Lubon, Dec. 27. N. S. We are extreamly pleased here with the Resolutions of the House of Commons, s well what related to the carrying on the whole War, as what related in particular to Pertugal; and the King feems much pleased with these Proceedings, especially with the Address of the House of Commons after the Storm, to defire the Queen to build more Ships, and take care of the Families of the Seamen who were loft, because it is a great Assurance, That all the Allies may depend on the Assistance of England, norwithstanding any ill Success.

Turin, Jan 3. On the 19th of the last Month publick Notice was given. That the Duke having ordered 2 Redoubts to be made in the Valley of Valentino, and a Half-Moon before the Bastion of Santa Christina, any Persons who would be willing to surnish the necessary Materials for those Works, might make their Proposals to cerrain Persons, who were apare wanting which may contribute to the Security of this Town, or any other part of his Royal Highnels's Dominions, care being taken to have the Fortifications of all his Frontier Towns in good repair, and the Magazines well stored with Provisions and Ammunition, for which purpole leveral Pieces of Cannon, with confiderable quantities of Arms and Ammunition, were fent from hence last week to Veme, Alba, Chieri, and other Places. Directions are given for Cloathing to be got ready for 8 Regiments of Foot, of 900 Men each, which it is said our Duke will raise in Swifferland. These great Preparations requiring extraordinary Supplies, several Methods of raising them have been proposed, and. one of those which are most likely to be followed is, the requiring the several Provinces to furnish each a certain Sum, in proportion to the Wealth of their Inhabitants: That the States of each Province shall ailess the several Towns within their District, and the Magistrates of each Town the Inhabitants thereof; and it is believed that Two Millions of Crowns may eafily be raifed this way, without burthening the People. One Giacomo Mate, who was formerly, Fiscal of Villa-Nova d'Asti, endeavoured lately to bring a Body of French Troops into Riva, to surprise a Regiment of our Dragoons which was quartered there; but this Attempt miscarried, and this Mate being feized, was fentenced to be hanged, and was accordingly executed on the first Instant. The Maryquisses of Tornon and Alba, and the Chevalier Cara line, 3 of the Duke of Savoy's Officers, who ferved in those Troops of his Royal Highness's which were feized and dilarmed by the French in the Milaneze, arrived here the 21st past, having made their Escape ont of the hands of the Enemy. The Vaudois make Excursions into Dauphine with very good Success. and have already railed Contributions to the Value: of above 50000 Livres, which they presented to the Duke of Savoy, who was pleafed to thank them, and to defire they would distribute it among them-They have, by his Royal Highness's Leave, chosen one Malanot, who was one of their Captains in the late War, to command them in Chief, and he is come hither to wait upon the Duke, and to re-ceive his Orders. The German Forces under Major-General Visconti have been joined by a good number, of German Horse, which have found the Means to get hither through the Milaneze 3 or 4 in a Company, so that they are now a Body of 1650 strong. We hear the French Soldiers in Asti are very fickly, and that many of them have died within these few
