*Marienburg, Octobr 26. N. S.*

**T**HE Nobility of the Palatinates of *Calm, Marienburg, and Pomerellen*, met at *Stuttgart* the 23d Instant, to consult what Measures to take for the Preservation of their Country, which lies wholly exposed to the *Swedish* Forces; and after some Debate they resolved to enter into the Confederacy or Association lately made by those of the *Greater Poland*, which they accordingly signed, and swore not to depart from it. Then they chose 4 Deputies, viz. the *Sieur Krapiski*, Castellan of *Elbing*, the *Sieur Kinsizcki*, Sword-bearer of *Prussia*, the *Sieur Karowski*, chief Ensign of *Marienburg*, and the *Sieur Pazuluki*, chief Ensign of *Pomerellen*, to attend the King of *Sweden*, with Assurances of their Devotion to his Service, with Directions to intercede in behalf of their own Country, and the Town of *Thorn*; after which they are to go to the Confederated Nobility of the *Greater Poland*, for the maintaining a good Correspondence between them and those of *Prussia*; and these Deputies are preparing for their Journey to the *Swedish* Camp.

*Warsaw, November 3.* The King of *Poland* has altered his Resolution of holding an Assembly of the Senate the 16th Instant at *Zamosk*, but has summoned them to meet the same day at *Jaworow*, and is already on his Journey thither; and accordingly the Senators, and several other Persons of Quality that are in Town, as also those who are at *Oesfolk*, where his Majesty has lately kept his Residence, are preparing to follow him. It is said his Majesty intends, after this Assembly is ended, to send Ambassadors to the King of *Denmark* and the Czar of *Muscovy*, to desire their Assistance against the *Swedes*, and to remove with his Court to *Cracow*. The Forces of the Crown are going into Winter Quarters; those of *Lithuania* continue in that Duchy. The King of *Sweden* is still at *Thorn* and, we hear, has obliged the Inhabitants to swear Allegiance to him: His Forces are as yet encamped near that Place; but upon a Report that a strong Detachment of them is to return this way. Orders have been given to break down the Bridge near this City over the River *Weissell*, and to make all the necessary Preparations for our Defence, in case their Design should be to attack us. The Palatine of *Posen*, and the Marshal chosen by the Confederated Nobility of the *Greater Poland*, to preside in their Assemblies, have lately dispatched an Express to the Cardinal Primate at *Lowitz*, whereby they acquaint him, That they had sent Deputies to the King of *Sweden*, in order to some Accommodation, and for preventing any further Hostilities; that these Deputies had obtained an Audience of his Majesty on the 16th of the last Month,

who received their Proposals so well, that he desired them to depute some of the chief among them for this Negotiation, and he would appoint Commissioners to treat with them. The Cardinal Primate, upon Receipt of this Advice, immediately sent away a Courier to the King of *Poland*, to acquaint him therewith; but it is said his Majesty has desired the Cardinal to use his Interest to break off any such Treaty.

*Copenhagen, Nov. 10.* The King of *Denmark* has lately issued a Commission to several Sea-Officers, whereof Admiral *Gedde* is the chief, to go into *Norway*, in order to lift 8000 Seamen, who are to be always in a readiness whenever the publick Occasions shall require their Service; which number, according to Computation, will be able at any time to man two Thirds of his Fleet. The Queen Mother returned hither the 7th Instant from *Nycepzig*. The Baron of *Lillienoor*, who has lain ill for some time at *Landskroon*, is pretty well recovered, and has left that Place, in order to continue his Journey to *Stockholm*, where it is said he is to have a great share in the Management of publick Affairs.

*Frankfort, Nov. 11.* The Count de *Nassau-Weilbourg* is encamped with a Body of Forces at *Muhlberg*, and the Count de *Vehlen* is with more Troops at *Frankendal*, from whence he has sent several Parties of Hussars, to make Excursions against the *French*, who have brought home several Prisoners, and many Horses. These two Bodies are to join with the Forces commanded by the Prince of *Hesse*, which are expected in a day or two at *Spire*, in order to attempt the Relief of *Landau*: This City has furnished 8 Pieces of Cannon, and a considerable quantity of Ammunition, towards that Service; and 200 Men marched out of our Garrison yesterday, with Orders to join the Prince of *Hesse's* Troops: The Count de *Merci* is come hither from Prince *Lewis's* Army, intending to serve as a Volunteer in that Expedition.

*Whitehaven, November 12.* The *Love*, belonging to this Place, which came from *Virginia* with the late Fleet, and was given over for lost, arrived here yesterday from *Lamb-Lash* in *Scotland*, having put in there after she had been separated from the said Fleet.

*Falmouth, November 13.* The *Mansbridge* Packet-Boat arrived here the 9th Instant from *Lisbon*. The next day four *Dutch* Privateers, with as many Prizes, which they have lately taken and brought into this Port, and about 20 Sail of Coasters under their Convoy, failed from hence to the Eastward. Yesterday 3 Ships, belonging to *Amsterdam*, and bound home from the Coast of *Barbary*, put into this Port.
