that the *Sieur Julien*, who commands a Body of French Troops in *Languedoc*, had lately an Engagement with a Detachment of the Malecontents of the *Sevemes*, and that he obliged them to quit the Field, having killed 100, wounded about the same number, and taken 60 Prisoners. We have received Advice of the Marshal *de Montrevel's* Arrival at *Nismes*, who is to have the chief Command of the Forces that are to be employed in suppressing those People; and it is said that he has also been engaged with them, but the Particulars of this second Action are not yet made publick. A Courier came this week from the French Army in *Italy*, but brings no News, the Season being so bad, that it prevents all manner of Action between the Forces on both sides. By another Courier we have Advice of the Marshal *de Villars's* having passed the *Rhine*, with an Army of 20000 Men; and that he had invested the Fort of *Kebl* over-against *Strasbourg*. They write from *Madrid*, That they are making new Levies in that Kingdom, for the better Defence of their Coasts; but that these Forces are such, that little Dependence can be had on them. There are great Disputes at the Court of *Spain* between the Cardinal *d'Estrees* and the Spanish Grandees, who have underhand sollicitated this Court to recall him; but there is little likelihood that their Desire will be complied with.

Hague, Feb. 27. N. S. Most of the General Officers, who are sent for to assist at a Council of War, are arrived, and the rest are daily expected, except Monsieur *d'Arverquerque*, who, upon Advice that the Marshal *de Tallard* has got together 10000 Men near *Triers*, and seems to have a Design of relieving the Castle of *Trarbach*, is marched that way with 6000 Horse, in order to observe him, and will speedily be joined by our Infantry, which was quartered in the Countries of *Fuliers* and *Cologne*. The 15 Battalions which are ordered to the *Upper Rhine* are marching thither with all possible Diligence, and Directions are given for 5 more to follow them. These Troops are to guard the Lines near *Weissenbourg*, most of the Forces having been drawn out of them by Prince *Lewis of Baden*, in order to form an Army to make head against the French Forces commanded by the Marshal *de Villars*.

The Court of Directors of the Bank of England give Notice, That the Transfer-Books will be shut up on Saturday the 13th of March next, until Saturday the 10th of April next.

Whereas several of the Debentures upon the Forfeited Estates in Ireland, made out by the Earl of Roselagh on or before the last of September last, do remain still unissued; These are therefore to give notice, That the same will be (by his Lordship's Order) delivered out by Mr. William Cooper, on Wednesdays and Thursdays, from 9 in the morning

until one in the afternoon, at his Lodgings at the Pine-Apple in St. Martin's-street near Leiceſter-fields.
